Agenda Report # _____

TO: Mayor and City Council Members

SUBJECT: SCZ-0734 - REQUEST FOR ZONE CHANGE FROM
"SF-20" SINGLE-FAMILY RESIDENTIAL TO "LI"
LIMITED INDUSTRIAL, LOCATED AT THE
SOUTHWEST CORNER OF 29TH STREET NORTH AND
GREENWICH (District 2)

INITIATED BY: Metropolitan Area Planning Department

Knout (w)

AGENDA ACTION: Consent

MAPC and County Commission Recommendation:

Approve, subject to platting within 1 year and additional provisions of a Protective Overlay district

Staff Recommendation: Approve, subject to platting within 1 year and additional provisions of a Protective Overlay district.

Background: The applicant requests a zone change from "SF-20" Single-Family Residential to "LI" Limited Industrial for a 158.1 acre unplatted tract located on the west side of Greenwich between 29th Street North and the K-96 Expressway. The applicant proposes to develop an industrial park that may include office-warehouse uses, as well as a soccer complex development to be located in an area at the northwest corner of the application site. There was no site plan submitted as part of this application.

The subject property is currently undeveloped and used for agricultural purposes. Surrounding property to the north and east are largely undeveloped and used for agricultural and residential uses. Jabara Airport is located to the northwest of the application site on property zoned "LI". There is a triangular piece of property zoned "SF-6" adjacent to the west. The Greenwich Business Park is located to the south of K-96 on property recently zoned "LI".

The Unified Zoning Code includes CUPs as a development *option* for developments of this size in the "LI" zoning district. The Code also includes a new zoning district, the Industrial Park District, that is intended to accommodate limited commercial services, research and development, administrative facilities, and industrial and manufacturing

uses, in a more campus-like setting. The applicants indicated that this district would be too limiting because portions of the site may have potential for retail, hotel, funeral home, or medical service uses.

During the Planning Commission's discussion of this matter on February 13, 1997, the agent for the applicant discussed the proposed industrial park and soccer complex developments, and stated they were in agreement with the staff recommendations. Two property owners spoke against the request, stating there was an abundance of industrial zoning in the area. The opponents also questioned why this site was not required to be developed under a Community Unit Plan. Staff commented that the zoning code does not require an application for industrial zoning to be submitted as a CUP, but that the recommended Protective Overlay should address development concerns in a similar manner. After discussion, the MAPC voted (7-4) to approve the request with the additional provisions of a Protective Overlay as recommended by staff.

The Board of County Commissioners subsequently approved the zone change, subject to platting. The property has since been annexed into the City of Wichita. The applicants were granted a platting extension in April, 1999. The plat was filed February 29, 2000 after approval by the MAPC and finally by the City Council in February, 2000. On December 21, 1999 the applicant was granted an Administrative Adjustment to the Protective Overlay. The Ordinance before the council reflects these changes.

Recommended Action:

Place the ordinance establishing the zone change and Protective Overlay on first reading.
