

this general area including new construction for garden apartments and apartments for the elderly.

The Planning Commission determined that the character of the neighborhood; the zoning and uses of nearby properties; the suitability of subject property for the uses proposed; and the recommendation of staff justified the zone change.

- Actions:
1. Concur with the findings of the MAPC and approve the zone change subject to the condition of platting; instruct the Planning Department to forward the ordinance for first reading when the plat is forwarded to the City Commission; or
 2. Return the application to the MAPC for reconsideration stating reasons.

City Council Meeting
April 28, 1987

Agenda Report # _____

TO: Mayor and City Council Members

SUBJECT: Z-2836 - REQUEST FOR ZONE CHANGE FROM THE "A" TWO-FAMILY DWELLING DISTRICT AND THE "RB" FOUR-FAMILY DWELLING DISTRICT TO THE "R-6" GENERAL RESIDENCE DISTRICT, LOCATED SOUTH OF 33RD STREET NORTH IN AN AREA BETWEEN ARKANSAS AVENUE AND THE WICHITA DRAINAGE CANAL. (Richard Savina, d/b/a Savina Builders, Inc.)

INITIATED BY: Metropolitan Area Planning Department

AGENDA ACTION: Planning

MAPC Recommendation: Approve (7-0)

Staff Recommendation: Approve

Background: On April 2, 1987, the MAPC held a public hearing to consider a zone change from "A" and "RB" to "R-6" for a platted undeveloped 5.6-acre site located south of 33rd Street North, a designated collector, in an area between Arkansas Avenue and the Wichita Drainage Canal. In 1981, "R-6" zoning was also requested, however, there was a valid protest of 24.79 percent filed and the case was later withdrawn by the applicant and closed. No one appeared at the April 2nd hearing in opposition to this request. One property owner to the north spoke in support of the application. The Planning Commission unanimously recommended approval subject to replatting the property within one year.

CPO Council "J" voted 5-0 to recommend approval of the application.

Analysis: The surrounding area, except for a small spot of light commercial zoning to the west and the shopping center to the north, has developed over the years as a single family neighborhood. The application area is separated from the single family houses to the east by the Wichita Drainage Canal. The applicant has advised of his intent to not have access to the unpaved streets, 32nd St. North and Jackson, to the west and south of this property.

This request for "R-6" zoning would permit the development of a maximum of 162 units on the 5.6-acre site. The applicant has said that a total of 96 apartment units for senior citizens are planned.

The property is adjacent to the area in the Jones Park Neighborhood plan which was completed in 1978. That plan suggests a need for a number of residential uses for
