STAFF REPORT
MAPC: March 14, 2024
CAB 3: March 4, 2024

CASE NUMBER: ZON2024-00006 (County)

APPLICANT/AGENT: Vision Homes Investment, INC (Applicant)/Baughman Co. (Agent)

REQUEST: SF-20 Single-Family Residential District

CURRENT ZONING: RR Rural Residential District

SITE SIZE: 38.6 acres

LOCATION: Generally located on the northeast corner of West 45th Street North and North 167th Street West (Colwich Area of Influence).

PROPOSED USE: Single-family residences.

RECOMMENDATION: Approve.

BACKGROUND: The applicant is requesting a zone change from RR Rural Residential District (RR) to SF-20 Single-Family Residential District (SF-20). The 38.6-acre property is generally located on the northeast corner of West 45th Street North and North 167th Street West. It is currently in use as agricultural land. The applicant is proposing to develop the property as a low-density residential neighborhood.

The requested zone change will allow the applicant to subdivide the property into smaller lots for residential development. The minimum lot size for RR is two acres (87,120 square feet), and the minimum lot size for SF-20 is 20,000 square feet. The requested Zone Change to SF-20 would result in a reduction in setbacks and minimum lot width, as represented in the table below:

Property Development Standards	RR Rural Residential	SF-20 Single-Family Residential
Minimum lot area	2 acres	20,000 square feet
Front setback	30 feet	25 feet
Rear setback	25 feet	25 feet
Interior Side Setback	20 feet	10 feet
Maximum height	35 feet	35 feet
Minimum lot width	200 feet	100 feet

The character of the neighborhood is rural and low-density residential. Properties to the north, south, east and west are zoned RR. Properties to the north are developed with a large lot subdivision with single-family residences. Properties to the south, east, and west are developed with single-family residences and agricultural land.

CASE HISTORY: The property is currently unplatted, and the final plat will need to be approved separately prior to the issuance of building permits. There are no zoning cases associated with this property.

ADJACENT ZONING AND LAND USE:

NORTH:	RR	Single-family residences
SOUTH:	RR	Single-family residence, agricultural land
EAST:	RR	Single-family residence, agricultural land
WEST:	RR	Single-family residence, agricultural land

PUBLIC SERVICES: The subject site has access to North 167th Street West and West 45th Street North. North 167th Street West is a paved, two-lane arterial street, and West 45th Street North is a gravel, two-lane arterial street. It is unknown at this time whether the developer will extend the City of Colwich’s water and sewer mains to the property or will utilize wells and septic systems.

CONFORMANCE TO PLANS/POLICIES: The requested Conditional Use is in conformance with *The Community Investments Plan*. The *Community Investments Plan* (the Wichita-Sedgwick County Comprehensive Plan) includes the 2035 Wichita Future Growth Concept Map. The Map identifies the area in which the site is located to be appropriate for “Small City Urban Growth Area”, which the *Plan* defines as: “Generally located adjacent to existing municipal boundaries, these areas indicate the likely direction and magnitude of growth these communities can expect to experience out to the year 2035. Growth direction and amount is based upon municipal political considerations, anticipated population growth, efficient patterns of growth, current infrastructure limitations, cost effective delivery of future municipal services, and environmental factors.”

With the subject site being in the Colwich Urban Growth Area, staff reviewed the Colwich Comprehensive Plan to identify the proposed future land use of the subject site. The attached 2017 Future Community Growth Patterns Map from the City of Colwich’s comprehensive plan identifies the site as appropriate for low-density, single-family residential development, akin to the existing residential development approximately directly to the north of the subject site. At the time of the writing of this report, the City of Colwich has not responded to inquiries regarding

their Planning Commission hearing the request.

RECOMMENDATION: Based upon information available prior to the public hearings, planning staff recommends that the request be **APPROVED**.

This recommendation is based on the following findings:

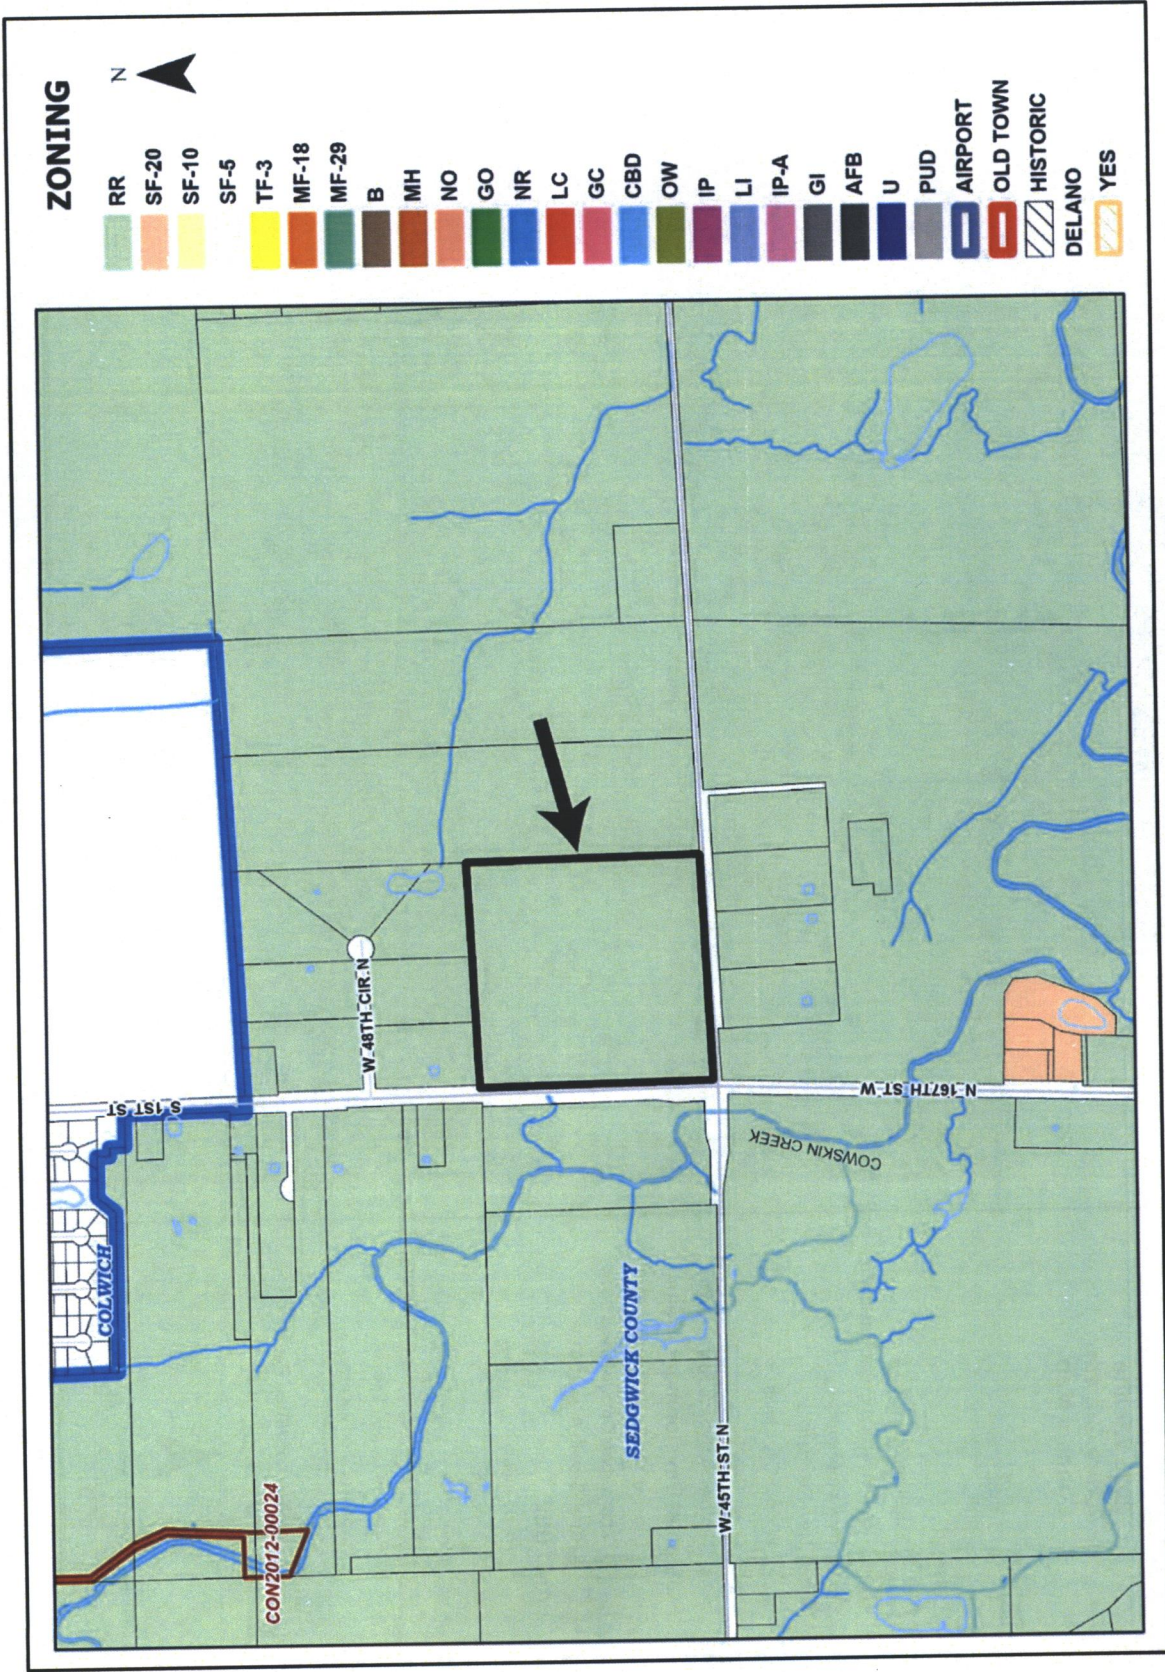

1. **The zoning, uses and character of the neighborhood:** The character of the neighborhood is rural and low-density residential. Properties to the north, south, east and west are zoned RR. Properties to the north are developed with a large lot subdivision single-family residences. Properties to the south, east, and west are developed with single-family residences and agricultural land.
2. **The suitability of the subject property for the uses to which it has been restricted:** The property is presently zoned RR, which is suitable for a limited number of residential, public, and civic uses, including single-family residences.
3. **Extent to which removal of the restrictions will detrimentally affect nearby property:** The requested zone change and proposed development will bring additional traffic to the area. However, it will continue the large-lot residential exurban development in the area. A similar subdivision is directly north of the subject site.
4. **Length of time subject property has remained vacant as zoned:** The subject site has never been developed.
5. **Relative gain to public health, safety, and welfare as compared to the loss in value or the hardship imposed upon the applicant:** Approval would permit new development on an undeveloped parcel that is also appropriate for such development. Denial may represent a loss of economic opportunity for the applicant.
6. **Conformance of the requested change to the adopted or recognized Comprehensive Plan and policies:** The requested zoning would continue to allow the property to be in conformance with the *Community Investments Plan*, as discussed in the staff report.
7. **Impact of the proposed development on community facilities:** The subject site is not in a Rural Water District, and it is unknown if the lots would be served by the City of Colwich for water and sewer. If the lots are to have septic systems, they must be at least one acre in size.
8. **Opposition or support of neighborhood residents:** At the time the staff report was prepared, staff has received no comments from the public regarding the application.
