STAFF REPORT

MAPC-September 15, 2022

DAB II- September 12, 2022

CASE NUMBER: ZON2022-00043 (City)

APPLICANT/AGENT V3 Realty LLC (applicant)/ Baughman Company, P.A., Philip Meyer (agent)

REQUEST: GO General Office

CURRENT ZONING: LI Limited Industrial

SITE SIZE: 16.7 acres

LOCATION: Generally located approximately 500 feet east of the intersection of East 37th Street North and North Rock Road

PROPOSED USE: Multi-family residential and office space

BACKGROUND: The applicant is requesting a zone change from LI Limited Industrial District to GO General Office District for the 16.6-acre property, generally located approximately 500 feet east of the intersection of East 37th Street North and North Rock Road. The undeveloped subject site is Lot 2, Block 1 of the Rent-A-Center Addition, together with a portion of Lot 2, Block 2 of the Hi-Tech Industrial Park Second Addition. If the requested zone change is approved, the applicant intends to develop the site with an apartment complex and office space.

The subject site has street frontage on three sides- East 37th Street North to its south, North Comotara Street to its east, and East Thorn Drive to its north. A small portion of Lot 2, Block 2 of the Hi-Tech Industrial Park Second Addition is under separate ownership and is not included in this request. This portion of the lot is surrounded by the subject area on three sides and is developed with a structure housing Southwestern Bell telephone equipment (See attachment 1, Aerial Map).

A large industrial district is located east of North Rock Road, between the K-96 overpass and the intersection of North Rock Road and East 37th Street North, spanning approximately 1.5-miles east. The area is developed from North Rock Road to North Webb Road, with warehouse and manufacturing facilities, office buildings, and other industrial serving uses. The remaining half-mile of the district, East of North Webb Road, is Jabara Airport.

West of North Rock Road, in the northwest corner of the East 37th Street North and North Rock Road intersection, is a commercial strip developed with retail stores, restaurants, and personal services. Less than a quarter mile north of the intersection is the Willowbend Golf Course and residential community.

The properties abutting the subject site to the North are zoned LI Limited Industrial District. To the northwest is an office complex, and to the northeast is undeveloped land. Properties to the south, on the south side of East 37th Street North, are zoned LI Limited Industrial District and are developed with a storage warehouse and a manufacturing facility. East of the subject site are properties zoned LI Limited Industrial District, developed with a steel manufacturing facility. Properties to the west of the subject site are zoned LI Limited Industrial District and are developed with a convenience store/gas station to the southwest and undeveloped to the northwest.

No residential uses are permitted by-right or Conditional Use in the LI Limited Industrial District. If approved, the requested GO General Office District would allow multi-family residential and general scale office uses to be surrounded by Limited Industrial zoning. Generally, the potential environmental, visual, and audial impacts generated by industrial use justify their separation from residential development. However, the size of this site and the way the surrounding areas have been improved could mitigate impacts on the proposed multi-family use.

While the site abuts LI Limited Industrial zoning on four sides, only properties to the south and east are developed with industrial uses. With the exception of a storage site, industrial facilities on these properties are located a substantial distance from the subject site. The property to the east is separated from the subject site by the North Comotara Street right-of-way. The manufacturing facility on this property is located approximately 175 feet east of its west property line. The property to the south is separated from the subject site by the East 37th Street North right-of-way, and its facility is located approximately 190 feet south of its north property line. The distance between the subject site and the surrounding industrial uses may prevent adverse impacts from reaching the subject site.

CASE HISTORY: On December 2, 1986, the Rent-A-Center Addition was platted. On March 13, 1986, the Hi-Tech Industrial Park Second Addition was platted. No other actions have been taken on this site.

PUBLIC SERVICES: North Rock Road and East 37th Street North are paved, four-lane arterial streets. Sidewalks are located on the north and south sides of East 37th Street North and North Rock Road's east and west sides. Wichita Transit has a bus stop less than a quarter mile from the site at the Eagle Rock Apartments on East 37th Street North. City water and stormwater are located in the East 37th Street North and East Thorn Drive right-of-way. Sanitary sewer is located in a platted 20-foot utility easement parallel to the east property line of Lot 2, Block 1 of the Rent-A-Center Addition, and the west property line of Lot 2, Block 2 of the Hi-Tech Industrial Park Second Addition.

CONFORMANCE TO PLANS/POLICIES: The request to rezone this property as GO General Office is found to be in conformance with the *Community Investments Plan*.

The Community Investments Plan: The 2035 Wichita Future Growth Concept Map, which outlines the preferred development pattern and land uses within the *Plan* area, identifies this subject site as appropriate for development in the New Residential and Employment Mix and New Employment Growth categories. The *Plan* defines the New Residential and Employment Mix category as "areas of land that likely will be developed or redeveloped by 2035 with uses predominately of a mixed nature." The New Employment category is defined as "areas that likely will be developed or redeveloped by 2035 with uses that constitute centers or concentrations of employment primarily in manufacturing, warehousing, distribution, construction, research, technology, business services, or corporate offices." Additionally, the *Plan* states land in the New Employment category located in proximity to existing residential uses is likely to be developed with "higher-density housing and convenience retail centers." A change to GO General Office zoning would permit mixed-use development on the site, with higher-density residential uses and offices consistent with those described in the Growth Areas and within the scope of those suggested by the *Plan*.

Additionally, the *Community Investments Plan* provides locational guidelines to serve as a framework for future land use decisions. General Locational Guidelines encourage infill development which maximizes public investment in infrastructure and public services. The proposed zone change would permit infill development on the site, consistent with the preferred land uses.

RECOMMENDATION: Based on the information available at the time the staff report was prepared, it is recommended that the application for **GO GENERAL OFFICE BE APPROVED.**

This recommendation is based on the following findings:

1. **The zoning, uses, and character of the neighborhood:**
The properties abutting the subject site to the North are zoned LI Limited Industrial District. To the northwest is an office complex, and to the northeast is undeveloped land. Properties to the south, on the south side of East 37th Street North, are zoned LI Limited Industrial District and are developed with a storage warehouse and a manufacturing facility. East of the subject site are properties zoned LI Limited Industrial District, developed with a steel manufacturing facility. Properties to the west of the subject site are zoned LI Limited Industrial District and are developed with a convenience store/gas station to the southwest and undeveloped to the northwest.
2. **The suitability of the subject property for the uses to which it has been restricted:** The site is currently zoned LI Limited Industrial District, which allows low-intensity Industrial uses to be developed. The properties are presently vacant.

3. Extent to which removal of the restrictions will detrimentally affect nearby property: A change of zoning to GO General Office District would allow all uses permitted in the GO District on this site, including the proposed office and multi-family residential uses. Staff does not anticipate that the proposed development would negatively affect nearby properties. Alternatively, noise, odor and emissions created by the surrounding Industrial uses may have an impact on the proposed multi-family development. However, the single-family residential uses and golf course to the north of the subject site also abut these same Industrial properties and likely have not had compatibility issues.
4. Length of time the property has remained vacant as currently zoned: The properties have been vacant since their platting.
5. Conformance of the requested change to the adopted or recognized Comprehensive Plan and policies: The request to rezone the property as GO General Office would be in conformance with the Community Investments Plan as discussed in the staff report.
6. Impact of the proposed development on community facilities: An approval of this request should not generate any additional impact on community facilities. Existing infrastructure at the site will accommodate the proposed use
