(LBOR Approved – 1-15-10) Seller Property Condition Disclosure Statement

The following is a disclosure statement, made by the SELLER, of information concerning the condition of the Property during ownership of the Property, on the date on which it is signed. It is not a warranty of any kind by the SELLER(S) or any Agent representing any principal in this transaction, and should not be accepted as a substitute for any inspections or warranties the BUYER may wish to obtain. The information provided in this statement is the representation of the SELLER and not the representation of any Agent. The information contained herein is not intended to be part of any Contract between the SELLER and BUYER.

This disclosure statement concerns the real property situated at:

1208 E. ALTA		IN THE CITY OF WICHITA
COUNTY OF	SEDGWICK	, STATE OF KANSAS.

SELLER \prod /S \square IS NOT currently occupying the property.

SELLER has owned property since: 1994_

SELLER'S INFORMATION

The SELLER discloses the following information with the knowledge that even though this is not a warranty, prospective BUYERS may rely on this information in deciding whether, and on what terms, to purchase the subject real property. SELLER hereby authorizes any Agent(s) representing any principal(s) in this transaction to provide a copy of this statement to any person or entity in connection with any actual or possible sale of the real property.

Indicate the condition of the following items by marking the appropriate box. Check only one box per item. If negotiable, so indicate by writing "NEGOTIABLE" next to the item.

BUYER'S RECEIPT OF DISCLOSURE STATEMENT

BUYER acknowledges that this disclosure does not constitute a warranty. The BUYER is urged to carefully inspect the property and to have the property inspected by a qualified inspector. The BUYER understands that there are areas of the property of which the SELLER has no knowledge and this disclosure statement does not encompass those areas. The BUYER also acknowledges that he has read and received a signed copy of this statement from the SELLER or SELLER'S Agent. The BUYER acknowledges any personal property not included in the sales contract remains the property of the SELLER.

BUYER'S RIGHT TO PROFESSIONAL COUNSEL: BUYER acknowledges and agrees that the purchase of real property encompasses many professional disciplines, and while Broker possesses considerable general knowledge, Broker is not expert in matters of law, tax, financing, surveying, structural conditions, hazardous material, engineering, etc. BUYER acknowledges that BUYER has been advised by Broker to seek professional expert assistance and advice in those and other areas of professional expertise. In the event that Broker provides to BUYER names or sources for such advice and assistance, BUYER acknowledges and agrees that Broker does not warrant or guarantee such services and/or products.

BUYER herein understands that outside legal and tax counsel is recommended. Comprehensive mechanical, structural and other inspections are recommended. If, at BUYER'S option and choice, BUYER decides not to conduct inspections or obtain tax and legal counsel before closing, then BUYER accepts the Property in its present condition and will make no claim against SELLER, Brokers, or agents, based upon the lack of tax or legal counsel or based on any known or unknown past, current, or future condition of the above property and/or its improvements including but not limited to latent or patent defects, repairs, or replacements.

BUYER is advised that school boundaries are subject to change.

BUYER is advised that Kansas law requires persons who are convicted of certain sexually violent crimes after April 14, 1994, to register with the sheriff of the county in which they reside. BUYER is advised that information regarding those registrants may be available through the Kansas Bureau of Investigation (home page address: http://www.kansas.gov/kbi/_or by contacting the local sheriff's office.

BUYER is advised that fungal contaminants (molds, etc.) may exist in the Property of which the Seller is unaware. These contaminants generally grow in places where there is excessive moisture, such as where leakage may have occurred in roofs, pipes, walls, plant pots, or where there has been flooding. A professional home inspection may not disclose fungal contaminants. BUYER may wish to obtain an inspection specifically for fungal contaminants to more fully determine the condition of the Property and its environmental status. Companies may be found in the Yellow Pages under "Environmental and Ecological Equipment and Services." Additional information about mold/fungal contaminants may be found at the following Internet Web Site: http://www.cdc.gov/mold/faqs.htm.

RADON: Every buyer of residential real property is notified that the property may present exposure to dangerous concentrations of indoor radon gas that may place occupants at risk of developing radon-induced lung cancer. Radon, a class-A human carcinogen, is the leading cause of lung cancer in non-smokers and the second leading cause overall. Kansas law requires sellers to disclose any information known to the seller that shows elevated concentrations of radon gas in residential real property. The Kansas Department of Health and Environment recommends all homebuyers have an indoor radon test performed prior to purchasing or taking occupancy of residential real property. All testing for radon should be conducted by a radon measurement technician. Elevated radon concentrations can be easily reduced by a radon mitigation technician. For additional information go to http://www.kansasradonprogram.org. BUYER acknowledges that SELLER does not warrant code compliance.

1.0 EXECUTIVE SUMMARY

Spectrum Environmental, Inc. (Spectrum) has prepared this Phase I Environmental Site Assessment (Phase I ESA) report for the property located at 1208 E Alta Street, 1213 E Selma Street, and 1325 E Selma Street in Wichita, KS in accordance with American Society of Testing and Materials (ASTM) Practice E 1527-21, <u>Standard Practice for Environmental Site Assessments: Phase I Environmental Site Assessment Process</u>, which Spectrum believes to be in accordance with EPA Standards and Practices for All Appropriate Inquiries (AAI) Regulation listed under 40 CFR Part 312.

The objective of this Phase I ESA was to identify, to the extent feasible, *recognized environmental conditions*¹ (RECs) in connection with the subject property, if any. To accomplish this objective, Spectrum conducted a review of reasonably ascertainable² records (and practically reviewable³), conducted a site reconnaissance, conducted interviews of persons knowledgeable of the site/surrounding areas, and evaluated the data for reporting.

It should be noted that this section is only intended to represent a brief summary of our findings and is not a detailed account of all the information compiled in preparation of this report. The user should review the Phase I in its entirety prior to drawing any final conclusions as to potential environmental conditions associated with the site.

SPECTRUM ENVIRONMENTAL, INC.

¹ Recognized Environmental Condition - (1) the presence of hazardous substances or petroleum products in, on, or at the subject property due to a release to the environment; (2) the likely presence of hazardous substances or petroleum products in, on, or at the subject property due to a release or likely release to the environment; or (3) the presence of hazardous substances or petroleum products in, on, or at the subject property under conditions that pose a material threat of a future release to the environment.
² Reasonably ascertainable – Information that is: (1) publicly available, (2) obtainable from its source within reasonable time and cost

 ² Reasonably ascertainable – Information that is: (1) publicly available, (2) obtainable from its source within reasonable time and cost constraints, and (3) practically reviewable.
 ³ Practically Reviewable – Means that information provided by the source in a manner and in a form, that, upon examination, yields

³ Practically Reviewable – Means that information provided by the source in a manner and in a form, that, upon examination, yields information relevant to the subject property without the need for extraordinary analysis of irrelevant data.

Phase I Environmental Site Assessment Report

SCATTERED SITES (E ALTA & E SELMA ST), WICHITA, KANSAS PROJECT NO. 3389-003-18

1.2 Conclusions & Recommendation

Spectrum has performed a Phase I Environmental Site Assessment in accordance with the scope and limitations of ASTM Practice E 1527-21 of the subject property. A summary of the findings is provided below.

Recognized Environmental Conditions (REC)⁴

Based on our review of current and historical site data combined with information collected during the site reconnaissance, no RECs were identified in connection with the subject property.

Historical Recognized Environmental Conditions (HREC)⁵

Based on our review of current and historical site data, no HRECs were identified in connection with the subject property.

Controlled Recognized Environmental Conditions (CREC)⁶

Based on our review of current and historical site data, no CRECs were identified in connection with the subject property.

Business Environmental Risks (BER)⁷

Based on our review of current and historical site data, the following BERs were identified in connection with the subject property:

- Asbestos Containing Materials (ACMs) identified at 1208 E Alta Street; and
- Radon level exceeding 4 pCi/L at 1325 E Selma Street.

⁴ *Recognized Environmental Condition* - (1) the presence of hazardous substances or petroleum products in, on, or at the subject property due to a release to the environment; (2) the likely presence of hazardous substances or petroleum products in, on, or at the subject property due to a release or likely release to the environment; or (3) the presence of hazardous substances or petroleum products in, on, or at the subject property under conditions that pose a material threat of a future release to the environment.

⁵ Historical Recognized Environmental Condition - a previous release of hazardous substances or petroleum products affecting the subject property that has been addressed to the satisfaction of the applicable regulatory authority or authorities and meeting unrestricted use criteria established by the applicable regulatory authority or authorities without subjecting the subject property to any controls (for example, activity and use limitations or other property use limitations). A historical recognized environmental condition is not a recognized environmental condition.

⁶ Controlled Recognized Environmental Condition - REC affecting the subject property that has been addressed to the satisfaction of the applicable regulatory authority or authorities with hazardous substances or petroleum products allowed to remain in place subject to implementation of required controls (for example, activity and use limitations or other property use limitations). Based on our review of current and historical site data, no CRECs were identified in connection with the subject property.

⁷ Business Environmental Risk - a risk which can have a material environmental or environmentally-driven impact on the business associated with the current or planned use of commercial real estate, not necessarily related to those environmental issues required to be investigated in this practice

PHASE I ENVIRONMENTAL SITE ASSESSMENT REPORT SCATTERED SITES (E ALTA & E SELMA ST), WICHITA, KANSAS PROJECT NO. 3389-003-18

Recommendations

Based on these findings, an ACM Operations & Maintenance Program is recommended for the property. Additionally, Spectrum recommends retesting for radon at 1325 E Selma Street.

2.1 Purpose

The purpose of this Phase I Environmental Site Assessment (Phase I ESA) is to identify, to the extent feasible pursuant to the processes prescribed in the ASTM, E1527-21 Standard Practice for Environmental Site Assessments: Phase I Environmental Site Assessment Process, recognized environmental conditions (RECs) in connection with the property. The term REC means "means (1) the presence of hazardous substances or petroleum products in, on, or at the subject property due to a release to the environment; (2) the likely presence of hazardous substances or petroleum products in, on, or at the subject property due to a release to the subject property due to a release or likely release to the environment; or (3) the presence of hazardous substances that pose a material threat of a future release to the environment. A de minimis condition is not a REC." De minimis conditions is defined as "a condition related to a release that generally does not present a threat to human health or the environment and that generally would not be the subject of an enforcement action if brought to the attention of appropriate governmental agencies."

The Phase I ESA Process is intended to permit a *user* to satisfy one of the requirements to qualify for the *innocent landowner⁸*, *contiguous property owner⁹*, *or bona fide prospective*

SPECTRUM ENVIRONMENTAL, INC.

^{*} Innocent Landowner Defense: A person may qualify as one of three types of innocent landowners: (1) a person who "did not know and had no reason to know" that contamination existed on the subject property at the time the purchaser acquired the subject property; (2) a government entity which acquired the subject property by escheat, or through any other involuntary transfer or acquisition, or through the exercise of eminent domain authority by purchase or condemnation; or (3) a person who "acquired the facility by inheritance or bequest." To qualify for the innocent landowner defense, such person must have made all appropriate inquiries on or before the date of purchase. Furthermore, the all appropriate inquiries must not have resulted in knowledge of the contamination. If it does, then such person did "know" or "had reason to know" of contamination and would not be eligible for the innocent landowner defense.

⁹ Contiguous Property Owner Liability Protection: A person may qualify for the contiguous property owner liability protection if, among other requirements, such person owns real property that is contiguous to, and that is or may be contaminated by hazardous substances from other real property that is not owned by that person. Furthermore, such person conducted all appropriate inquiries at the time of acquisition of the subject property and did not know or have reason to know that the subject property was or could be contaminated by a release or threatened release from the contiguous property. The all appropriate inquiries must not result in knowledge of contamination. If it does, then such person did "know" or "had reason to know" of contamination and would not be eligible for the contiguous property owner liability protection.
