**STAFF REPORT**

**CASE NUMBER:** VAC2025-00010 - Request to vacate a portion of a platted utility easement.

**OWNER/APPLICANT:** Carlos Estrada (Applicant)

**LEGAL DESCRIPTION:** Vacating the North 14 feet of the South 22 feet of Lot 11, Block D, Planeview Subdivision No. 1, Wichita, Sedgwick County, Kansas; EXCEPT the West 16 feet of said Lot 11, and EXCEPT the East 18 feet of said Lot 11.

**LOCATION:** Generally located within one-block west of South George Washington Blvd. and within one-block south of East Pawnee Avenue (4104 E. Cessna). (WCC III).

**REASON FOR REQUEST:** To allow construction of a garage.

**CURRENT ZONING:** The subject site and all surrounding properties west of South George Washington Boulevard are zoned MF-29 Multi-Family Residential District and developed with a mixture of single-family and multi-family dwellings.

**VICINITY MAP:**

The applicant proposes to vacate a portion of a platted utility easement on Lot 11, Block D, Planeview Subdivision No. 1 in order to build a garage. The subject site is zoned MF-29 Multi-Family Residential District (MF-29) and located within one-block west of South George Washington Boulevard and within one-block south of East Pawnee Avenue (4104 E. Cessna). The Planeview Subdivision No. 1 was recorded on August 29, 1955.

If approved, it would allow construction of a garage eight feet north of the south property line, which exceeds the minimum six feet required for an interior side setback required in the MF-29 District. However, the garage would only be 16 feet from the front property line. The MF-29 District requires a 25-foot front building setback for all structures on the front half of the property. The existing dwelling appears to be a non-conforming structure to the setback. The Unified Zoning Code (UZC) does not allow new construction to increase the degree of non-conformity. New structures must meet minimum development standards or submit an application to request those standards to be reduced for the new structure. The applicant may be able to achieve the desired reduction through an Administrative Adjustment to establish a new front setback based on setback averaging of nearby properties. If the setback averaging cannot provide the necessary reduction, a Variance may need to be requested. Either one of these options would need to be approved prior to the issuance of building permits.

There are no public utilities in the subject portion of the easement. Wichita Public Works, Fire, Stormwater, and Traffic Engineering do not object to the request. Comments from franchised utilities have been received. Neither Cox, Evergy, nor Kansas Gas have any lines or equipment in the vacation area and do not object to the request.

When determining a recommendation to be made to the Metropolitan Area Planning Commission (MAPC), the Subdivision and Utility Advisory Committee should consider the legal findings that are required to be made by the MAPC and Governing Body in order to grant the request. These findings are detailed in the subsequent MAPC report. *In particular, the Committee should consider whether any private rights will be injured or endangered by recommending approval of the vacation request, and whether or not the public will suffer any loss or inconvenience thereby.*

Based upon information available prior to the public hearing and reserving the right to make recommendations based on subsequent comments from City Traffic, Public Works/Water & Sewer/Stormwater, Fire, franchised utility representatives and other interested parties, Planning Staff has listed the following considerations (but not limited to) associated with the request to vacate the described portion of the platted easement.

- A. That after being duly and fully informed as to fully understand the true nature of this petition and the propriety of granting the same, the MAPC makes the following findings:
  1. That due and legal notice has been given by publication as required by law, in the Wichita Eagle, of notice of this vacation proceeding one time April 3, 2025, which was at least 20 days prior to this public hearing.
  2. That no private rights will be injured or endangered by vacating the described portion of the platted utility easement and that the public will suffer no loss or inconvenience thereby.
  3. In justice to the petitioner, the prayer of the petition ought to be granted.

Conditions (but not limited to) associated with the request:

- (1) Abandonment or relocation/reconstruction of any/all utilities made necessary by the vacation of the described utility easement shall be to City Standards and shall be the responsibility and at the expense of the applicant. As needed provide approval from franchised utilities for the relocation of franchised

utilities. All to be provided to the Planning Department prior to this case going to City Council for final action.

- (2) All improvements shall be according to City Standards and at the applicants' expense.
- (3) Provide Planning with a legal description of the vacated portion of the platted utility easement on a Word document via E-mail that can be used on the Vacation Order. This must be provided to the Planning Department prior to this case going to City Council for final action.
- (4) Per MAPC Policy Statement #7, all conditions are to be completed within one year of approval by the MAPC or the vacation request will be considered null and void. All vacation requests are not complete until the Wichita City Council or the Sedgwick County Board of County Commissioners have taken final action on the request and the vacation order and all required documents have been provided to the City, County and/or franchised utilities and the necessary documents have been recorded with the Register of Deeds.
