Agenda Report # _____

TO: Mayor and City Council Members

SUBJECT: SCZ-0767 - UNITED METHODIST CHURCH BOARD OF TRUSTEES, CHAPEL HILL (OWNER) AND PEC C/O ROB HARTMAN (AGENT) REQUEST ZONE CHANGE FROM "SF-6" SINGLE-FAMILY TO "TF-3" TWO-FAMILY DISTRICT, LOCATED NORTH OF 13TH STREET NORTH AND WEST OF K-96. (DISTRICT #2)

INITIATED BY: Metropolitan Area Planning Department

AGENDA ACTION: Planning

MAPC Recommendation: Approve, subject to platting within 1 year (9-0).

Staff Recommendation: Approve, subject to platting within 1 year.

CPO Recommendation: Approve, subject to MAPC staff recommendations (5-1).

Background: The applicant is requesting to rezone a piece of property from "SF-6" Single-family to the "TF-3" Two-family district. The application area (2.4 acres) is located north of 13th Street North and west of K-96. The applicant is proposing to construct duplexes on this piece of land as part of a larger church and residential use development. This area was annexed by the City of Wichita in July, and the zoning was automatically converted from "SF-20" to "SF-6" in the process.

The applicants currently own land which is abutted on the north by the railroad, to the east by K-96; to the south and the west are the proposed single-family homes which are part of this development. The applicants have submitted a sketch plat which shows a church (26.9 acres) located just north of 13th Street North. Farther to the north is located a proposed ballfield and a lake. Single-family homes (47 lots and 11.1 acres) are proposed to the north and west of the lake, while the duplexes (6 lots) will be located just east of these single-family homes adjacent to K-96.

The applicant has stated that a developer will develop these single-family homes and duplexes, and then most of the homes will be sold to members of the church.

The proposed rezoning is approximately 3/4 mile northeast of Raytheon's recently extended runway, and is located within the County's Airport Hazard Zoning Ordinance. The Airport Hazard map depicts this area as an Area B location, which requires special review of developments over 75 feet in height to assure there is not an obstruction to air navigation. There is no zoning overlay established in this area to restrict uses or densities as there is for the runway approach areas near McConnell AFB. Raytheon's flight pattern tends to be easterly in order to avoid Jabara traffic, with some planes apparently flying directly over this property.

CPO 2 heard this case on August 10th and approved the request 5-1. The CPO member who voted against this request felt that there was short notice provided due to the recent annexation, and the case should be deferred and not rushed through.

At the September 10th MAPC hearing, the applicant's agent discussed the proposal. No members of the public were present to speak in opposition to the request. After limited discussion, the MAPC approved the request unanimously.

Recommendation:

1. Concur with the findings of the MAPC and approve the zone change, subject to the condition of platting; instruct the Planning Department to forward the ordinance for first reading when the plat is forwarded to the City Council; or
2. Return the application to the MAPC for reconsideration.

(An override of the Planning Commission's recommendation requires a 2/3rd majority vote of the membership of the governing body on the first hearing.)
