STAFF REPORT

CASE NUMBER: VAC2023-00052 – Request to vacate a portion of platted complete access control.

OWNER/APPLICANT: Plazzio Investment Company, LLC (applicant); MKEC Engineering, Inc. (agent).

LEGAL DESCRIPTION: Generally described as vacating the complete access control along the west line of the south 283 feet of the Lot 3, Block 1, Gateway Center 3rd Addition, Wichita, Sedgwick County, Kansas.

LOCATION: Generally located on the on the southeast corner of East 13th Street North and North Greenwich Road. (District II)

REASON FOR REQUEST: Permit right-in/right-out access drive for future development.

CURRENT ZONING: The subject site is zoned LC Limited Commercial District with CUP DP-239. Surrounding properties are a mixture of LC Limited Commercial, GC General Commercial, and LI Limited Industrial zoning.

VICINITY MAP:

The applicant is requesting a vacation of a portion of platted complete access control to permit one right-in/right-out opening within the south 283 feet along the west line of Lot 3, Block 1, Gateway Center 3rd Addition. The property is zoned LC Limited Commercial District with CUP DP-239 and is undeveloped. Lot 1 currently can be accessed via cross-lot access within the CUP and a platted right-in/right-out shared access drive on the north side. If approved, this will provide additional access to the undeveloped lot from North Greenwich Road. Reserve A abuts the subject site on the south. When originally platted, Reserve A was created for ingress/egress that would have provided an additional location for access to the subject site. In 2014, Reserve A was vacated (VAC2014-00041) and the plattor's text was vacated to permit the uses as allowed by CUP DP-239. With the vacation of Reserve A, the subject site has no opportunity for direct access off of North Greenwich Road.

If approved, an opening could be provided within 250 feet south of the intersection of North Greenwich Road and East 13th Street North, or an opening could be provided within 260 feet of the main entrance drive into the larger CUP development. Access Management standards call for right-in/right-out drives for openings with less than 400 feet of separation as long as the drives are at least 200 feet apart.

Traffic Engineering does not object to the vacation to permit a right-in/right-out drive. They will work with the applicant on the final location of the drive. Public Works and Utilities commented that there is a storm sewer box and a sanitary sewer manhole in the area. Any modification or relocation of these facilities is at the applicant's expense. Both Evergy and Cox have equipment and lines in the vacation area, but they do not object to the vacation request. Any removal or relocation is at the applicant's expense. Evergy noted that any relocation and/or removal of their equipment will be very cost prohibitive. LaDonna Vanderford, Design Representative, is Evergy's contact in this area. She can be reached at 316-261-6290. The Gateway Center 3rd Addition was recorded March 25, 2010.

Based upon information available prior to the public hearing and reserving the right to make recommendations based on subsequent comments from City Traffic, Public Works/Water & Sewer/Stormwater, Fire, franchised utility representatives and other interested parties, Planning Staff has listed the following considerations (but not limited to) associated with the request to vacate the described portion of the platted complete access control.

- A. That after being duly and fully informed as to fully understand the true nature of this petition and the propriety of granting the same, the MAPC makes the following findings:
1. That due and legal notice has been given by publication as required by law, in the Wichita Eagle, of notice of this vacation proceeding one time December 7, 2023, which was at least 20 days prior to this public hearing.
 2. That no private rights will be injured or endangered by vacating the described portion of the platted access control and that the public will suffer no loss or inconvenience thereby.
 3. In justice to the petitioner, the prayer of the petition ought to be granted.

Conditions (but not limited to) associated with the request:

- (1) Provide Planning with dedication of access control for the south 150 feet of the application area, by separate instrument with original signatures to go with the Vacation Order to City Council for final action and subsequent recording with the Vacation Order at the Register of Deeds. The dedication shall include language regarding any modification and/or expansion of the existing central median along North Greenwich Road depending on where the final opening is described. All to be provided to the Planning Department prior to this case going to City Council for final action.
- (2) All improvements shall be according to City Standards and at the applicants' expense.

- (3) Vacation of the described portion of platted complete access control located on and running parallel with the west property line of the south 283 feet of Lot 3, Block 1, Gateway Center 3rd Addition, is contingent on approval by the Traffic Engineer and the Fire Department. Traffic Engineering requires this drive access to be right-in/right-out only.
- (4) Per MAPC Policy Statement #7, all conditions are to be completed within one year of approval by the MAPC or the vacation request will be considered null and void. All vacation requests are not complete until the Wichita City Council or the Sedgwick County Board of County Commissioners have taken final action on the request and the vacation order and all required documents have been provided to the City, County and/or franchised utilities and the necessary documents have been recorded with the Register of Deeds.
