

Legal Consideration: Protest petitions have been filed by owners of 14.4% of the land within 200 feet of the application area. This is not sufficient to require a 4/5ths vote to approve the zone change.

- Actions:
1. Concur with the findings of the MAPC and approve the zone change subject to the condition of platting; instruct the Planning Department to forward the ordinance for first reading when the plat is forwarded to the City Commission; or
 2. Return the application to the MAPC for reconsideration stating reasons.

Agenda Report # _____

TO: Mayor and City Commissioners

SUBJECT: Z-2801 - REQUEST FOR ZONE CHANGE FROM "AA" ONE-FAMILY DWELLING DISTRICT TO "R-5" GENERAL RESIDENTIAL DISTRICT, LOCATED AT THE NORTHWEST CORNER OF CENTRAL AND GOLDEN HILLS (174-MILE EAST OF 119TH STREET WEST).

INITIATED BY: Metropolitan Area Planning Department

AGENDA ACTION: Zoning

MAPC Recommendation: Approve (9-0)

Staff Recommendation: Approve

Background: On September 18, 1986, the MAPC held a public hearing to consider a zone change from "AA" to "R-5" for a 5-acre unplatted tract of land located at the northwest corner of Central and Golden Hills. The site is currently undeveloped. It has been included in the approved preliminary plat of Golden Hills Addition but has not been final platted. Several area residents spoke in opposition to the application. The MAPC unanimously recommended approval subject to platting.

CPO Council "A" voted 5-2 to recommend that the application be approved.

Analysis: Property in all directions from the application area is zoned "AA". To the east and south are single-family houses; to the west and north is undeveloped land. A large lot at the southeast corner of Central and 119th Street is zoned and platted for light commercial development and there is a preliminary proposal for two "LC" lots at the northeast corner although that zone change application has not officially been filed.

A large Phillips Pipe Line Company easement defines the northwesterly boundary of this triangular site. Since street crossings of a pipeline easement should be kept to a minimum, this five-acre tract naturally lends itself to development as one large lot. Limited access to Central can be obtained if developed as one lot.

The "R-5" district permits development up to 17.4 du's/acre. The application states that the developer intends to construct 15 to 20 patio homes. Adequate sewer, water and paved access will be available to the site.

The Planning Commission determined that the character of the neighborhood; the zoning and uses of properties nearby; and the suitability of subject property for the uses proposed; and the recommendation of staff justified the approval of the zone change.
