STAFF REPORT
MAPC: July 11, 2024
DAB I: July 1, 2024

CASE NUMBER: CON2024-00035 (City)

APPLICANT/AGENT: W.G. Enterprises, LLC/2011 WFFT (Applicants)/Chad Jimenes (Agent)

REQUEST: Conditional Use Amendment to CON2012-00044 to permit outdoor speakers and televisions and increase square footage of restaurant.

CURRENT ZONING: B Multi-Family Residential District

SITE SIZE: 0.177 acres

LOCATION: Generally located on the northeast corner of East Douglas Avenue and North Oliver Avenue (4800 East Douglas Avenue).

PROPOSED USE: Amend CON2012-00044 to permit outdoor speakers, televisions, and increase the square footage of the restaurant.

RECOMMENDATION: Approval with conditions.

BACKGROUND: The applicant is requesting an amendment to a Conditional Use for two items:

- 1) to permit Outdoor speakers, televisions, and
- 2) increase the square footage of the restaurant.

The property is zoned B Multi-Family Residential District (B) with a total of 0.177 acres, located on the northeast corner of East Douglas Avenue and North Oliver Avenue (4800 East Douglas Avenue).

On June 27, 2024, the MAPC reviewed the case and voted to defer the case until the July 11, 2024 scheduled meeting (13-0).

In 2012, the property received a Conditional Use (CON2012-00044) to allow ancillary parking. The conditions pertaining to this property are listed below:

- (1) Use of the B zoned Lot 18, Block 8, East Boulevard Addition, shall include Ancillary Parking, per standards of the UZC, Sec.-III-D.p.
- (2) The applicant shall submit a revised site plan for review and approval by the Planning Director, within 30 days of approval by the MAPC or the City Council. The site will be developed according to the revised site plan. The site plan shall include, but not be limited to, solid screening where the site is abutting or adjacent to residential uses and zoning, all proposed lighting (no taller than 12 feet and directed away all residential uses and zoning), landscaping along the north and east sides where the site is abutting or adjacent to residential uses and zoning.
- (3) The site plan shall also show the off-site shared parking on Lot 19, Block 9, East Boulevard Addition and the applicant shall also provide a copy of the off-site shared parking agreement to Planning and the Office of Central Inspection. Solid screening shall be provided along the north side Lot 19, Block 9, East Boulevard Addition.
- (4) A drainage plan shall be submitted for review and approval by Stormwater prior to the issuance of any paving permits for the parking lot.
- (5) No outside speakers associated with a restaurant's outside sitting, on Lot 19, Block 8, East Boulevard Addition. The restaurant shall be no larger than 4,399-square foot -square feet and that shall include all storage, kitchen and bathroom areas.
- (6) All trash receptacles or similar type of receptacles shall have 6-foot tall approved solid screening around it. The gate shall be of similar materials as the screening. The trash receptacle shall be moved so that it is adjacent to the Oliver Avenue side of the future parking.
- (7) All improvements shall be completed within one year of the approval of the Conditional Use by the MAPC or the City Council.
- (8) Access onto the B zoned ancillary parking site from Glendale shall be ingress only. No exiting onto Glendale from the parking lot or any abutting properties.
- (9) The site shall be developed and operated in compliance with all federal, state, and local rules and regulations.
- (10) If the Zoning Administrator finds that there is a violation of any of the conditions of the Conditional Use, the Zoning Administrator, in addition to enforcing the other remedies set forth in Article VIII of the Unified Zoning Code, may, with the concurrence of the Planning Director, declare that the Conditional Use is null and void.

In 2013, Lot 19, Block 8, East Boulevard Addition, received an Administrative Adjustment (BZA2013-00007) to increase the size of the restaurant by less than 10 percent, resulting in the approved size of the restaurant from 4,399 square feet to 4,860 square feet. The Administrative Adjustment also limited the number of seats to 209 and reduced the street side setback of a parking lot (Lot 18, Block 8, East Boulevard Addition) zoned B Multi-Family Residential District (B) to eight feet.

The applicant is requesting changes to Condition #5 of the Conditional Use approved in 2012. This amendment would allow outdoor patio speakers and televisions on the east side of the building. This amendment would also increase the allowed restaurant square footage from 4,860 square feet to 7,291

square feet. This is because the applicant is proposing to utilize existing square footage a tenant space next door that formerly was occupied with a retail use. The site will be required to comply with Noise Compatibility standards of the Unified Zoning Code (UZC) Sec. IV-C.6, which states that no sound amplification system for projecting music or human voices shall be permitted on any property zoned NO or more intensive if the music and/or voices can be heard within any residential zoning district that is located within a 500-foot radius of the subject site. The city also has a noise ordinance that is designed to mitigate any significant negative impacts of noise on adjacent properties. The nearest residence to the patio where the speakers and TVs would be located is approximately 200 feet. Based on this proximity, staff is recommending that the speaker and TVs be turned off at 10:00 p.m.

Properties to the north are zoned GO General Office District (GO) and B. The GO-zoned property is developed with an office. The B-zoned property is developed with a single-family residence. The property to the east is zoned LC Limited Commercial District and is developed with a bank. The property to the south, across East Douglas Avenue is zoned LC Limited Commercial District and is developed with stores and a restaurant. The property to the west, across Oliver Avenue, is zoned LC Limited Commercial District and is developed with a strip mall.

CASE HISTORY: In 1930, the property was platted as part of the East Boulevard Addition. In 2012, Lot 18, Block 8 of the East Boulevard Addition received a Conditional Use (CON2012-00044) to allow Ancillary Parking on property zoned B Multi-Family Residential District. This Conditional Use also restricted outside speakers on Lot 19, Block 8 of the East Boulevard Addition and restricted the restaurant to 4,399 square feet in size, including all storage, kitchen, and bathroom areas. In 2013, the property received an Administrative Adjustment (BZA2013-00007) to reduce parking by approximately 11 percent from 77 spaces to 68 spaces and the reduction of the street side setback on the B-zoned parking located on Lot 18, Block 8, East Boulevard Addition to eight (8) feet. Also in 2013, the 20-foot-wide public alley located to the north of the subject site was vacated (VAC2012-00044) with ten feet being applied to the subject site and ten feet being applied to the site to the north.

ADJACENT ZONING AND LAND USE:

NORTH:	GO	General Office building
SOUTH:	LC	Restaurant, Retail store
EAST:	LC	Bank
WEST:	LC	Strip mall

PUBLIC SERVICES: East Douglas Avenue is a paved, four-lane arterial street with a left-hand turn lane directly in front of the subject site, with sidewalks on both sides. North Oliver Avenue is a paved, four lane arterial street with a left-hand turn lane directly west of the subject site, with sidewalks on both sides. Wichita Transit does provide regular bus service along both East Douglas Avenue and North Oliver Avenue with a bus stop at the southwest corner of Douglas and Oliver Avenues. The site is served by municipal water and sanitary sewer services.

CONFORMANCE TO PLANS/POLICIES: The request is in conformance with the following plans:

The Community Investments Plan: The Map identifies the subject area as appropriate for Commercial uses, which is defined as the “full diversity of commercial land uses typically found in a large urban municipality.” Staff believes that allowing outdoor speakers and televisions on the outdoor patio at this location complies with the *Plan*.

The proposed application is not in conformance with the Locational Guidelines of the *Community Investments Plan*. The Locational Guidelines state that “Non-residential uses should have site design features that limit traffic, noise, lighting, and adverse impacts on surrounding residential land uses.” The intensity of the use with the outdoor noise next to residential use could have negative impacts. However,

the staff recommended conditions of approval are designed to mitigate negative impacts.

Wichita: Places for People Plan: The requested zone change is in conformance with the goals of the Wichita: Places for People Plan. The Wichita: Places for People Plan provides recommendations for urban infill development in the Established Central Area (ECA). The subject site is located within the ECA. In general, the ECA is envisioned as “a place for people - a place that provides for the movement of people - on foot, on bike and through transit - in balance with automobiles.”

- Strategies: The Plan recommends strategies to help guide the community in their actions to create walkable places within Wichita. The requested zone change is in conformance with Strategy 6, “Encourage infill and redevelopment that is contextual to the environment in which it is occurring.” The East Douglas Avenue/Oliver Avenue intersection is primarily a commercial intersection. Permitting the addition of outdoor speakers and televisions on the patio and increasing the restaurant square footage are acceptable requests given the location.

RECOMMENDATION: Based upon the information available at the time the report was prepared, staff recommends **APPROVAL** of the Conditional Use, subject to the following conditions:

- (1) Use of the B zoned Lot 18, Block 8, East Boulevard Addition, shall include Ancillary Parking, per standards of the UZC, Sec.-III-D.p.
- (2) The applicant shall submit a revised site plan for review and approval by the Planning Director, within 30 days of approval by the MAPC or the City Council. The site will be developed according to the revised site plan. The site plan shall include, but not be limited to, solid screening where the site is abutting or adjacent to residential uses and zoning, all proposed lighting (no taller than 12 feet and directed away all residential uses and zoning), landscaping along the north and east sides where the site is abutting or adjacent to residential uses and zoning.
- (3) The site plan shall also show the off-site shared parking on Lot 19, Block 9, East Boulevard Addition and the applicant shall also provide a copy of the off-site shared parking agreement to Planning and the Office of Central Inspection. Solid screening shall be provided along the north side Lot 19, Block 9, East Boulevard Addition.
- (4) A drainage plan shall be submitted for review and approval by Stormwater prior to the issuance of any paving permits for the parking lot.
- (5) Outdoor speakers and televisions shall be allowed on Lot 19, Block 8, East Boulevard Addition, provided that use of the outdoor speakers and television shall cease at 10:00pm. The restaurant shall be no larger than 7,291 square feet and that shall include all storage, kitchen and bathroom areas.
- (6) All trash receptacles or similar type of receptacles shall have 6-foot-tall approved solid screening around it. The gate shall be of similar materials as the screening. The trash receptacle shall be moved so that it is adjacent to the Oliver Avenue side of the future parking.
- (7) All improvements shall be completed within one year of the approval of the Conditional Use by the MAPC or the City Council.
- (8) Access onto the B zoned ancillary parking site from Glendale shall be ingress only. No exiting onto Glendale from the parking lot or any abutting properties.
- (9) The site shall be developed and operated in compliance with all federal, state, and local rules and regulations.
- (10) If the Zoning Administrator finds that there is a violation of any of the conditions of the Conditional Use, the Zoning Administrator, in addition to enforcing the other remedies set forth in Article VIII of the Unified Zoning Code, may, with the concurrence of the Planning Director, declare that the Conditional Use is null and void.

This recommendation is based on the following findings:

1. The zoning, uses and character of the neighborhood: Properties to the north are zoned GO General

Office District (GO) and B. The GO-zoned property is developed with an office. The B-zoned property is developed with a single-family residence. The property to the east is zoned LC Limited Commercial District and is developed with a bank. The property to the south, across East Douglas Avenue is zoned LC Limited Commercial District and is developed with stores and a restaurant. The property to the west, across Oliver Avenue, is zoned LC Limited Commercial District and is developed with a strip mall.

2. The suitability of the subject property for the uses to which it has been restricted: The property is zoned B Multi-Family Residential District, which permits several residential and civic and public uses. In 2012, a Conditional Use was granted for ancillary parking. A condition of approval prohibited outdoor speakers and limited the square footage of the restaurant. The Conditional Use also references property that is zoned GC General Commercial District, which permits a vast array of residential, public and civic, and commercial uses and a limited amount of industrial, manufacturing, and extractive uses.
3. Extent to which removal of the restrictions will detrimentally affect nearby property: The proposed Conditional Use amendment may negatively impact the adjacent residential dwellings north, east and northwest of the subject property. Permitting outdoor speakers and televisions may create noise pollution; however, the recommended conditions of approval are intended to mitigate these impacts. These measures include: 1) there are noise compatibility and nuisance regulations in the zoning code, 2) there is a City noise ordinance. These measures should mitigate the possible negative impacts associated with this use, and 3) staff is recommending a time limit by which the outdoor speakers and televisions shall be turned off.
4. Length of time subject property has remained vacant as zoned: The subject site is not vacant. The site has been in use for several years.
5. Relative gain to the public health, safety and welfare as compared to the loss in value or the hardship imposed upon the applicant: Approval of the request represents a gain to the public in that it contributes to support economic opportunity in the area. Approval of this application is not anticipated to have a significant detrimental impact to public health, safety, or welfare based on the measures provided by the UZC to mitigate possible noise pollution. Denial of the request could represent a loss in the use and enjoyment of the applicant's property.
6. Conformance of the requested change to the adopted or recognized Comprehensive Plan and policies: The proposed application is in conformance to the *Community Investments Plan*, as noted above and the *Wichita: Places for People Plan*.
7. Impact of the proposed development on community facilities: It is not anticipated that the proposed use should not have negative impacts on community facilities.
8. Opposition or support of neighborhood residents: At the time the staff report was prepared, staff received two phone calls with concerns of noise and increased traffic and trash in the area.

I understand The Hill, CON2024-00035, would like add outdoor speakers to the establishment. Given that the establishment is within 500ft of fifty one residences, which will be negativity impacted due to noise pollution, the proposed outdoor speakers should be denied per Sedgwick County Unified Zoning Code.

Sedgwick County Unified Zoning Code, Article IV - Site Development Standards

C. Compatibility Standards

2. Applicability

b. Noise.

Compatibility standards for noise shall apply to all Uses in NO and more intensive base zoning Districts when such Uses are located on Zoning Lots that are within 500 feet of any property zoned MH or more restrictive.

6.0.

Compatibility noise standards.

No sound amplification system for projecting music or human voices shall be permitted on any property zoned NO or more intensive if the music and/or voices can be heard within any residential zoning District that is located within a 500-foot radius of the subject site.

Mr Eatherly,
I oppose the Hill's application for permission to use outdoor speakers and TVs and to expand its serving area without providing additional parking. These changes would negatively impact neighboring residential properties with sound intrusion and increased on street parking on adjacent residential streets. The proposed sound limits mentioned in the approval requirements are neither adequate nor effectively enforceable to protect neighbors from objectionable sound pollution. The Hill management needs to abide by its previous agreement not to use outdoor speakers rather than using that as a wedge to accomplish this disruption now.
Respectfully, Susan Miner

Dear Mr. Eatherly,

The noise amplification via television and speakers proposed in CON2024-00035 is not allowed per the Sedgwick County Unified Zoning Code (shown below), as there are fifty-one residences located within 500 feet of the applicant's property line. I respectfully ask that the proposed outdoor television and speakers be denied.
