**BZA RESOLUTION NO. BZA2024-00019**

**WHEREAS**, Azeb Yeheyis (owner); pursuant to Kansas Statutes Annotated 12-759, request a Variance to an interior side setback from six feet to 0.5 feet to bring a shed into compliance on property located at 2425 North Gentry Drive; legally described as follows:

Lot 9, Block D, Mona-Lynn Estates Addition to Wichita, Sedgwick County, Kansas.

**WHEREAS**, proper notice as required by ordinance and by the rules of the Board of Zoning Appeals has been given; and

**WHEREAS**, the Board of Zoning Appeals did, at the meeting of May 9, 2024, consider said application; and

**WHEREAS**, the Board of Zoning Appeals has proper jurisdiction to consider said request for a variance under the provisions of Kansas Statutes Annotated 12-759 *et. seq.*; and

**WHEREAS**, the conditions of the request are unique to the subject property; and

**WHEREAS**, waiving the requirements will not adversely affect the rights of adjacent property owners; and

**WHEREAS**, the strict application of the applicable Code will constitute an unnecessary hardship upon the property owner; and

**WHEREAS**, it is the opinion of the Board of Zoning Appeals that the requested variance would not adversely affect the public interest, health, safety or welfare; and

**WHEREAS**, it is the opinion of the Board of Zoning Appeals that the spirit and intent of the Zoning Code is being met in this case; and

**WHEREAS**, each of the five conditions required by Kansas Statutes Annotated 12-759, are found to be present for a Variance to be granted.

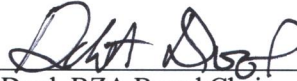

**NOW, THEREFORE, BE IT RESOLVED** by the Board of Zoning Appeals, pursuant to Kansas Statutes Annotated 12-759, a Variance to reduce the interior side setback to 0.5 feet to bring a shed into compliance, on property located at 2425 North Gentry Drive; legally described as follows:

Lot 9, Block D, Mona-Lynn Estates Addition to Wichita, Sedgwick County, Kansas.

The variance is hereby **GRANTED**, subject to the following conditions:

1. The shed shall be constructed in substantial conformance with the approved site plan.
2. Building permits shall be obtained from MABCD for the construction of the shed.

ADOPTED AT WICHITA, KANSAS, this 9<sup>th</sup> Day of May 2024

**SECRETARY'S REPORT**

**CASE NUMBER:** BZA2024-00019 (City)

**APPLICANTS:** Azeb Yeheyis

**REQUEST:** Reduce the interior side setback from 6 feet to six (6) inches to bring a shed into conformance.

**CURRENT ZONING:** SF-5 Single-Family Residential District

**SITE SIZE:** 0.46 acres

**LOCATION:** Generally located on the west side of North Gentry Drive and within one-quarter mile south of East 25<sup>th</sup> Street North (2425 North Gentry Drive).

**JURISDICTION:** The Board has jurisdiction to consider the Variance request under the provisions outlined in Kansas Statutes Annotated 12-759. The Board may grant the request when all five conditions, as required by the statutes, are found to exist.

**BACKGROUND:** The applicant is requesting a Variance to reduce the interior side setback from six (6) feet to six (6) inches to allow a shed under construction come into conformance. The applicant is in the process of building the shed and realized it was out of compliance with the Unified Zoning Code's setback regulations during the inspection process. The applicant claims that property lines were misrepresented prior to the applicant building the shed and hiring a surveyor to confirm the property lines.

The property is surrounded on all sides by the SF-5 Single-Family Residential District and developed with single-family dwellings.

**CASE HISTORY:** On April 27, 1954, the subject site was platted as part of the Mona Lynn Estates Addition. There are no other zoning cases associated with this property.

**ADJACENT ZONING AND LAND USE:**

NORTH:	SF-5	Single-Family Residence
SOUTH:	SF-5	Single-Family Residence
EAST:	SF-5	Single-Family Residence
WEST:	SF-5	Single-Family Residence

**THE FIVE CRITERIA FOR GRANTING A VARIANCE:**

1. **Criteria: The request is unique to this property and was not created by the applicant:**  
Applicant Narrative: The applicant states that "The variance request arises from a unique condition of abstract property lines and incorrect markers which adversely affects the northwest corner of our structure already being built."

Staff Analysis: Staff does not agree that the request is unique. Based on the attached survey, the existing fence was not built on the property line, which may have led the applicant to incorrectly assuming the location of the property line. However, the distance between the location of the shed to the fence line, the shed would have been out of compliance with the side yard setback. The applicant did not provide any evidence to show that the location of the proposed shed would be in compliance with the setback standards of the UZC.

2. **Criteria: The granting of the Variance will not adversely affect the rights of the adjacent property owners or residents:**  
Applicant Narrative: The applicant states that "The granting of our request for variance permit in no way shall affect the rights of any adjacent property. We have spoken directly to our neighbor on the north side and they are in agreement that it doesn't affect them and are fine with our proceeding to finish should you approve of our request for variance."

Staff Analysis: Staff agrees that because of the size of the properties and the distance between the shed and the neighboring property owner's dwelling unit, the Variance should not adversely affect adjacent property owners. The applicant did not provide any support in writing from the neighbor.

3. **Criteria: The strict application of the provisions of the zoning code would constitute an unnecessary hardship on the applicant:**

Applicant Narrative: The applicant states that “Hardships shall incur us, the property owner should, should our application be denied as we have already spent considerable amount of to get our project to the halfway mark. Hence foundation concrete work, walls, roof beams, and partial wood decking would need to be demolished hindering financial burden to homeowner and setback to start again at later time.”

Staff Analysis: Staff disagrees. Though construction work has begun on the shed, it is clear that work began prior to obtaining a building permit. Once a review occurred, a survey was required, which indicated the proposed shed is in violation of the setback. Based on this, the hardship on the applicant is self-imposed.

4. Criteria: The Variance will not adversely affect the public health, safety, morals, order, convenience, prosperity, general welfare, or harmonious development of the community:

Applicant Narrative: The applicant states “In no way shall our request for approval create any public health issue, safety, morals, order, convenience, prosperity, general welfare or disrupt the harmonious development of the community. In fact, since purchase we have remodeled home. We did extensive yard upgrades and have received compliments from neighbors.”

Staff Analysis: Staff does not agree. Even though the shed is a large distance away from any other structures on neighboring properties, permitting the construction of a structure six inches away from the property line does not promote harmonious development in the community. Given the size of the applicant’s property, there is adequate space to construct the shed in compliance with required setbacks.

5. Criteria: The granting of the Variance will not be opposed to the general spirit and intent of the Unified Zoning Code:

Applicant Narrative: The applicant states that “Granting the Variance we seek is not done so with intent of opposing the general spirit of any applicable code. Until the survey request by Sedgwick County permit office, no one knew property markers were incorrectly positioned. As we are with our property the variance of the northwest corner is our issue.”

Staff Analysis: Staff does not agree. The proposed variance does not uphold the spirit and intent of the code. The proposed shed would have violated the setback requirement even if the fence line and the property line were the same. Given the size of the applicant’s property, there is adequate space to construct the shed and it comply with required setbacks.

**RECOMMENDATION:** The recommendation of Staff is that the Variance to reduce the interior side setback from six (6) feet to six (6) inches for a storage shed **does not meet** the five criteria required to grant a variance. Should the Board determine that all five conditions necessary to the granting of the Variance can be found to exist, then it is the recommendation of the Secretary that the following Variance for the reduction in the interior side setback is granted with the following conditions:

1. The shed shall be constructed in substantial conformance with the approved site plan.
2. Building permits shall be obtained from MABCD for the construction of the shed.

- A. The Variance Requested Arises From A Unique Condition Of Abstract Property Lines And Incorrect markers which Adversely Affects N.W. Corner Of Our Structure Already Being Built.
- B. The granting of our Request For Variance Permit in no way shall Effect The Rights of Any Adjoining Property. We have spoken Directly to our neighbor on the north side and They are in Agreement that it Dont Effect Them and ARE Fine with our Proceeding to Finish Shall YOU Approve of our Request For Variance
- C. Hardships shall Incur us the Property owner should our Application Be Denied AS WE have already spent considerable Amount to get our Project to the 1/2 way mark. Hence foundation - concrete work Walls - Roof Beams and Partial wood Decking would need to Be Demolished Hendering Financial Burden to home owner & setback to start again At later Time

D. in no way shall our Request For Approval create any Public Health Issue - Safety Morals - Order - Inconvenience or Convenience - Prosperity - General welfare - or Disrupt Harmonious Development of Community. In Fact since purchase we have Remodeled Home - Did Extensive Yard up Grades and Have Received Compliments From neighbors.

E. Granting the Variance we seek is not Done so with Intent of opposing the General spirit or Intent of any Applicable code.

\* until survey Request by Sada. County Permit Office no one knew Property markers were Incorrectly positioned. \*

As we are with our Property the variance of N.W. corner is our Issue.
