RE: BZA2020-00008: Sign Code Adjustment to permit an LED sign on a new monument sign for an institutional use on property zoned GO General Office.

Legal Description: Pt Lot 2, Block 2, Park Meadows Estate Addition to Wichita, Sedgwick County, Kansas. Generally located approximately 1,100 feet east of Webb Road and north of East Harry (1541 South Todd Street).

Dear Applicants:

We have reviewed your request for a Sign Code Adjustment to permit a monument sign with an electronic message board for an institutional use on the aforementioned property. From reviewing your application, we understand that you propose to build an 8-feet by 8-feet monument sign with a 4-feet by 8-feet LED component in the east building setback of your lot located approximately 1,100 feet east of Webb Road and north of East Harry (1541 South Todd Street).

Section 24.04.251.2.i. of the Sign Code allows an adjustment to permit electronic message signs for institutional uses located in any residential zoning district, or in any "NO", "GO", "NR", "OW" or "IP" zoning districts when the three conditions required by Section 24.04.251.6 of the Sign Code are met. We find that allowing the electronic message sign as proposed meets the three conditions required by Section 24.04.251.6 of the Sign Code as set out below:

- 1) Impact on existing uses in surrounding areas: Existing uses in the surrounding area are apartment complexes on MF-18 Multi-Family Residential zoned districts to the west and north. LC Limited Commercial zoned property abuts the south property line.
- 2) Compatibility with existing or permitted uses on abutting sites: Installing a monument sign with electronic message capability to the sign should not impact uses on surrounding uses, as the copy and graphics changes will be restricted to one change per second or slower.

- 3) Effect on public health, safety or welfare: There will be no encroachment into public right-of-way; there should be no impact on the public health, safety or welfare, nor will properties or improvements in the vicinity be materially injured.

Our signatures below indicate that a Sign Code Adjustment to permit an electronic message sign for a church on the aforementioned property is hereby **GRANTED**, subject to the following conditions:

- 1) The administrative adjustment is for a monument sign with an LED component only; all signage on the site shall otherwise conform to the Sign Code unless a separate adjustment or variance is approved.
- 2) The sign shall be in conformance with the approved elevation and site plan. The sign shall not be installed in any driveway sight triangle or utility easement and must be permitted and installed within one year from the date of approval.
- 3) The sign shall not make copy or graphics changes faster than once per second.
- 4) No other freestanding signs shall be allowed on the subject site.
- 5) Portable signage shall not be permitted on the subject property.
- 6) If the Zoning Administrator finds that there is a violation of any of the conditions of the Sign Code Adjustment, the Zoning Administrator, in addition to enforcing the other remedies set forth in the Sign Code, may, with the concurrence of the Planning Director, declare that the Sign Adjustment is null and void.

The development application sign should now be removed from the property.

Scott Knebel, Interim Director
Metropolitan Area Planning Department

John R. Cox, Jr., Interim Zoning Administrator
