RE: CON2001-00007 – Conditional Use to permit ancillary parking on property zoned “B” Multi-Family and located north of 11th Street North and west of Wellington Place.

Dear Mr. Icard:

The Metropolitan Area Planning Department is reviewing old files with conditions of approval remaining to be met. The above-reference Conditional Use request was approved by the Metropolitan Area Planning Commission on February 22, 2001, subject to a number of conditions.

As was indicated to you in the enclosed letter dated March 16, 2001, one of these conditions required the submittal of a revised site plan. Our records indicate that the revised site plan has not been submitted. Since no activity has occurred on this case in over a year, you have 30 days to submit the revised site plan, or the case will be denied and closed.

Sincerely,

Scott Knebel
Senior Planner
Current Plans Division
