METROPOLITAN AREA PLANNING COMMISSION

**AGENDA REPORT NO.
January 9, 2025**

STAFF REPORT

CASE NUMBER: VAC2024-00056 - City Vacation of a portion of a platted 30-foot building setback.

APPLICANT: Juan Lopez (applicant)/ BHC (agent)

LEGAL DESCRIPTION: Generally described as vacating a portion of the west 15 feet of the platted 30-foot building setback of Lot 1, Block 4, Benjamin Hills 2nd Addition, Wichita, Sedgwick County, Kansas.

LOCATION: Generally located within one-quarter mile north of West 21st Street North and one-half mile west of North Amidon Avenue (2380 N. Richmond Ave.). (WCC VI)

REASON FOR REQUEST: To allow for a garage addition.

CURRENT ZONING: The subject site and all abutting sites are zoned SF-5 Single-Family Residential District and are developed with single-family dwellings.

VICINITY MAP:

The applicant proposes to vacate a portion of the west 15 feet of a platted 30-foot front setback on Lot 4, Block 4, Benjamin Hills 2nd Addition (see attached Exhibit and Legal Description). If approved, this will allow the applicant to construct a garage addition on the north side of the existing two-car garage. The proposed garage addition would encroach into the existing setback on the west by a maximum of 15 feet. Lot 4 was created with a curved frontage along North Richmond Avenue. Had it been a standard rectangular lot, the west side setback would be considered the street side setback. At the location the vacation is requested, the property line is not curved and functionally is a street-side. In the SF-5 District, a 30-foot setback is greater than the 25-foot front zoning setback. The zoning street-side setback in the SF-5 District is 15. The requested reduction matches the street-side setback in the SF-5 District.

Wichita Public Works and Utilities, Wichita Traffic Engineering, and Wichita Fire Department do not object to the vacation of the portion of the platted setback. Traffic Engineering indicated that if approved, the proposed garage would not pose any sight obstructions along the curve. Comments from franchised utilities have been received. Cox has no objection to this vacation request. Any relocation of Cox lines or equipment would be at the applicant's expense. Every commented that they do not have any objection. There are no lines or equipment in the setback area. However, they do have lines along the north side of the lot. The proposed garage will have to maintain property clearance from these overhead lines. These clearance standards are attached. Eric O'Donnell is the Area Design Representative and can be contacted at 316-261-6359 with questions about this case. The Benjamin Hills 2nd Addition was recorded on November 9, 1953.

When determining a recommendation to be made to the Metropolitan Area Planning Commission (MAPC), the Subdivision and Utility Advisory Committee should consider the legal findings that are required to be made by the MAPC and Governing Body in order to grant the request. These findings are detailed in the subsequent MAPC report. In particular, the Committee should consider whether any private rights will be injured or endangered by recommending approval of the vacation request, and whether or not the public will suffer any loss or inconvenience thereby.

Based upon information available prior to the public hearing and reserving the right to make recommendations based on subsequent comments from City Traffic, Public Works/Water & Sewer/Stormwater, Fire, franchised utility representatives and other interested parties, Planning Staff has listed the following considerations (but not limited to) associated with the request to vacate the described portion of the platted building setback.

- A. That after being duly and fully informed as to fully understand the true nature of this petition and the propriety of granting the same, the MAPC makes the following findings:
 1. That due and legal notice has been given by publication as required by law, in the Wichita Eagle, of notice of this vacation proceeding one time December 19, 2024, which was at least 20 days prior to this public hearing.
 2. That no private rights will be injured or endangered by vacating the described portion of the platted building setback and that the public will suffer no loss or inconvenience thereby.
 3. In justice to the petitioner, the prayer of the petition ought to be granted.

Conditions (but not limited to) associated with the request:

- (1) Abandonment or relocation/reconstruction of any/all utilities made necessary by the vacation of the described portion of a wall easement and utility easement shall be to City Standards and shall be the responsibility and at the expense of the applicant. As needed provide approval from franchised utilities for the relocation of franchised utilities. All to be provided to the Planning Department prior to this case going to City Council for final action.

- (2) As needed provide Planning with dedication of easements by separate instruments with original signatures to go with the Vacation Order to City Council for final action and subsequent recording with the Vacation Order at the Register of Deeds. All to be provided to the Planning Department prior to this case going to City Council for final action.
- (3) All improvements shall be according to City Standards and at the applicants' expense.
- (4) Per MAPC Policy Statement #7, all conditions are to be completed within one year of approval by the MAPC or the vacation request will be considered null and void. All vacation requests are not complete until the Wichita City Council or the Sedgwick County Board of County Commissioners have taken final action on the request and the vacation order and all required documents have been provided to the City, County and/or franchised utilities and the necessary documents have been recorded with the Register of Deeds.

SUBDIVISION COMMITTEE'S RECOMMENDED ACTION

The Subdivision Committee recommends approval per staff recommendations.
