Re: Administrative Adjustment 00-05: An administrative adjustment to reduce the parking requirements by 25 percent.

Legal Description: Lot 1, McMillen 2nd Addition, Lot 1, Rand Addition, and Lot 1, Block 1, Eureka Addition to Wichita, Sedgwick County, Kansas. Generally located on the south side of Taft Street between Florence Street and West Street (500 S. Florence).

Dear Ms. Adkinson:

We have reviewed your request for an Administrative Adjustment to allow the 25% reduction in the parking requirements for the parking lot currently shared by your company, Rand Graphics and the restaurant on the corner of West and Taft Streets. You state in your application that the parking requirements exceed the number of employees occupying the graphic facility. The parking is shared with the adjacent restaurant and is occupied by Rand Graphics employees at the time the restaurant is the least busy, i.e. off-peak hours. The parking requirements for the restaurant and the graphics facility are 135 and 100 spaces, respectively. By reducing the required parking spaces by 25%, this would leave 177 spaces available; more than necessary for each individual use. You state that your 1st and 3rd shift only has 77 employees and all 77 employees would not be there at the same.

The Unified Zoning Code allows an Administrative Adjustment that would reduce the parking requirements by up to 25% for manufacturing and warehousing uses. We find that the reduction of parking requirements meets the four conditions required by Section V-I.6 of the Unified Zoning Code as set out below:

- 1) Impact on safety and convenience of vehicular and pedestrian circulation: This request is for off-street parking in manufacturing and restaurant area for a business that employs fewer

employees than the number of spaces required by City Code. Public vehicular and pedestrian circulation will not be affected.

- 2) Impact on existing uses in surrounding areas: There should be no negative impact on the existing uses in surrounding areas as a result of the reduction in parking spaces as there should be no overflow parking requirements for customers of the restaurant or Rand Graphics employees at this location.
- 3) Compatibility with existing or permitted uses on abutting sites: The reduction in parking requirements is within allowable adjustments and will not detract from the existing manufacturing and restaurant uses.
- 4) Effect on public health, safety or welfare: There will be no encroachment into public utility easements or right-of-way; therefore, there should not be a negative impact on the public health, safety or welfare nor will properties or improvements in the vicinity be materially injured.

Our signatures below indicate that an Administrative Adjustment to allow the reduction in the parking requirements by 25% (from 235 spaces to 177 spaces) for the aforementioned property is hereby granted, subject to the following conditions:

- 1) The site shall be developed in general conformance with the site plan submitted as part of this application.
- 2) All parking areas shall be paved and marked and available for use by occupants of both businesses.
- 3) The maximum number of employees permitted on-site shall not exceed 77 at any one time. If additional employees are required, additional parking spaces shall be provided.
- 4) Any violation of these conditions shall render the Administrative Adjustment null and void.

The zoning adjustment sign may now be removed from the property.
