# Seller Property Condition Disclosure Statement

The following is a disclosure statement, made by the SELLER, of information concerning the condition of the Property during ownership of the Property, on the date on which it is signed. It is not a warranty of any kind by the SELLER(S) or any Agent representing any principal in this transaction, and should not be accepted as a substitute for any inspections or warranties the BUYER may wish to obtain. The information provided in this statement is the representation of the SELLER and not the representation of any Agent. The information contained herein is not intended to be part of any Contract between the SELLER and BUYER.

This disclosure statement concerns the real property situated at:

2318 W. 33<sup>RD</sup> STREET SOUTH IN THE CITY OF WICHITA,

COUNTY OF SEDGWICK, STATE OF KANSAS.

SELLER ☒ IS ☐ IS NOT currently occupying the property.

SELLER has owned property since: 1976.

## SELLER'S INFORMATION

The SELLER discloses the following information with the knowledge that even though this is not a warranty, prospective BUYERS may rely on this information in deciding whether, and on what terms, to purchase the subject real property. SELLER hereby authorizes any Agent(s) representing any principal(s) in this transaction to provide a copy of this statement to any person or entity in connection with any actual or possible sale of the real property.

Indicate the condition of the following items by marking the appropriate box. Check only one box per item. If negotiable, so indicate by writing "NEGOTIABLE" next to the item.

## BUYER'S RECEIPT OF DISCLOSURE STATEMENT

**BUYER acknowledges that this disclosure does not constitute a warranty.** The BUYER is urged to carefully inspect the property and to have the property inspected by a qualified inspector. The BUYER understands that there are areas of the property of which the SELLER has no knowledge and this disclosure statement does not encompass those areas. The BUYER also acknowledges that he has read and received a signed copy of this statement from the SELLER or SELLER'S Agent. The BUYER acknowledges any personal property not included in the sales contract remains the property of the SELLER.

**BUYER'S RIGHT TO PROFESSIONAL COUNSEL:** BUYER acknowledges and agrees that the purchase of real property encompasses many professional disciplines, and while Broker possesses considerable general knowledge, Broker is not expert in matters of law, tax, financing, surveying, structural conditions, hazardous material, engineering, etc. BUYER acknowledges that BUYER has been advised by Broker to seek professional expert assistance and advice in those and other areas of professional expertise. In the event that Broker provides to BUYER names or sources for such advice and assistance, BUYER acknowledges and agrees that Broker does not warrant or guarantee such services and/or products.

BUYER herein understands that outside legal and tax counsel is recommended. Comprehensive mechanical, structural and other inspections are recommended. If, at BUYER'S option and choice, BUYER decides not to conduct inspections or obtain tax and legal counsel before closing, then BUYER accepts the Property in its present condition and will make no claim against SELLER, Brokers, or agents, based upon the lack of tax or legal counsel or based on any known or unknown past, current, or future condition of the above property and/or its improvements including but not limited to latent or patent defects, repairs, or replacements.

BUYER is advised that school boundaries are subject to change.

BUYER is advised that Kansas law requires persons who are convicted of certain sexually violent crimes after April 14, 1994, to register with the sheriff of the county in which they reside. BUYER is advised that information regarding those registrants may be available through the Kansas Bureau of Investigation (home page address: <http://www.kansas.gov/kbi/>) or by contacting the local sheriff's office.

BUYER is advised that fungal contaminants (molds, etc.) may exist in the Property of which the Seller is unaware. These contaminants generally grow in places where there is excessive moisture, such as where leakage may have occurred in roofs, pipes, walls, plant pots, or where there has been flooding. A professional home inspection may not disclose fungal contaminants. BUYER may wish to obtain an inspection specifically for fungal contaminants to more fully determine the condition of the Property and its environmental status. Companies may be found in the Yellow Pages under "Environmental and Ecological Consultants," or "Environmental and Ecological Equipment and Services." Additional information about mold/fungal contaminants may be found at the following Internet Web Site: <http://www.cdc.gov/mold/faqs.htm>.

**RADON:** Every buyer of residential real property is notified that the property may present exposure to dangerous concentrations of indoor radon gas that may place occupants at risk of developing radon-induced lung cancer. Radon, a class-A human carcinogen, is the leading cause of lung cancer in non-smokers and the second leading cause overall. Kansas law requires sellers to disclose any information known to the seller that shows elevated concentrations of radon gas in residential real property. The Kansas Department of Health and Environment recommends all homebuyers have an indoor radon test performed prior to purchasing or taking occupancy of residential real property. All testing for radon should be conducted by a radon measurement technician. Elevated radon concentrations can be easily reduced by a radon mitigation technician. For additional information go to <http://www.kansasradonprogram.org>. BUYER acknowledges that SELLER does not warrant code compliance.

## 1.0 EXECUTIVE SUMMARY

Spectrum Environmental, Inc. (Spectrum) has prepared this Phase I Environmental Site Assessment (Phase I ESA) report for the property located at 3330 S Euclid Street, 3524 S Bonn Street, and 2318 W 33<sup>rd</sup> Street in Wichita, KS in accordance with American Society of Testing and Materials (ASTM) Practice E 1527-21, Standard Practice for Environmental Site Assessments: Phase I Environmental Site Assessment Process, which Spectrum believes to be in accordance with EPA Standards and Practices for All Appropriate Inquiries (AAI) Regulation listed under 40 CFR Part 312.

The objective of this Phase I ESA was to identify, to the extent feasible, *recognized environmental conditions*<sup>1</sup> (RECs) in connection with the subject property, if any. To accomplish this objective, Spectrum conducted a review of reasonably ascertainable<sup>2</sup> records (and practically reviewable<sup>3</sup>), conducted a site reconnaissance, conducted interviews of persons knowledgeable of the site/surrounding areas, and evaluated the data for reporting.

It should be noted that this section is only intended to represent a brief summary of our findings and is not a detailed account of all the information compiled in preparation of this report. The user should review the Phase I in its entirety prior to drawing any final conclusions as to potential environmental conditions associated with the site.

---

<sup>1</sup> *Recognized Environmental Condition* - (1) the presence of hazardous substances or petroleum products in, on, or at the subject property due to a release to the environment; (2) the likely presence of hazardous substances or petroleum products in, on, or at the subject property due to a release or likely release to the environment; or (3) the presence of hazardous substances or petroleum products in, on, or at the subject property under conditions that pose a material threat of a future release to the environment.

<sup>2</sup> Reasonably ascertainable - Information that is: (1) publicly available, (2) obtainable from its source within reasonable time and cost constraints, and (3) practically reviewable.

<sup>3</sup> Practically Reviewable - Means that information provided by the source in a manner and in a form, that, upon examination, yields information relevant to the subject property without the need for extraordinary analysis of irrelevant data.

## 1.1 Property Summary Table

A summary of the pertinent details of the project is provided below.

Project Summary Table					
Name of Client:		City of Wichita Housing and Community Services Department		Project Number: 3389-003-11	
Client Contact:		Sally Stang			
Project Description:		Phase I ESA			
Property Name:		Single Family Homes – HUD Section 18			
Property Address:		3330 S Euclid Street, 3524 S Bonn Street, and 2318 W 33rd Street			
City:	Wichita	County:	Sedgwick	State:	KS
Tax Map Designated Parcel Number:		See Table Below			
Property Area (Acres):		See Table Below			
Building Area (Square Feet):		See Table Below			
Assessor Designated Site Use:		Residential			
Year Built:		See Table Below			
Property Owner:		City of Wichita			
Assessment Personnel:		Audrey Henson			
Accompanied/Escorted By:		Leon Salazar			
Property Contact:		Leon Salazar			
Inspection Date:		May 3, 2022			
Weather Conditions:		Cloudy			

Property Table				
Property Address	Parcel Number	Property Area (Acres)	Building Area (Square Feet)	Year Built (Tax Data)
3330 S Euclid Street	087-213-07-0-21-06-006.00	0.19	987	1956
3524 S Bonn Street	087-213-07-0-24-06-005.00	0.19	1,088	1976
2318 33 <sup>rd</sup> Street	087-213-07-0-22-04-014.00	0.19	746	1930

## 1.2 Table of Critical Dates

Table of Critical Dates	
Report Issuance Date	July 7, 2022
Date of Interview of Past and Present Owners and Occupants	June 1, 2022
Date of Recorded Environmental Clean-up Lien Search	-
Date of Government Record Review	June 13, 2022
Date of Visual Inspection of Subject and Adjoining Properties	May 3, 2022
Earliest Date of Interviews, Lien Search, Records Reviews and Inspections	April 13, 2022
Report Viability Date	October 10, 2022

## 1.2 Conclusions & Recommendation

Spectrum has performed a Phase I Environmental Site Assessment in accordance with the scope and limitations of ASTM Practice E 1527-21 of the subject property. A summary of the findings is provided below.

<b>Recognized Environmental Conditions (REC)<sup>4</sup></b>
Based on our review of current and historical site data combined with information collected during the site reconnaissance, no RECs were identified in connection with the subject property.
<b>Historical Recognized Environmental Conditions (HREC)<sup>5</sup></b>
Based on our review of current and historical site data, no HRECs were identified in connection with the subject property.
<b>Controlled Recognized Environmental Conditions (CREC)<sup>6</sup></b>
Based on our review of current and historical site data, no CRECs were identified in connection with the subject property.
<b>Business Environmental Risks (BER)<sup>7</sup></b>
Based on our review of current and historical site data, the following BERs were identified in connection with the subject property: <ul style="list-style-type: none"> <li>Asbestos Containing Materials (ACMs) identified at 2318 W. 33<sup>rd</sup> Street and 3524 S. Bonn Street;</li> <li>Lead Based Paint (LBP) identified in the structure at 3330 S. Euclid; and</li> <li>The lack of LBP data for the structure located at 2318 W. 33<sup>rd</sup> Street.</li> </ul>
<b>Recommendations</b>
Based on these findings, a LBP & ACM Operations & Maintenance Program is recommended for the property. Spectrum recommends that the LBP report for 2318 W 33 <sup>rd</sup> Street (if an inspection has been conducted) is provided to Spectrum for review or that the property is re-tested for LBP.

<sup>4</sup> *Recognized Environmental Condition* - (1) the presence of hazardous substances or petroleum products in, on, or at the subject property due to a release to the environment; (2) the likely presence of hazardous substances or petroleum products in, on, or at the subject property due to a release or likely release to the environment; or (3) the presence of hazardous substances or petroleum products in, on, or at the subject property under conditions that pose a material threat of a future release to the environment.

<sup>5</sup> *Historical Recognized Environmental Condition* - a previous release of hazardous substances or petroleum products affecting the subject property that has been addressed to the satisfaction of the applicable regulatory authority or authorities and meeting unrestricted use criteria established by the applicable regulatory authority or authorities without subjecting the subject property to any controls (for example, activity and use limitations or other property use limitations). A historical recognized environmental condition is not a recognized environmental condition.

<sup>6</sup> *Controlled Recognized Environmental Condition* - REC affecting the subject property that has been addressed to the satisfaction of the applicable regulatory authority or authorities with hazardous substances or petroleum products allowed to remain in place subject to implementation of required controls (for example, activity and use limitations or other property use limitations). Based on our review of current and historical site data, no CRECs were identified in connection with the subject property.

<sup>7</sup> *Business Environmental Risk* - a risk which can have a material environmental or environmentally-driven impact on the business associated with the current or planned use of commercial real estate, not necessarily related to those environmental issues required to be investigated in this practice

## 2.0 INTRODUCTION

---

### 2.1 Purpose

The purpose of this Phase I Environmental Site Assessment (Phase I ESA) is to identify, to the extent feasible pursuant to the processes prescribed in the ASTM, E1527-21 Standard Practice for Environmental Site Assessments: Phase I Environmental Site Assessment Process, recognized environmental conditions (RECs) in connection with the property. The term REC means "means (1) the presence of hazardous substances or petroleum products in, on, or at the subject property due to a release to the environment; (2) the likely presence of hazardous substances or petroleum products in, on, or at the subject property due to a release or likely release to the environment; or (3) the presence of hazardous substances or petroleum products in, on, or at the subject property under conditions that pose a material threat of a future release to the environment. A de minimis condition is not a REC." De minimis conditions is defined as "a condition related to a release that generally does not present a threat to human health or the environment and that generally would not be the subject of an enforcement action if brought to the attention of appropriate governmental agencies."

The Phase I ESA Process is intended to permit a *user* to satisfy one of the requirements to qualify for the *innocent landowner*<sup>8</sup>, *contiguous property owner*<sup>9</sup>, or *bona fide prospective*

---

<sup>8</sup> Innocent Landowner Defense: A person may qualify as one of three types of innocent landowners: (1) a person who "did not know and had no reason to know" that contamination existed on the subject property at the time the purchaser acquired the subject property; (2) a government entity which acquired the subject property by escheat, or through any other involuntary transfer or acquisition, or through the exercise of eminent domain authority by purchase or condemnation; or (3) a person who "acquired the facility by inheritance or bequest." To qualify for the innocent landowner defense, such person must have made all appropriate inquiries on or before the date of purchase. Furthermore, the all appropriate inquiries must not have resulted in knowledge of the contamination. If it does, then such person did "know" or "had reason to know" of contamination and would not be eligible for the innocent landowner defense.

<sup>9</sup> Contiguous Property Owner Liability Protection: A person may qualify for the contiguous property owner liability protection if, among other requirements, such person owns real property that is contiguous to, and that is or may be contaminated by hazardous substances from other real property that is not owned by that person. Furthermore, such person conducted all appropriate inquiries at the time of acquisition of the subject property and did not know or have reason to know that the subject property was or could be contaminated by a release or threatened release from the contiguous property. The all appropriate inquiries must not result in knowledge of contamination. If it does, then such person did "know" or "had reason to know" of contamination and would not be eligible for the contiguous property owner liability protection.

*purchaser*<sup>10</sup> limitations on Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA) liability (*landowner liability protections*).

## 2.2 Detailed Scope of Services

Spectrum employs a phased approach to site investigations by outlining and completing specific work tasks. A Phase I ESA usually consists of a records review, site reconnaissance, personal interviews, and the generation of a report. Results of the initial Phase I ESA help assess whether further investigations may be necessary.

### 2.2.1 Records Review

The purpose of the records review is to obtain and review records that will help identify RECs in connection with the property. Accuracy and completeness of record information varies among information sources, including governmental sources. Record information is often inaccurate or incomplete. The user or environmental professional is not obligated to identify mistakes or insufficiencies in information provided. However, the environmental professional reviewing records shall make a reasonable effort to compensate for mistakes or insufficiencies in the information reviewed that are obvious in light of other information of which the environmental professional has actual knowledge. A listing of standard environmental record sources, as described in Table 2 of the ASTM 1527-21 Standard is listed below.

---

<sup>10</sup> Bona fide prospective purchaser liability protection: A person may qualify as a bona fide prospective purchaser if, among other requirements, such person made "all appropriate inquiries into the previous ownership and uses of the facility in accordance with generally accepted good commercial and customary standards and practices." Knowledge of contamination resulting from all appropriate inquiries would not generally preclude this liability protection. A person must make all appropriate inquiries on or before the date of purchase. The facility must have been purchased after January 11, 2002.

Types of Government Records to be Reviewed		
Standard Environmental Record Resources (where available)	Common Sources for Government Records	Approximate Minimum Search Distance miles (kilometers)
Lists of Federal NPL (Superfund) sites	U.S. EPA Website and available EPA databases listing currently listed sites	1.0 (1.6)
Lists of Federal Delisted NPL sites	U.S. EPA Website and available EPA databases listing delisted NPL sites	0.5 (0.8)
Lists of Federal sites subject to CERCLA removals and CERCLA orders <sup>A</sup>	U.S. EPA Websites (HQs and Regions)	0.5 (0.8)
Lists of Federal CERCLA sites with NFRAP <sup>B</sup>	U.S. EPA Websites (HQs and Regions)	0.5 (0.8)
Lists of Federal RCRA facilities undergoing Corrective Action	U.S. EPA Website and available EPA databases listing RCRA permitted or interim status facilities undergoing corrective action	1.0 (1.6)
Lists of Federal RCRA TSD facilities <sup>A</sup>	U.S. EPA Website and available EPA databases listing RCRA permitted and interim status facilities	0.5 (0.8)
Lists of Federal RCRA generators	U.S. EPA Website and available EPA databases listing RCRA Generators of hazardous waste	subject property and adjoining properties
Federal institutional control/engineering control registries	U.S. EPA Website and available EPA data bases listing response actions at CERCLA sites; RCRA sites with ICs/ECs, etc.	subject property only
Federal ERNS list	EPA and US Coast Guard websites and data bases;	subject property only
Lists of state- and tribal "Superfund" equivalent sites <sup>A</sup>	Varies by state / tribe	1.0 (1.6)
Lists of state- and tribal hazardous waste facilities	Varies by state / tribe	0.5 (0.8)
Lists of state and tribal landfills and solid waste disposal facilities	Varies by state / tribe	0.5 (0.8)
Lists of state and tribal leaking storage tanks <sup>A</sup>	Varies by state / tribe	0.5 (0.8)
Lists of state and tribal registered storage tanks	Varies by state / tribe	subject property and adjoining properties
State and tribal institutional control/ engineering control registries	Varies by state / tribe	subject property only
Lists of state and tribal voluntary cleanup sites <sup>A</sup>	Varies by state / tribe	0.5 (0.8)
Lists of state and tribal brownfield sites	Varies by state / tribe	0.5 (0.8)

<sup>A</sup> Records should be researched for both currently active and formerly active sites.

<sup>B</sup> Sites where, following an initial investigation, no contamination was found, contamination was removed quickly without the need for the site to be placed on the NPL, or the contamination was not serious enough to require Federal Superfund action. This should not be interpreted as there being no contamination at the site or that other regulatory agencies, such as at the State level, have not required further action. Such sites may be listed in other environmental record resources.

Other sources of information that could be reviewed include, but is not limited to, the Kansas Department of Health and Environment (KDHE), the local Fire Department, Planning Department, Building Permits Department, aerial photographs, fire insurance maps, property tax files, recorded land title records, topographic maps, and city directories.

### 2.2.2 Site Reconnaissance

The objective of the site reconnaissance was to collect information and make observations to help identify RECs in connection with the subject property. A site reconnaissance was conducted by Spectrum personnel experienced in hazardous materials/petroleum product surveys. Surface conditions and current activities on the subject property and on adjoining properties were observed. An inventory of potential contaminant sources on, and adjoining, the subject property was completed based on regulatory agency record reviews and visual observations. Limitations encountered during the site reconnaissance are included in the discussion of the report.

## Disclosure of Information on Lead-Based Paint and Lead-Based Paint Hazards

### Lead Warning Statement

Housing built before 1978 may contain lead-based paint. Lead from paint, paint chips, and dust can pose health hazards if not taken care of properly. Lead exposure is especially harmful to young children and pregnant women. Before renting pre-1978 housing, landlords must disclose the presence of known lead-based paint and lead-based paint hazards in the dwelling. Tenants must also receive a federally approved pamphlet on lead poisoning prevention.

### Lessor's Disclosure (*initial*)

\_\_\_ (a) Presence of lead-based paint or lead-based paint hazards (check one below):

☐

Known lead-based paint and/or lead-based paint hazards are present in the housing (explain).

\_\_\_\_\_  
\_\_\_\_\_

☐

Lessor has no knowledge of lead-based paint and/or lead-based paint hazards in the housing.

\_\_\_ (b) Records and reports available to the lessor (check one below)

☒

Lessor has provided the lessee with all available records and reports pertaining to lead-based paint and/or lead-based paint hazards in the housing (list documents below).

Spectrum Environmental O & M

\_\_\_\_\_  
\_\_\_\_\_

☐

Lessor has no reports or records pertaining to lead-based paint and/or lead-based paint hazards in the housing.

### Lessee's Acknowledgement (*initial*)

\_\_\_ (c) Lessee has received copies of all information listed above

\_\_\_ (d) Lessee has received the pamphlet "Protect Your Family from Lead in Your Home."

### Agent's Acknowledgment (*initial*)

\_\_\_ (e) Agent has informed the lessor of the lessor's obligations under 42 U.S.C. 4852(d) and is aware of his/her responsibility to ensure compliance.

### Certification of Accuracy

The following parties have reviewed the information above and certify, to the best of their knowledge, that the information provided by the signatory is true and accurate.
