Agenda Report # _____

TO: Mayor and City Council Members

SUBJECT: Z-2969 - ZONE CHANGE FROM THE "A" TWO-FAMILY DISTRICT TO THE "B" MULTIPLE-FAMILY DWELLING DISTRICT, LOCATED ON THE EAST SIDE OF MOSLEY, BETWEEN SKINNER AND MT. VERNON.
(District #3)

INITIATED BY: Metropolitan Area Planning Department

AGENDA ACTION: Planning

MAPC Recommendation: Approve (9-0).

Staff Recommendation: Approve.

CPO Recommendation: CPO Council "3B" voted 8-0 to recommend approval.

Background: On October 26, 1989, the MAPC held a public hearing to consider a zone change request from the "A" Two-Family Dwelling District to the "B" Multiple-Family Dwelling District for three platted lots located on the east side of Mosley between Skinner and Mt. Vernon. The application area measures approximately .3 acre. On the western portion of the three lots there is located a single-family dwelling which fronts onto Mosley. On the eastern portion of the lots there is located another structure which has been illegally converted into a single-family dwelling. Before the illegal conversion occurred, the structure was being built as a garage. Access to this structure is by way of the adjacent alley. A building permit was issued for construction of the garage in 1987.

Earlier this year, Central Inspection became aware of the illegal conversion of the garage to a dwelling. The applicant has filed this rezoning case in order to make legal the conversion and therefore permit the renting of the unit. The east wall of the subject dwelling unit is located 16.5 feet from the centerline of the adjacent 20-foot alley. The south wall of the unit is located 10 feet from the south line of the applicant's ownership and the structure's west wall is located 38 feet from the east wall of the single-family dwelling that fronts onto Mosley Avenue. A field check of the site has verified that there are other instances in the immediate area where two single-family dwellings have been constructed on the same ownership or zoning lot. These other instances appear to have existed for a long time,

but it is not known whether they are illegal or nonconforming uses. The subject subdivision was platted in 1886, whereas zoning was first established in this area in the 1920's.

The first residential zoning district which permits the construction of two detached dwelling units on the same lot (or zoning lot) is the "R-5" General Residence District. However, the "R-5" district, as well as the "R-6" district, requires 6,000 square feet of lot area for each detached single-family unit and a 20-foot rear yard measured to the centerline of the alley. Since the application area contains only 10,875 square feet and has a rear yard of only 16.5 feet, a rezoning to either the "R-5" or "R-6" districts will not fully correct the existing zoning violation. On the other hand, the "B" Multiple-Family Dwelling District not only permits more than one detached single-family structure, it requires only 2,500 square feet of lot area per single-family unit [28.04.070(C)(4)] and only a 15-foot rear yard [28.04.070(C)(3.1)].

RECOMMENDATIONS/ACTIONS:

1. Concur with the findings of the MAPC and approve the zone change; place the ordinance establishing the zone change on first reading; or
2. Return the application to the MAPC for reconsideration stating reasons.
