RE: SCZ-0532 - "R-1" to "AA". South of Harry and west of 143rd Street East.

Dear Mr. Lusk:

I spoke with you on the telephone several months ago regarding the above-referenced zone case and the fact that the platting time for that zone change had expired. You will remember that the County Commission approved the zone change on June 13, 1984, subject to the property being platted within one year or the case be considered denied and closed. A plat has been submitted on a portion of the property but has not been completed.

We must close the zone case file unless you can receive approval of an extension of the platting time from the County Commission in the very near future. If we have not heard from you by January 16, 1987, or have not received a copy of a letter to the County Commission requesting an extension, the zone case file will be marked "denied and closed - failure to plat". The plat file may be kept open but the layout would have to change to provide 20,000 square-foot lots as required in the "R-1" district.

If you have any questions about this matter, please call me at 268-4421.

Sincerely,

Louise Olivarez  
Senior Planner
