

Planning Agenda Item # \_\_\_\_\_

City of Wichita  
City Council Meeting  
June 2, 1998

Agenda Report # \_\_\_\_\_

**TO:** Mayor and City Council Members

**SUBJECT:** Z-3270 LARNARD SMITH (APPLICANT); TERRY SMYTHE, BAUGHMAN (AGENT) REQUESTS ZONE CHANGE FROM "SF-6" SINGLE-FAMILY AND "LC" LIMITED COMMERCIAL TO "GC" GENERAL COMMERCIAL, LOCATED NORTH OF KELLOGG AND EAST OF GREENWICH, (DISTRICT #5)

**INITIATED BY:** Metropolitan Area Planning Department

**AGENDA ACTION:** Planning

**MAPC Recommendation:** Approve zone change, subject to the additional provisions of a Protective Overlay District (P-O #37) (12-0).

**Staff Recommendation:** Approve zone change, subject to conditions.

**CPO Recommendation:** Approve, subject to MAPD staff recommendations and to the additional provisions of a Protective Overlay (P-O #37).

**Background:** The applicant is proposing to expand an existing mobile home sales lot onto two platted lots (1.77 acre) located south of Lewis and east of Ellson. The north 20 feet of these two lots are currently zoned "SF-6" Single-Family Residential while the south 280 feet is zoned "LC" Limited Commercial. The applicant currently operates a mobile home sales lot to the south of these lots and would like to expand into the application area.

Both of these lots are currently vacant. With the approval of this zone change, the applicant will use these two lots as additional display space for the mobile home sales lot. The applicant is not requesting access to Lewis from the expanded sales lot. Access to the sales lot will be provided from the frontage road through the existing sales lot along Kellogg Drive. The applicant has been asked to submit an agreement not to protest participating in the future paving of Lewis Street.

The City's landscape code will require the frontage along Lewis Street to be landscaped with trees in front of the screening fence.

North of the application area is a vacant lot which is zoned "MF-29." Two homes are located just west of this site which is zoned "LC." However, commercial activities are located on the south and east sides of this area. The applicant's existing mobile home sales lot is located just south of this area, while an auto salvage and used car sales lot is located to the east of this property. Farther to the east and west of this site along Lewis Street are more single-family homes. This area seems to be in transition with several homes along Lewis being dilapidated and in the need of significant repair. However, some of the homes north of Lewis seem to be well maintained and not in the same state of disrepair as those south of Lewis.

The Metropolitan Area Planning Commission has an unwritten policy of supporting the expansion of an existing business.

This case was deferred from the April 16th MAPC hearing, to allow the applicants, neighbors and staff to meet and discuss the potential uses on these two lots. At this meeting the applicants and neighbors agreed to the uses stated in the protective overlay as well as a screening fence along the west line of Lot 50 to buffer the homes to the west from this display lot. At the April 30th MAPC hearing this request was approved subject to the conditions of the protective overlay and filing a no protest petition to paving Lewis Street. No one spoke in opposition to this request at the April 30th meeting.

**Recommendation:**

1. Concur with the findings of the MAPC and approve the zone change, subject to the additional recommended provisions of a Protective Overlay District; place the ordinance establishing the zone change on first reading, but withhold publication of the ordinance until the applicant submits a "no protest" petition regarding the future paving of Lewis Street and a covenant tying the ownership of the request site to the abutting lot to the south; or
2. Return the application to the MAPC for reconsideration.

(An override of the Planning Commission's recommendation requires a 2/3rd majority vote of the membership of the governing body on the first hearing.)
