

Note: This site is located in the County adjoining Wichita's city limits. The applicant has submitted a zone change request to Limited Industrial. MAPD has recommended a zone change to IP, Industrial Park.

STAFF COMMENTS:

- A. As this site is adjacent to Wichita's city limits, the applicant shall submit a request for annexation.
- B. The applicant shall submit a guarantee for extension of City water and sanitary sewer. City Engineering needs to indicate the status of the Wichita water and sanitary sewer services for this area and the need for any other guarantees.
- C. Depending upon the status of City water and sanitary sewer, the Health Department needs to comment on the possible use of on-site temporary facilities for this site.
- D. If improvements are guaranteed by petition, a notarized certificate listing the petitions shall be submitted to the Planning Department for recording.
- E. City Engineering needs to comment on the status of the applicant's drainage concept.
- F. County Engineering needs to comment on the need for access controls. County Engineering requests the dedication of complete access control along 21st Street North. Access to Lots 10 and 11 would be from the internal street. The dedication of access controls shall be referenced in the plat's text of the final plat.
- G. County Engineering needs to comment on the need for additional right-of-way. County Engineering has requested the dedication of an additional 10 foot of right-of-way for 21st Street North.
- H. This property is within a zone identified by the City Engineer's office as likely to have groundwater at some or all times within 10 feet of the ground surface elevation. Building with specially engineered foundations or with the lowest floor opening above groundwater is recommended, and owners seeking building permits on this property will be similarly advised. More detailed information on recorded groundwater elevations in the vicinity of this property is available in the City Engineer's office.
- I. The applicant is reminded that a platting binder is required with the final plat. Approval of this plat will be subject to submittal of this binder and any relevant conditions found by such a review.
- J. The applicant shall provide a guarantee for the paving of the internal street to the industrial street standards.
- K. The applicant shall submit a copy of the instrument which establishes the pipeline easements on the property, which verifies that the easements shown are sufficient and that utilities may be located adjacent to and within the easements.
- L. It is requested that the final plat shall reference a tie point to a section corner.
- M. Provisions shall be made for ownership and maintenance of the proposed reserves. The applicant shall either form a lot owners' association prior to recording the plat or shall submit a covenant stating when the association will be formed, when the reserves will be deeded to the

association and who is to own and maintain the reserves prior to the association taking over those responsibilities.

- N. For those reserves being platted for drainage purposes, the required covenant which provides for ownership and maintenance of the reserves shall grant, to the City, the authority to maintain the drainage reserves in the event the owner(s) fail to do so. The covenant shall provide for the cost of such maintenance to be charged back to the owner(s) by the governing body.
- O. City Fire Department should comment on the length of the internal street, which is approximately 1,300 feet, exceeding the 600-ft limitation required by the Subdivision Regulations. City Fire Department should comment on the need for an emergency access connecting with 21st Street North to provide an additional point of access.
- P. In order to facilitate future development of the property to the west, it is requested that the internal street be extended to the west; or a contingent dedication of right-of-way provided between Lots 4 and 5, and along the south line of Lot 1.
- Q. City Fire Department should comment on the plat's street name.
- R. The plat's text shall include language that a drainage plan has been developed for the plat and that all drainage easements, rights-of-way, or reserves shall remain at established grades or as modified with the approval of the applicable City or County Engineer, and unobstructed to allow for the conveyance of stormwater.
- S. The applicant shall install or guarantee the installation of all utilities and facilities which are applicable and described in Article 8 of the MAPC Subdivision Regulations. (Water service and fire hydrants required by Article 8 for fire protection shall be as per the direction and approval of the Chief of the Fire Department.)
- T. The applicant's engineer is advised that the Register of Deeds is requiring the name(s) of the notary public, who acknowledges the signatures on this plat, to be printed beneath the notary's signature.
- U. To receive mail delivery without delay, and to avoid unnecessary expense, the applicant is advised of the necessity to meet with the U.S. Postal Service Growth Management Coordinator (Phone: 316-729-0102) prior to development of the plat so that the type of delivery, and the tentative mailbox locations can be determined.
- V. The applicant is advised that various State and Federal requirements (specifically, but not limited to, the Army Corps of Engineers, Kanopolis Project Office, Rt. 1, Box 317, Valley Center, KS 67147) for the control of soil and wind erosion and the protection of wetlands may impact how this site can be developed. It is the applicant's responsibility to contact all appropriate agencies to determine any such requirements.
- W. The owner of the subdivision should be aware of the fact that the development of any subdivision greater than five (5) acres in size may require a NPDES Storm Water Discharge Permit from the Kansas Department of Health and Environment in Topeka. Further, on all construction sites, the City of Wichita requires that best management practices be used to reduce pollutant loadings in storm water runoffs.
- X. Perimeter closure computations shall be submitted with the final plat tracing.

- Y. Recording of the plat within thirty (30) days after approval by the City Council and/or County Commission.
- Z. The representatives from the utility companies should be prepared to comment on the need for any additional utility easements to be platted on this property.
- AA. The applicant is reminded that a disk shall be submitted with the final plat tracing to the Planning Department detailing this plat in digital format in AutoCAD. This will be used by the City and County GIS Department.

STAFF REPORT
(Final Plat, Preliminary Plat Approved 2/3/00)

CASE NUMBER: S/D 00-07-- ZOO BUSINESS PARK

APPLICANT: Coxco, LLC, 8309 W. Northridge Street Wichita, KS 67205

SURVEYOR/ENGINEER: Savoy, Ruggles and Bohm, 924 N. Main, Wichita, KS 67203

STAFF COMMENTS:

- A. The applicant shall submit a guarantee for extension of City water and sanitary sewer. **A sanitary sewer layout is requested.**
- B. Depending upon the status of City water and sanitary sewer, the **Health Department** needs to comment on the possible use of on-site temporary facilities for this site. **The applicant has requested a temporary holding tank for a portion of the site for use until municipal sewer is available.**
- C. If improvements are guaranteed by petition, a notarized certificate listing the petitions shall be submitted to the Planning department for recording.
- D. **City Engineering** needs to comment on the status of the applicant's drainage plan.
- E. **County Engineering** needs to comment on the need for access controls. **The Subdivision Committee approved one opening along 21st Street.**
- F. **County Engineering** needs to comment on the need for additional right-of-way. **County Engineering has requested the dedication of an additional 10 foot of right-of-way for 21st Street North.**

The requested right-of-way has been dedicated on the final plat.

- G. This property is within a zone identified by the City Engineers' office as likely to have groundwater at some or all times within 10 feet of the ground surface elevation. Building with specially engineered foundations or with the lowest floor opening above groundwater is recommended, and owners seeking building permits on this property will be similarly advised. More detailed information on recorded groundwater elevations in the vicinity of this property is available in the City Engineers' office.
- H. The applicant is reminded that a platting binder is required with the final plat. Approval of this plat will be subject to submittal of this binder and any relevant conditions found by such a review.
- I. **The applicant shall provide a guarantee for the paving of the internal street to the industrial street standards.**
- J. The applicant shall submit a copy of the instrument which establishes the pipeline easements on the property, which verifies that the easements shown are sufficient and that utilities may be located adjacent to and within the easements.
- K. The recording data on the pipeline easement needs changed from "Book" to "Film".
- L. The pipeline company needs to approve the portion of Zoo Park Circle located over the pipeline easement and located within the pipeline setback.
- M. The west boundary of this plat may need to be revised due to monuments set by Baughman Company for the proposed plat to the west.

- N. Provisions shall be made for ownership and maintenance of the proposed reserves. The applicant shall either form a lot owners' association prior to recording the plat or shall submit a covenant stating when the association will be formed, when the reserves will be deeded to the association and who is to own and maintain the reserves prior to the association taking over those responsibilities.
- O. For those reserves being platted for drainage purposes, the required covenant which provides for ownership and maintenance of the reserves shall grant, to the City, the authority to maintain the drainage reserves in the event the owner(s) fail to do so. The covenant shall provide for the cost of such maintenance to be charged back to the owner(s) by the governing body.
- P. City Fire Department should comment on the length of the internal street, which is approximately 1,300 feet, exceeding the 600-ft limitation required by the Subdivision Regulations. City Fire Department has requested an emergency access easement across Lot 10 connecting with 21st Street North to provide an additional point of access.
- The requested emergency access easement has been platted.
- Q. City Fire Department should comment on the plat's street name. The street name shall be Zoo Park Circle.
- R. In order to facilitate development of the adjoining property to the west and reduce the number of access openings along Hoover Road, MAPD requests that the internal street be extended to the west property line at two locations – between Lots 4 and 5 and at the south line of Lot 1.
- S. The plat's text shall include language that a drainage plan has been developed for the plat and that all drainage easements, rights-of-way, or reserves shall remain at established grades or as modified with the approval of the applicable City or County Engineer, and unobstructed to allow for the conveyance of stormwater.
- T. The applicant shall install or guarantee the installation of all utilities and facilities which are applicable and described in Article 8 of the MAPC Subdivision Regulations. (Water service and fire hydrants required by Article 8 for fire protection shall be as per the direction and approval of the Chief of the Fire Department.)
- U. The applicant's engineer is advised that the Register of Deeds is requiring the name(s) of the notary public, who acknowledges the signatures on this plat, to be printed beneath the notary's signature.
- V. To receive mail delivery without delay, and to avoid unnecessary expense, the applicant is advised of the necessity to meet with the U.S. Postal Service Growth Management Coordinator (phone 316-729-0102) prior to development of the plat so that the type of delivery, and the tentative mailbox locations can be determined.
- W. The applicant is advised that various State and Federal requirements [specifically but not limited to the Army Corps of Engineers, Kanopolis Project Office, Rt. 1, Box 317, Valley Center, KS 67147] for the control of soil and wind erosion and the protection of wetlands may impact how this site can be developed. It is the applicant's responsibility to contact all appropriate agencies to determine any such requirements.

- X. The owner of the subdivision should be aware of the fact that the development of any subdivision greater than five (5) acres in size may require an NPDES Storm Water Discharge Permit from the Kansas Department of Health and Environment in Topeka. Further, on all construction sites, the City of Wichita requires that best management practices be used to reduce pollutant loadings in storm water runoffs.
- Y. Perimeter closure computations shall be submitted with the final plat tracing.
- Z. Recording of the plat within thirty (30) days after approval by the City Council and/or County Commission.
- AA. The representatives from the utility companies should be prepared to comment on the need for any additional utility easements to be platted on this property.
- BB. The applicant is reminded that a disk shall be submitted with the final plat tracing to the Planning Department detailing this plat in digital format in AutoCAD. This will be used by the City and County GIS Department.
