<u>CASE NUMBER:</u>	ZON2017-00006
<u>APPLICANT/AGENT:</u>	JRD, LLC.-Kevin Mullen/Baughman Co., P.A.-Phil Meyer
<u>REQUEST:</u>	LC Limited Commercial
<u>CURRENT ZONING:</u>	SF-20 Single-Family Residential
<u>SITE SIZE:</u>	5.8-acres
<u>LOCATION:</u>	Generally located at the northwest corner of East 63 rd Street South and South Clifton Avenue.
<u>PROPOSED USE:</u>	Limited Commercial Uses

BACKGROUND: The applicant is requesting a rezoning from the existing SF-20 Single-Family Residential (SF-5) to a LC Limited Commercial (LC) district for 5.8-acres located at the northwest corner of East 63rd Street South and South Clifton Avenue. The applicant is the developer of Vassar Addition, a two family residential subdivision south of the subject property. It is believed that establishing commercial zoning on this site would be an asset and convenience to the area as the number of residential housing units increase in the future. The applicant would also like to have the property zoned LC prior to a large number of lots being sold so residents have information about commercial zoning at this intersection. Please see the attached narrative from the applicant.

The surrounding neighborhood is characterized primarily by rural and large lot residential uses. North of the property is a large vacant tract. South of the site is a residential subdivision, Vassar Addition. East of property is a vacant agricultural parcel. West of the site is a large lot residential home.

CASE HISTORY: The site is vacant, and is platted as a portion of Woodvale Addition, recorded in 1953.

ADJACENT ZONING AND LAND USE:

NORTH:	SF-20	vacant
SOUTH:	TF-3	two family residential
EAST:	RR	large lot residential
WEST:	SF-20,	agricultural/vacant

PUBLIC SERVICES: East 63rd Street South is a four-lane arterial street. South Clifton Street is a two-lane arterial street. Municipal utilities are available to serve the site.

CONFORMANCE TO PLANS/POLICIES: The Wichita-Sedgwick County Comprehensive Plan, the *Community Investments Plan*, identifies the site as parks and open space. Approximately 220 acres east of the Arkansas River from East 63rd Street South to East 55th Street South have this land use designation. The subject property is a reasonable commercial location at this intersection of two arterial streets. This zone change would not be a significant change to this larger parks and open space designation in this area.

RECOMMENDATION: Based upon information available prior to the public hearings, planning staff recommends that the request be **APPROVED**.

This recommendation is based on the following findings:

- (1) **The zoning, uses and character of the neighborhood:** The surrounding neighborhood is characterized primarily by rural and large lot residential uses. North of the property is a large vacant tract. South of the site is a residential subdivision, Vassar Addition. East of property is a vacant agricultural parcel. West of the site is a large lot residential home.
- (2) **The suitability of the subject property for the uses to which it has been restricted:** The site is currently zoned SF-20 and the property could be developed with this existing zoning classification. It is reasonable to expect a non-residential development at this intersection of two arterial streets in an area that is experiencing residential development. Rezoning the property would facilitate future development and provide a greater tax base and employment opportunities than could be realized with the existing zoning district.
- (3) **Extent to which removal of the restrictions will detrimentally affect nearby property:** Impact on surrounding property due to the requested zone change should be minimal. Compliance with required setbacks, landscaping and an attractive building design can achieve a development that meets the needs of nearby residents and does not have a detrimental impact.

- (4) **Conformance of the requested change to the adopted or recognized Comprehensive Plan and policies:** The Wichita-Sedgwick County Comprehensive Plan, the *Community Investments Plan*, identifies the site as parks and open space. Approximately 220 acres east of the Arkansas River from East 63rd Street South to East 55th Street South have this land use designation. The subject property is a reasonable commercial location at this intersection of two arterial streets. This zone change would not be a significant change to this larger parks and open space designation in this area.
- (5) **Impact of the proposed development on community facilities:** Municipal utilities are available to serve the site. Public improvements would have to be extended throughout the site at the time of development at the applicant's expense.
