RE: ZON2024-00045 – Zone change request in the City from SF-5 Single-Family Residential District to GO General Office District, generally located on the southwest corner of West 9th Street North and North Tyler Road (996 North Tyler).

Dear Applicant;

At its regular meeting on **October 10, 2024**, the Wichita - Sedgwick County Metropolitan Area Planning Commission considered the above captioned requests. The action of the MAPC was to recommend **APPROVAL** of the request.

Property owners opposed to the application may file with the City Clerk a signed, written protest of the MAPC's recommendation. (Unsigned e-mails are not considered to be legal protests.) To be effective, the protest must be filed by 5:00 p.m. on October 24, 2024. In order to be considered a "valid" petition, the signatures must reflect the correct and entire ownership of the property, the property must be at least partially located within 200 feet of the property for which the application was filed, and must be submitted to the City Clerk by **October 24, 2024, at 5:00 p.m.**

This application will be heard by the Wichita City Council on **Tuesday, November 19, 2024**, beginning at **6:00pm**, for final action. Meetings take place at 455 North Main Street, Wichita, KS 67202.

If you have any questions concerning this application, please contact our office at 268-4421.

Sincerely,

AGENDA ITEM NO. 4.3

STAFF REPORT

MAPC: October 10, 2024

DAB V: October 7, 2024

CASE NUMBER: ZON2024-00045 (City)

APPLICANT/AGENT: Greenstein Properties LLC (Applicant)/Tamra Provines (Contract Purchaser)

REQUEST: GO General Office District

CURRENT ZONING: SF-5 Single-Family Residential District

SITE SIZE: 0.47 acres

LOCATION: Generally located on the southeast corner of West 9th Street North and North Tyler Road (996 North Tyler Road).

PROPOSED USE: Real estate office.

RECOMMENDATION: Approve.

ZON2024-00045

Metropolitan Area Planning Commission

BACKGROUND: The applicant is requesting a zone change from SF-5 Single-Family Residential District to GO General Office District. The subject site is generally located on the southeast corner of West 9th Street North and North Tyler Road (996 North Tyler Road). The subject site is currently developed with a single-family residential dwelling. The applicant is requesting the zone change to operate a real estate agency on site.

The applicant proposes to utilize the existing single-family dwelling for the business. The current 1,460 square foot, one-story dwelling was constructed in 1954. SF-5 allows for a limited number of residential, public, and civic uses; SF-5 properties are predominantly developed with single-family residences. GO allows for a wide array of residential uses and a limited number of low-intensity commercial uses. The zone change request would also modify the property's development standards, as shown in the table below.

Development Standard	SF-5 Single-Family Residential District	GO General Office District
Minimum lot size	5,000 square feet	2,500 square feet for single-family 4,000 square feet for duplex 580 square feet per dwelling unit for multi-family (maximum 75.1 dwelling units per acre) 5,000 square feet for nonresidential
Minimum lot width	50 feet	No minimum
Front setback	25 feet	20 feet
Rear setback	20 feet	Ten feet, subject to compatibility standards.
Interior side setback	Six feet	Zero feet, but if an interior side setback is provided, it shall be at least five feet, subject to compatibility standards.
Street side setback	15 feet	15 feet
Maximum height	35 feet	60 feet plus a foot of additional height for each foot of setback beyond the minimum required setbacks, subject to compatibility standards.

Parking for the "Office, General" use is one parking space per 333 square feet. Therefore, the applicant will need to provide four parking spaces for the business. The lot is currently developed with a circular driveway on North Tyler Road. The parking requirement can be reduced through a separate administrative application to the Planning Department.

Because the subject site abuts residential zoning on the north, south, and east, it will be required to install screening and landscaping. There is currently a wood fence on the south, east, and west elevations, but a landscape plan must be reviewed and submitted prior to the issuance of building permits. The screening and landscape requirements can mitigate possible negative impacts.

Should the applicant utilize a new building for their intended commercial office space, the Unified Zoning Code (UZO) requires compatibility standards for side and rear lot lines of properties zoned MF-18 Multi-Family Residential District or less restrictive when they are within 500 feet of a property zoned TF-3 or more restrictive. The minimum building compatibility setback shall be 15 feet plus one foot for each five feet of lot width over 50 feet. However, the compatibility setback standards shall not require more than a setback of 25 feet. For compatibility height standards, no structure shall exceed 35 feet in height within 50 feet of the lot line.

The character of the neighborhood is low-density residential and light commercial. Properties to the north are zoned GO and TF-3 Two-Family Residential and are developed with an insurance agency and a duplex,

respectively. Property to the south is zoned GO and is developed with a one-story professional office complex that has hipped roofs and a brick exterior. Properties to the east and west are zoned SF-5 and developed with single-family dwellings.

CASE HISTORY: The subject site is not platted. Platting is required prior to the issuance of commercial building permits. There are no zoning cases associated with this property.

ADJACENT ZONING AND LAND USE:

NORTH:	GO, TF-3	Insurance office, duplex
SOUTH:	GO	Professional office complex
EAST:	SF-5	Single-family residential dwelling
WEST:	SF-5	Single-family residential dwelling

PUBLIC SERVICES: This site is currently accessed via North Tyler Road, which is a four-lane arterial street with sidewalks on both sides, as well as West 9th Street North, which is a two-lane local street with no sidewalks. Wichita Transit stops one-quarter mile north of the subject site, at the northeast corner of North Tyler Road and NW Stadium Road. Municipal services, such as water and sewer, already serve this site.

CONFORMANCE TO PLANS/POLICIES: The requested zoning is in conformance with the *Community Investments Plan*. The *Plan*'s 2035 Wichita Future Growth Concept Map identifies the area to be appropriate for "Commercial" uses. The zone change request for a professional office is appropriate for this category.

The Locational Guidelines of the *Community Investments Plan* state that "Higher-density residential uses and neighborhood-serving retail and office uses should buffer lower-density residential uses from major commercial and employments centers and industrial uses." The requested zone change and intended use of the site serve as a transition to the SF-5 zoning immediately east of the subject site.

RECOMMENDATION: Based upon the information available at the time the staff report was completed, staff recommends **APPROVAL** of the zone change request.

This recommendation is based on the following findings:

1. **The zoning, uses and character of the neighborhood:** The character of the neighborhood is low-density residential and light commercial. Properties to the north are zoned GO and TF-3 Two-Family Residential and are developed with an insurance agency and a duplex, respectively. Property to the south is zoned GO and is developed with a one-story professional office complex that has hipped roofs and a brick exterior. Properties to the east and west are zoned SF-5 and developed with single-family dwellings.
2. **The suitability of the subject property for the uses to which it has been restricted:** The property is presently zoned SF-5 Single-Family Residential District, which is suitable for the development of single-family residential dwellings or a limited number of civic uses.
3. **Extent to which removal of the restrictions will detrimentally affect nearby property:** The zone change from SF-5 Single-Family Residential District to GO General Office District will allow for an insurance agency on site, along with a limited number of commercial uses. Though there will be a slight increase in traffic, office uses are generally compatible abutting residential properties because the use is during normal business hours. The provisions for screening and landscaping are designed to enhance the compatibility with the neighborhood and mitigate possible negative impacts.

4. **Length of time subject property has remained vacant as zoned:** The subject site has been developed with a single-family dwelling since 1954.
5. **Relative gain to the public health, safety and welfare as compared to the loss in value or the hardship imposed upon the applicant:** Staff does not anticipate that approval of the requested zone change to have detrimental impacts to the surrounding community. Denial of the requested zone change may result in the loss and enjoyment of the applicant's property.
6. **Conformance of the requested change to the adopted or recognized Comprehensive Plan and policies:** The requested zoning is in conformance with the *Community Investments Plan*, as discussed in this staff report.
7. **Impact of the proposed development on community facilities:** The requested zoning is not anticipated to have significant adverse impacts on community facilities. The applicant intends to convert the existing single-family dwelling into a professional office with minimal changes.
8. **Opposition or support of neighborhood residents:** At the time the staff report was prepared, staff did not receive any comments from the public.

Staff has identified an alternative approval motion that would include a Protective Overlay designed to ensure compatible building design with existing office structure and nearby residential dwellings. The MAPC and Planning staff have previously recommended zoning changes with Protective Overlays on residential properties that:

- abut arterials; and
- are adjacent to non-residential and residential uses.

These types of applications are generally recommended for approval because:

- the "GO" district is intended to be a very low-intensity office use that is more compatible with nearby residential uses and permits a limited number of non-residential uses;
- the size of the subject property is usually limited in size and too small for more intensive uses; and
- Protective Overlays are applied to help mitigate any anticipated substantial adverse impacts.

In 2002, the City of Wichita approved a zone change from SF-5 Single-Family Residential District to NO Neighborhood Office District, subject to Protective Overlay #110 (ZON2002-00016). In 2022, the City of Wichita approved the same zone change request subject to Protective Overlay #403 (ZON2022-00066).

The MAPC also has the option to adopt alternative findings and approve subject to Protective Overlay #444, which reads:

Protective Overlay #444

1. The property shall be developed with a building that has exterior walls of brick and/or wood (or synthetic materials that replicate wood texture) and a double-pitched gable or hip style roof.
2. One freestanding monument-type sign with materials matching those of the building not exceeding six feet in height.
3. The site shall be developed in general conformance with the revised site and landscape plans as approved by the Planning Director.
4. Permitted uses shall be restricted to single-family residential, medical office, or general office uses.
