Dear Mrs. Savute:

Your letter of July 18, 1959, submitted to the Department of Public Works together with your offer to dedicate a tract of land for West Street has been referred to the Planning Department for reply. In the letter you indicate that you are interested in obtaining commercial zoning for your property as a consideration for the dedication which you have offered for a portion of West Street.

The Planning Commission and the Planning Department are not empowered to accept zoning change applications without payment of the prescribed fee; even in exchange for land dedication to the public for street purposes. At such time as you wish to make application for the zoning change through the normal channels, however, we will be pleased to assist you in any way that we can.

Very truly yours,

L. L. Little
Director of Planning

Mr. Edmonds:

When Mr. Savute sent this dedication back to Engineering, this letter was attached. Dick Linn thought you might want to send Mr. Savute a letter and application for rezoning and explain the process. He says Mr. Savute does not understand English too well and it was his feeling that if the process is in writing, his daughter can interpret it for her father.

This has not been to Glenn or Lynn.
