STAFF REPORT

- CASE NUMBER:** VAC2023-00037 – City Vacation of a portion of platted public street right-of-way and building setback.
- APPLICANT:** SC44-Holdings, LLC—Gary Hamm (applicant)
- LEGAL DESCRIPTION:** Generally described as vacating the platted South Dodge Avenue right-of-way abutting Lots 1 and 4, Block A, Gerald Seibel Addition and the 15-foot platted street side setback on the west side of Lot 1, Block A, Gerald Seibel Addition.
- LOCATION:** Generally located within one-quarter mile west of South Seneca Street and within one-half mile north of West 47th Street South. (WCC IV)
- REASON FOR REQUEST:** To create a new buildable parcel for a new duplex.
- CURRENT ZONING:** Properties abutting to the east and west are zoned TF-3 Two-Family Residential District and developed with duplexes. Property adjacent to the south is zoned SF-5 Single-Family Residential District and developed with a single-family residence. Properties to the northwest and northeast are zoned MF-18 Multi-Family Residential District and SF-5 and developed with duplexes and a single-family residence respectively.

VICINITY MAP:

Background: The applicant is requesting two things:

- 1) vacate the South Dodge Avenue right-of-way abutting Lots 1 and 4, Block A, Gerald Seibel Addition; and
- 2) vacate the 15-foot platted setback along the west side of Lot 1, Block A, Gerald Seibel Addition.

The purpose of the requests is to create a new developable parcel for future construction of a duplex. This portion of South Dodge Avenue was never constructed. South Dodge Avenue, as platted in the Vilm Gardens 2nd Addition to the north, currently dead ends at the subject site.

If the vacation is approved, the vacated right-of-way will revert to the respective Lots 1 and 4, Block A, Gerald Seibel Addition to the east and west, owned by the applicant. The applicant intends to tie the two halves of the vacated right-of-way together in order to create a separate, buildable lot for future construction of an additional duplex. The vacated South Dodge Avenue right-of-way would assume the TF-3 zoning of the abutting lots. The area the subject site is 4,514.4 square feet in size. This meets the minimum lots size of 3,500 square feet for a single-family dwelling in the TF-3 District. However, this does not meet the minimum lot size of 6,000 square feet for duplex development in the TF-3 District. In order to create a lot that meets the minimum size requirement, the applicant intends to do a boundary shift to move the west property line of Lot 1 farther east, which will add at least 1,500 square feet of land to the vacated South Dodge Avenue land in order to meet the minimum 6,000 square foot lot size for duplex development.

Lot 1 has a 15-foot platted setback along the west property line. In order to complete the boundary shift and permit that land to be built upon, the setback needs to be vacated. Upon vacation of the setback, the zoning setback will apply. With the vacation of South Dodge Avenue right-of-way, this will create an interior side setback, which is six feet in the TF-3 District.

The north 10 feet of the setback area has a platted 10-foot utility easement with a sewer line located in it. This easement is not part of the vacation request. The sewer line traverses to the west, across the north 10 feet of the South Dodge Avenue right-of-way. There is also the stub of a water line in the South Dodge Avenue right-of-way. Based on the location of the sewer line, Public Works and Utilities is requiring a 15-foot utility easement will need to be dedicated by separate instrument in order to protect these and any other utilities in the area.

Wichita Traffic Engineering and Wichita Fire do not oppose this request. Additionally, they do not require any portion of the right-of-way to be retained for a turn-around. Based on accessibility in the area, a turn-around was not needed at this location.

Neither Evergy nor Cox object to the vacation. Their equipment is on poles near the vacation area. Any relocation of the equipment is at the applicant's expense. Whitney Rusk, Area Design Representative will be the contact for this item and any project related to it. She can be contacted at (785) 508-2695 for this vacation request and any project related to it. Conditions 1-4 covers Evergy and Cox.

As seen in Attachment #3, AT&T has equipment in the vacation area. AT&T does not object to the vacation. AT&T provided the attached letter (Attachment #4) granting permission to encroach over their facilities in the vacation area. Any relocation of equipment or damage to the facilities is at the applicant's expense. Stephen LeBrun with AT&T can be contacted at 316-268-2192 regarding this project.

The Gerald Seibel Addition was recorded on April 1, 1982.

Based upon information available prior to the public hearing and reserving the right to make recommendations based on subsequent comments from City Public Works, Water & Sewer, Stormwater, Traffic, Fire, franchised utility representatives and other interested parties, Planning Staff has listed the following considerations (but not limited to) associated with the request to vacate the described public street right-of-way and platted setback.

- A. That after being duly and fully informed as to fully understand the true nature of this petition and the propriety of granting the same, the MAPC makes the following findings:

1. That due and legal notice has been given by publication as required by law, in the Wichita Eagle, of notice of this vacation proceeding one time September 21, 2023, which was at least 20 days prior to this public hearing.
2. That no private rights will be injured or endangered by vacating the described portion of the platted right-of-way and platted setback and that the public will suffer no loss or inconvenience thereby.
3. In justice to the petitioner, the prayer of the petition ought to be granted.

Conditions (but not limited to) associated with the request:

- (1) Provide a covenant, with original signatures, binding and tying the described vacated public street right-of-way to Lot 1, Block A, Gerald Seibel Addition. This must be provided to Planning prior to VAC2023-00037 proceeding to City Council for final action and subsequent recording with the Vacation Order at the Sedgwick County Register of Deeds and the Sedgwick County Appraisers Office.
- (2) Dedicate a 15-foot utility easement by separate instrument, with original signatures along the north line of the vacated South Dodge Avenue right-of-way. This must be provided to Planning prior to the case going to City Council for final action and subsequent recording with the Vacation Order at the Register of Deeds
- (3) As needed, provide easement dedications, by separate instrument, with original signatures for any other utilities not covered by Condition #2. Any dedications must be provided to Planning prior to the case going to City Council for final action and subsequent recording with the Vacation Order at the Register of Deeds.
- (4) As needed provide utilities with any needed project plans for the relocation of utilities for review and approval. Any relocation/reconstruction of utilities made necessary by this vacation shall be to City Standards and shall be the responsibility and at the expense of the applicants. Provide an approved project number(s) to Planning prior to the case going to City Council for final action.
- (5) All improvements shall be according to City Standards and at the applicants' expense.
- (6) Per MAPC Policy Statement #7, all conditions are to be completed within one year of approval by the MAPC or the vacation request will be considered null and void. All vacation requests are not complete until the Wichita City Council or the Sedgwick County Board of County Commissioners have taken final action on the request and the vacation order and all required documents have been provided to the City, County and/or franchised utilities and the necessary documents have been recorded with the Register of Deeds.

RE: Permission for Encroachment of Proposed Structure into AT&T Communications Plant -VAC2023-0037-
Property Located Between 1132 W 44th St S and 1206 W 44th St S.

Thanks for reaching out to AT&T to discuss your building plans that involve crossing AT&T copper and fiber lines. Working around the existing fiber and copper seems to be the most cost-effective option rather than vacating and rerouting part of the AT&T plant your expense. AT&T has no objection to the encroachment of the proposed structure into copper and fiber plant located between 1132 W 44th St S and 1206 W 44th St S, Wichita, KS.

Owner agrees to pay for any relocation of AT&T facilities if deemed necessary and any damage associated with construction should it occur.
