RE: ZON2021-00002 - City Zone Change from SF-5 Single-Family Residential to TF-3 Two-Family Residential on Property Located 1,200 Feet North of West Central Avenue and 900 Feet West of North McLean Boulevard (771-781 North St. Paul).

Dear Applicants:

At its regular meeting on April 6, 2021, the Wichita City Council considered the above captioned request. The action of the MAPC was to APPROVE the request with conditions of Protective Overlay #363 as follows:

1. The property shall be replatted or shall be limited to one duplex unit per zoning lot.
2. A Conditional Use for multi-family dwellings will be required if there is more than one duplex per zoning lot.
3. The following conditions shall apply:
 - a. **Garages.** The garage face shall occupy no more than 50 percent of the ground-level façade facing the street and may not project more than five feet in front of the main facade.
 - b. **Entrances.** Pedestrian scaled entry shall be a prominent feature of the front elevation. Front doors shall be oriented to the street in front of the units.
 - c. **Architectural Variety.** Developments shall achieve architectural variety by accommodating a variety of architectural styles that are compatible or consistent with the surrounding neighborhood, variation of the same architectural style, and through the use of multiple design elements. Duplicative house facades adjacent to each other are highly discouraged. Simple reverse configurations of the same house design on adjacent lots are not sufficient to meet this standard.
 - d. **Windows and Transparency.** Transparent windows and/or doors facing the street are required. To meet this requirement, at least 10 percent of the façade must be transparent. The façade is measured from the base of the house to the start of the roofline and any other vertical walls facing the street, except for gabled portions of the facade not containing livable floor area. Garages facing the street shall count as part of the façade.
 - e. **Roof Design.** Roofs shall have variation in roof planes in order to break up the large roof mass through dormers, gables, or changes in elevation. Roof forms and roof pitches of porches, dormers and garages shall be consistent and complement the building style within the neighborhood.
 - f. **Siding materials.** Siding materials shall be appropriate to the architectural style of the structure. Traditional materials consistent with the neighborhood architectural styles are encouraged such as wood, masonry and brick. Siding materials and window trim should be consistent on all sides of the structures.

- g. **HVAC.** HVAC units shall be located away from the front of the buildings and screened from public view through landscaping and/or screen walls.
4. Should individual lots be sold, the deed shall have a clause included that the owner must participate in the cost of maintenance for the private drive.
 5. The parking area shall not cover more than 50% of the front yard and trash dumpsters shall not be permitted in front of each duplex building.
 6. A site plan shall be approved by the Director of Planning before any building permits are issued.
 7. Prior to publishing the ordinance establishing the zone change, the applicants shall record a document with the Register of Deeds indicating that this tract includes special conditions for development on this property.

Sincerely,

Kathy L. Morgan, Senior Planner
