Re: CON2001-00010 – Administrative Permit for a temporary 106-foot high wireless communication facility on property zoned “LI” Limited Industrial. Generally located south of Pawnee and east of St. Francis (2550 S. St. Francis) on Lot 7, Sager Addition.

Dear Mr. Kruse:

We have reviewed your request for an extension of the Administrative Permit granted on February 12, 2001 for a temporary 106-foot high wireless communication facility to be placed on the aforementioned property. The Administrative Permit granted on February 12, 2001 stated, “the temporary wireless communication facility approved for placement on the site is a 106-foot high cellular on wheels, which shall be removed from the site no later than July 1, 2001.”

Your letter of May 30, 2001 indicates that the temporary “cellular on wheels” (C.O.W.) is needed for Cricket Communications to provide uninterrupted wireless phone coverage in the area until a permanent wireless communication facility is approved and constructed. You estimate it will take until December 31, 2001 before a permanent wireless communication facility can be operational.

Our signatures below indicate that Administrative Permit CON2001-00010 for a temporary 106-foot high wireless communication facility on the aforementioned property is hereby extended to December 31, 2001, subject to the conditions stated in the approval letter dated February 12, 2001.

Marvin S. Krout
