RECOMMENDATION FROM METROPOLITAN AREA PLANNING COMMISSION
TO BOARD OF COUNTY COMMISSIONERS

PROPOSED AGENDA ITEMS : SCZ-0757 - Zone change from "SF-20" Single-Family Residential to "LI" Limited Industrial, located on the northeast corner of Webb Road and Mellor.

PRESENTED BY: Marvin S. Krout, Director of Planning

PROPOSED AGENDA DATE: December 31, 1997

COMMISSION DISTRICT #1

MAPC Recommendation: Approve, subject to replatting within 1 year and to the additional provisions of a Protective Overlay (P-O) District (10-1).

Staff Recommendation: Approve, subject to replatting within 1 year and to the additional provisions of a Protective Overlay (P-O) District.

Background/Discussion: The applicants request a zone change from "SF-20" Single-Family Residential to "LI" Limited Industrial for a 2.25 acre platted tract located at the northeast corner of Webb Road and Mellor. The applicant is seeking the zone change in order to expand the existing industrial and commercial zoning pattern south of this site.

The northwest portion of the subject property is currently developed with a single-family residence, with another single-family residence on the northeast portion of the block. The majority of the site is vacant with a large number of existing trees on the subject property, as well as on the property to the south. The area adjacent to the south is undeveloped and zoned both "GC" General Commercial and "LI" Limited Industrial, with Raytheon Aircraft's industrial complex located further to the south on property zoned "LI". Areas across Webb to the west are developed with professional offices and the Minneha School on land zoned "LC" and "SF-20". Areas to the north and east, across Van Thaden, remain zoned "SF-20" and are developed with residential uses.

A concept plan (copy attached) submitted with the application shows the entire ownership north and south of Mellor. The plan shows an assembly/warehouse use and an office use within the application area, with two medical office buildings and a bank on the south parcel. Access to the application site is shown from Von Thaden, Webb Road, and Mellor. The southern site shows one access point to Webb Road, two to Mellor, and one joint opening to Central.

Accompanying the request, the applicants also submitted a voluntary Protective Overlay that limits the number of uses for the site, provides architectural conditions, additional landscaping and screening, height limits, and increased building setbacks. Approval of the zone change would require conformance with the screening requirements of the code, as shown on the plan and stated in the recommended Protective Overlay.

After limited discussion on the request during the December 4, 1997 MAPC meeting, the Planning Commission voted (10-1) to approve the request subject to the additional provisions of a protective overlay providing additional landscaping and screening requirements, sign control, use restrictions, development standards, and architectural conditions, as volunteered by the applicant and recommended by staff.

- Recommended Action:
1. Adopt the findings of fact of the Metropolitan Area Planning Commission and approve the zone change subject to the additional provisions of a Protective Overlay (P-O) district and subject to platting within 1-year; adopt the resolution and authorize the chairman to sign; and instruct the Planning Department to withhold publication until all conditions have been complied with; or
 2. Return to the Planning Commission for reconsideration.

(An override of the Planning Commission's recommendation requires a 2/3rd majority vote of the membership of the governing body on first hearing).
