AGENDA ITEM NO. 4.4

STAFF REPORT

MAPC: August 8, 2024

DAB VI: August 12, 2024

CASE NUMBER: ZON2024-00035 (City)

APPLICANT/AGENT: Jose A. Solis (Applicant)

REQUEST: B Multi-Family Residential District

CURRENT ZONING: LI Limited Industrial District

SITE SIZE: 0.143 acres

LOCATION: Generally located on the west side of North Wellington Place and within 330 feet south of West 29th Street North.

PROPOSED USE: Single-family dwelling or duplex

RECOMMENDATION: Approve.

BACKGROUND: The applicant is requesting a zone change from LI Limited Industrial District (LI) to B Multi-Family Residential District (B) in order to permit a single-family dwelling or duplex. The 0.143-acre property is generally located on the west side of North Wellington Place and within 330 feet south of West 29th Street North. The property is currently undeveloped and the applicant would like to build a single-family dwelling or a duplex, neither of which is permitted in the LI district.

The subject site is located just south of two warehouses and would be surrounded by residential uses to the south, east and west. It is not anticipated that the residential uses would experience detrimental effects due to the proximity of warehouses to the north, northeast, and northwest.

Should the zone change request be approved, there will be changes to development standards, which are listed in the table below:

Property Development Standards	LI Limited Industrial	B Multi-Family
Minimum lot area	No minimum	Single-Family: 2,500 sq. ft. Duplex: 2,000 sq. ft. per unit Multi-Family: 580 sq. ft. Nonresidential: 5,000 sq. ft.
Front setback	20 feet	20 feet
Rear setback	0 feet	15 feet
Interior Side Setback	0 feet or 5 feet	5 feet
Street Side Setback	0 feet	5 feet
Maximum height	80 feet	35 feet
Minimum lot width	No minimum	55 feet

Compatibility setback and height standards would not apply because the site abuts the LI District on the north, west, and south property lines and the B District to the east, across North Wellington Place. Based on the size of the subject site, the applicant would be able to place one duplex. If the subject site is developed with a single-family dwelling or a duplex, no screening standards or landscaped street yard shall apply.

The character of the neighborhood is a mix of residential and light industrial. Property to the north is zoned LI, is owned by the applicant, and is undeveloped. Properties to the north and northwest of the neighboring lot to the north are zoned LI and are developed with warehouses. Property to the northeast is zoned GC General Commercial District (GC) and is developed with a warehouse. Property to the east is zoned B and is developed with a single-family dwelling. Properties to the south and west are zoned LI and are developed with single-family dwellings.

CASE HISTORY: On March 1, 1932, the subject property was platted as part of the Montrose Park Addition. There are no other zoning cases associated with the site.

ADJACENT ZONING AND LAND USE:

North:	LI	Undeveloped
South:	LI	Single-family dwelling
East:	B	Single-family dwelling
West:	LI	Single-family dwelling

PUBLIC SERVICES: The subject site has access to North Wellington Place, a two-lane local street without sidewalks. All city services such as water and sanitary sewer currently exist to serve the property. Service lines would likely need to be placed to serve the site. Wichita Transit serves the site on North Broadway Avenue

halfway at the mid-block between East 29th Street North and East 28th Street North, approximately one-fifth of a mile as the crow flies from the subject site.

CONFORMANCE TO PLANS/POLICIES: The requested zone change is in conformance with the following plans:

Community Investments Plan: The requested zone change is in conformance with the *Community Investments Plan*. The *Community Investments Plan* (the Wichita-Sedgwick County Comprehensive Plan), which includes the 2035 Future Growth Concept Map, recommends the subject site as appropriate for “Residential” uses. The *Plan* defines “Residential” as “*areas that reflect the full diversity of residential development densities and types typically found in a large urban municipality. The range of housing densities and types includes, but is not limited to, single-family detached homes, semi-detached homes, zero lot line units, patio homes, duplexes, townhouses, apartments and multi-family units, condominiums, mobile home parks, and special residential accommodations for the elderly (assisted living, congregate care and nursing homes).*” A single-family dwelling or a duplex development are appropriate uses for this area.

The Locational Guidelines of the *Community Investments Plan* provide a framework for decision-making regarding land use changes. Under the heading of “Development Pattern, Guideline 2.a encourages, “*infill development that maximizes public investment in existing and planned infrastructure and services.*” The applicant’s request would fulfill this locational guideline’s intent.

Wichita: Places for People Plan: The requested zone change is in conformance with the goals of the *Wichita: Places for People Plan*. The *Wichita: Places for People Plan* provides recommendations for urban infill development in the Established Central Area (ECA). The subject site is located within the ECA. In general, the ECA is envisioned as “a place for people - a place that provides for the movement of people - on foot, on bike and through transit - in balance with automobiles.”

- **Strategies:** The Plan recommends strategies to help guide the community in their actions to create walkable places within Wichita. The requested Duplex partially aligns with Strategy 5: *Provide a diversity of housing options to attract new residents and allow existing residents to remain in the ECA.* The scale of the request is not out of character with the neighborhood, with B zoned lots to directly to the east. The request aligns with Strategy 6: *Encourage infill and redevelopment that contextual to the environment in which it is occurring.* Adding a single-family dwelling or duplex to the neighborhood is not expected to adversely affect the area.

RECOMMENDATION: Based upon the information available at the time the staff report was completed, staff recommends **APPROVAL** of the request.

This recommendation is based on the following findings:

1. **The zoning, uses and character of the neighborhood:** The character of the neighborhood is a mix of residential and light industrial. Property to the north is zoned LI and is owned by the applicant and is undeveloped. Properties to the north and northwest of this lot are zoned LI and are developed with warehouses. Property to the northeast is zoned GC General Commercial (GC) and is developed with a warehouse. Property to the east is zoned B and is developed with a single-family dwelling. Properties to the south and west are zoned LI and are developed with single-family dwellings.
2. **The suitability of the subject property for the uses to which it has been restricted:** The properties are zoned LI Limited Industrial District, which is suitable for a range of commercial and industrial uses. The LI District does not permit any form of residential uses other than Short Term Rentals in the City for non-conforming residential uses within the LI District.

3. Extent to which removal of the restrictions will detrimentally affect nearby property: Approval of the request would allow all uses permitted in the B Multi-Family Residential District on the site. The applicant intends to develop the site as a single-family dwelling or a duplex. Considering the character of the neighborhood, a single-family dwelling or duplex would not be out of character because of the number of residential units in the area. It is also not anticipated to be detrimental to the residential use to be in such close proximity to the light industrial uses to the north and northeast as all are warehouses.
4. Length of time subject property has remained vacant as zoned: The subject property is undeveloped. It is unknown how long the property has been undeveloped.
5. Relative gain to the public health, safety and welfare as compared to the loss in value or the hardship imposed upon the applicant: It is not expected that the requested zone change would have any significant negative affects to surrounding properties. Denial of the request could represent a loss in the use and enjoyment of the applicant's property.
6. Conformance of the requested change to the adopted or recognized Comprehensive Plan and policies: The requested zone change is in conformance with the *Community Investments Plan* and the *Wichita: Places for People Plan*, as discussed in the staff report.
7. Impact of the proposed development on community facilities: The Planning Department does not anticipate the requested zone change will have a significant negative impact on community facilities.
8. Opposition or support of neighborhood residents: At the time of publication of the staff report, staff has not received any public comments regarding this case.
