CASE NUMBER: ZON2018-00049

APPLICANT/AGENT: Baltimore Exchange, LLC – Talal Timsah(Owner)/Greg Ferris – Ferris Consulting (Agent)

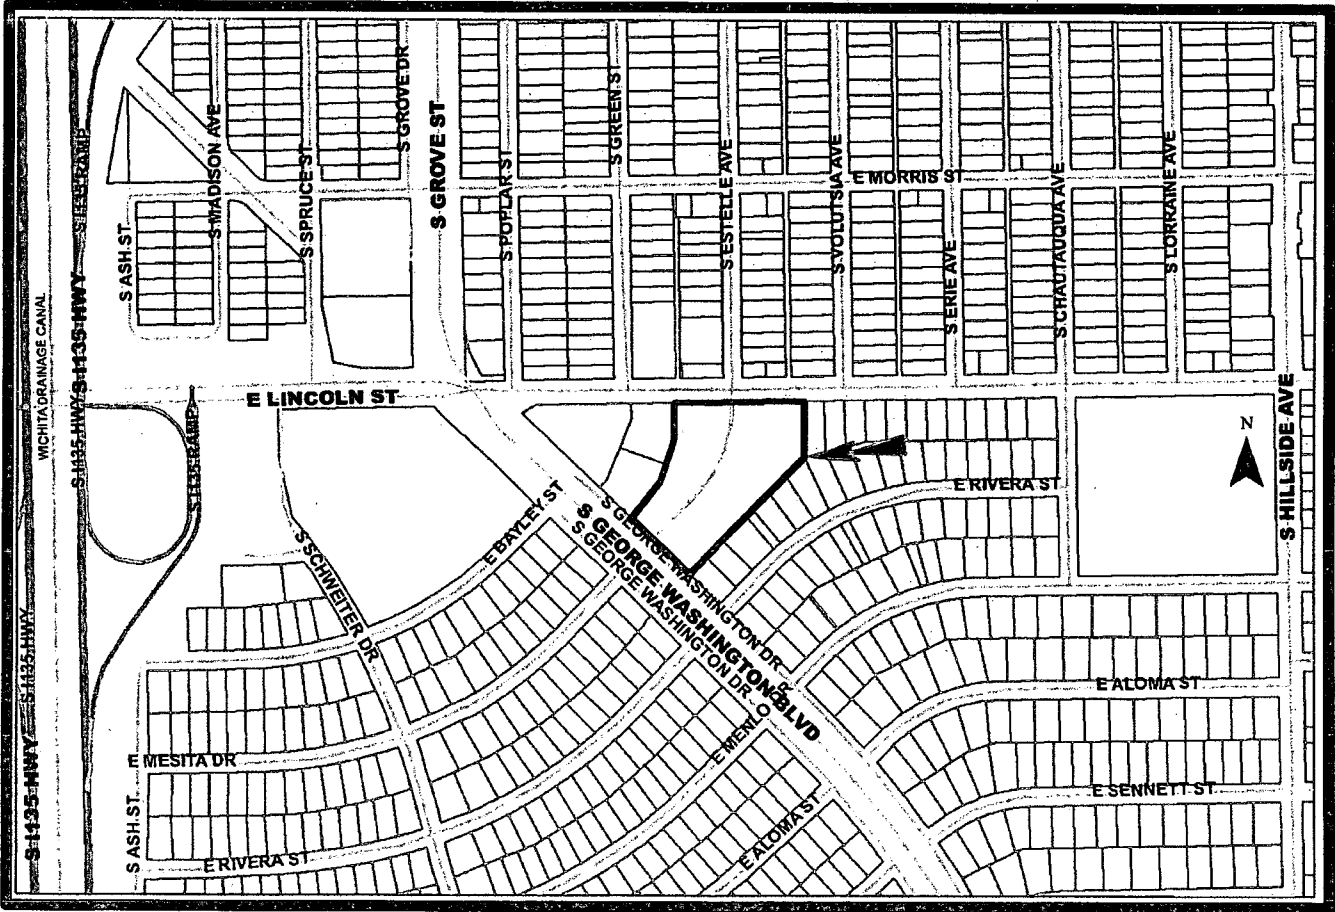

REQUEST: OW Office Warehouse

CURRENT ZONING: LC Limited Commercial

SITE SIZE: 4.29 acres

LOCATION: Located on the south side of East Lincoln Street and east of South George Washington Boulevard

PROPOSED USE: Allow office and warehouse redevelopment

BACKGROUND: The application concerns the request of the owner to rezone the subject property from LC Limited Commercial (LC) to OW Office Warehouse (OW) to allow the redevelopment of the property for office and warehousing. This is the Boulevard Plaza property, which has been zoned LC and used as a commercial strip center for many years. According to the agent's information submitted with the application, the present owner desires to redevelop the buildings and market them for warehousing uses.

The information provided claims this location does not support the retail uses envisioned by the present zoning classification and the OW will allow uses more suitable to the location. The access to the property is primarily from Lincoln Street and has access to South George Washington Drive; which is a frontage road providing access south and east to other local streets in the neighborhood and provides access to George Washington Boulevard at Menlo Street.

The change in zoning classification will result in a number of uses that would no longer be allowed on this property; such as, "Entertainment in the City", "Medical Service", "Restaurant", "Commercial Parking Area", "Pawnshop", "Secondhand Store", and "Tavern and Drinking Establishment" to name a few. These uses may be inappropriate for the subject property regardless; however, staff wishes to point out some of the more significant changes resulting from the change in zoning.

The original plat creating the subject property was the plat of the Womer's Second Addition to the City of Wichita, Kansas, recorded with the Register of Deed's on September 10th of 1946.

The surrounding neighborhood is a mixture of uses. The property to the west is zoned LC Limited Commercial and occupied with a variety of commercial uses. The properties to the east and south are zoned TF-3 Two-Family Residential (TF-3) and are occupied with single-family residences. The property to the north on the north side of Lincoln Street is zoned TF-3 Two-Family Residential with some vacant lots and single-family homes.

CASE HISTORY: As previously noted, the property was included in the plat of Womer's Second Addition to the City of Wichita, which was recorded on September 10, 1946. The subject property has been included in two previous Board of Zoning Appeals cases (BZA2000-53 and BZA2011-51, both of which were Administrative Adjustments to provide relief on parking requirements for uses being established at that time.

It should be noted that the western portion of the subject property is not platted.

ADJACENT ZONING AND LAND USE:

NORTH:	TF-3	multiple family residential
SOUTH:	TF-3	multiple family residential and medical office
EAST:	TF-3	multiple family residential
WEST:	LC	single family residential

PUBLIC SERVICES: Lincoln Street is a fully improved arterial street with four lanes, a dedicated center turning lane, and full traffic controls. South George Washington Drive is a two-lane road with limited access as noted above. The site is served by all municipal and private utilities and services.

CONFORMANCE TO PLANS/POLICIES: The Wichita-Sedgwick County Comprehensive Plan, the *Community Investments Plan*, identifies the site as "New Employment." The "new employment" classification applies to those areas that likely will develop or be redeveloped within the by 2035 for centers or concentrations of employment primarily in manufacturing, warehousing, distribution, construction, research, technology, business services or corporate offices; among other potential uses. The requested rezoning complies with the Comprehensive Plan.

The site is also in the Established Central Area (ECA), where infill development and higher density is encouraged.

ZON2018-00049

The plan also strongly supports the expansion and redevelopment of existing buildings. Supporting the expanded office/warehousing redevelopment of the site would provide greater tax base and employment opportunities.

RECOMMENDATION: Based upon the information available at the time the staff report was completed, staff recommends **approval** of the request to rezone the property from LC Limited Commercial to OW Office Warehouse.

This recommendation is based on the following findings:

1. **The zoning, uses and character of the neighborhood:** The surrounding neighborhood is a mixture of uses. The property to the west is zoned LC Limited Commercial and occupied with a variety of commercial uses. The properties to the east and south are zoned TF-3 Two-Family Residential (TF-3) and are occupied with single-family residences. The property to the north on the north side of Lincoln Street is zoned TF-3 Two-Family Residential with some vacant lots and single-family homes.
2. **The suitability of the subject property for the uses to which it has been restricted:** The property has been used commercially for many years. The applicant/agent notes the buildings are no longer attractive for retail and commercial uses and the conversion to office/warehouse use is more marketable. The change to this zoning district limits uses more compatible with the surrounding uses.
3. **Extent to which removal of the restrictions will detrimentally affect nearby property:** The proposed OW zoning will provide restrictions on the site that will help mitigate any impact on nearby property. The nature of the existing improvements have resolved all issues that might have previously occurred, and the change in uses should not harm the neighborhood.
4. **Length of time the property has been vacant as currently zoned:** The property has been a developed commercially for years, and this change will allow the continued redevelopment for uses acceptable for the area.
5. **Conformance of the requested change to the adopted or recognized Comprehensive Plan and policies:** The Wichita-Sedgwick County Comprehensive Plan, the *Community Investments Plan*, identifies the site as "New Employment." The "new employment" classification applies to those areas that likely will develop or be redeveloped within the by 2035 for centers or concentrations of employment primarily in manufacturing, warehousing, distribution, construction, research, technology, business services or corporate offices; among other potential uses. The requested rezoning complies with the Comprehensive Plan.

The site is also in the Established Central Area (ECA), where infill development and higher density is encouraged. The plan also strongly supports the expansion and redevelopment of existing buildings. Supporting the expanded office/warehousing redevelopment of the site would provide greater tax base and employment opportunities.

6. **Impact of the proposed development on community facilities:** Rezoning of the property would not have any impact on community facilities or resources. All public improvements are available to serve the property.
