RE: SUB 2002-78 -- One-Step Final Plat of The Broad Street Addition

At the regular meeting of the Metropolitan Area Planning Commission on August 22, 2002, the above captioned plat was considered. The action of the Planning Commission was to approve the plat as recommended by the Subdivision Committee, subject to the conditions stated in our letter dated August 16, 2002.

In addition to complying with those conditions, it is necessary that you meet the following requirements before this plat can be forwarded to the City Council and/or County Commission for consideration:

1. Submission of the fully completed and signed tracing of the subdivision, along with four (4) copies, to the Metropolitan Area Planning Department.
2. Submission of a check, made out to the Register of Deeds, covering the costs of any documents to be recorded as a requirement of platting.
3. Subdivision regulations now require a detailed Lot Grading Plan be submitted to Engineering prior to the tracing being released. This applies to all multi-lot, residential developments.
4. Submission of a disk to the Planning Department detailing the final plat in digital format in Autocad. This will be used by the City and County GIS Departments.

If you have any questions concerning this matter, please call.

A handwritten signature in cursive script that reads 'Neil Evan Strahl'.

RE: SUB 2002-78 -- One-Step Final Plat of The Broad Street Addition

At the regular meeting of the Subdivision Committee of the Metropolitan Area Planning Commission on Thursday, August 15, 2002, the above captioned plat was considered. The action of the Committee was to approve the preliminary plat and authorize preparation of the final plat, subject to the following:

STAFF COMMENTS:

- A. The applicant will be revising the boundaries of the plat so that it does not abut the City of Wichita.
- B. City Water and Sewer Department requests a petition for future extension of sanitary sewer and water services.
- C. If improvements are guaranteed by petition, a notarized certificate listing the petitions shall be submitted to the Planning Department for recording.
- D. County Engineering requests a drainage plan for review. A minimum pad elevation is needed. The drainage easement needs dimensions and should be shown as a floodway reserve.
- E. The County Surveyor notes that the width of the KGE easement needs to be denoted.
- F. The correct name for the railroad needs to be shown.
- G. A complete legend is needed.
- H. This property is within a zone identified by the City Engineers' office as likely to have groundwater at some or all times within 10 feet of the ground surface elevation. Building with specially engineered foundations or with the lowest floor opening above groundwater is recommended, and owners seeking building permits on this property will be similarly advised. More detailed information on recorded groundwater elevations in the vicinity of this property is available in the City Engineers' office.

- I. The applicant is reminded that this site is located within three miles of the City Limits of Wichita and will be heard by City Council. Therefore, the City Council signature block needs to be included on the final plat.
- J. The platting binder indicates a party holding a mortgage on the site. This party's name must be included as a signatory on the plat, or else documentation provided indicating that such mortgage has been released.
- K. The platator's text shall include language that a drainage plan has been developed for the plat and that all drainage easements, rights-of-way, or reserves shall remain at established grades or as modified with the approval of the applicable City or County Engineer, and unobstructed to allow for the conveyance of stormwater.
- L. The applicant shall install or guarantee the installation of all utilities and facilities which are applicable and described in Article 8 of the MAPC Subdivision Regulations. (Water service and fire hydrants required by Article 8 for fire protection shall be as per the direction and approval of the Chief of the Fire Department.)
- M. The applicant's engineer is advised that the Register of Deeds is requiring the name(s) of the notary public, who acknowledges the signatures on this plat, to be printed beneath the notary's signature.
- N. To receive mail delivery without delay, and to avoid unnecessary expense, the applicant is advised of the necessity to meet with the U.S. Postal Service Growth Management Coordinator (Phone 316-946-4556) prior to development of the plat so that the type of delivery, and the tentative mailbox locations can be determined.
- O. The applicant is advised that various State and Federal requirements (specifically but not limited to the Army Corps of Engineers, Kanopolis Project Office, Rt. 1, Box 317, Valley Center, KS 67147) for the control of soil and wind erosion and the protection of wetlands may impact how this site can be developed. It is the applicant's responsibility to contact all appropriate agencies to determine any such requirements.
- P. The owner of the subdivision should be aware of the fact that the development of any subdivision greater than five (5) acres in size may require an NPDES Storm Water Discharge Permit from the Kansas Department of Health and Environment in Topeka. Further, on all construction sites, the City of Wichita requires that best management practices be used to reduce pollutant loadings in storm water runoffs.
- Q. Perimeter closure computations shall be submitted with the final plat tracing.
- R. Recording of the plat within thirty (30) days after approval by the City Council and/or County Commission.
- S. The representatives from the utility companies should be prepared to comment on the need for any additional utility easements to be platted on this property. **Southwestern Bell has requested additional easements.**
- T. The applicant is reminded that a disk shall be submitted with the final plat tracing to the Planning Department detailing this plat in digital format in AutoCAD. This will be used by the City and County GIS Department.

If this plat requires the guaranteeing of improvements, a list of the five methods which have been adopted as being acceptable is available through the Planning Department. Certificates, which are required if petitions are submitted, and forms for the bond and Irrevocable Letter of Credit are also available from this office.

This case will be forwarded to the Planning Commission on Thursday, August 22, at 1:30 p.m.

The enclosed "marked" copy of the plat is for your information and files.

If you have any questions concerning this matter, please call.

SUB 2002-78 -- One-Step Final Plat of THE BROAD STREET ADDITION
August 22, 2002 - Page 2

NOTE: This unplatted site is located in the County adjoining Wichita's city limits and annexation is required. The site was approved in 1997 for a Conditional Use to allow rock crushing, the storage and recycling of concrete and asphalt, and the excavation of a borrow pit. The applicant proposes an equipment storage building which requires no municipal services.

Planning Staff recommends approval of the plat.

STAFF COMMENTS:

- A. **The applicant will be revising the boundaries of the plat so that it does not abut the City of Wichita.**
- B. **City Water and Sewer Department** requests a petition for future extension of sanitary sewer and water services.
- C. If improvements are guaranteed by petition, a notarized certificate listing the petitions shall be submitted to the Planning Department for recording.
- D. **County Engineering requests a drainage plan for review. A minimum pad elevation is needed. The drainage easement needs dimensions and should be shown as a floodway reserve.**
- E. The **County Surveyor** notes that the width of the KGE easement needs to be denoted.
- F. The correct name for the railroad needs to be shown.
- G. A complete legend is needed.
- H. This property is within a zone identified by the City Engineers' office as likely to have groundwater at some or all times within 10 feet of the ground surface elevation. Building with specially engineered foundations or with the lowest floor opening above groundwater is recommended, and owners seeking building permits on this property will be similarly advised. More detailed information on recorded groundwater elevations in the vicinity of this property is available in the City Engineers' office.
- I. The applicant is reminded that this site is located within three miles of the City Limits of Wichita and will be heard by City Council. Therefore, the City Council signature block needs to be included on the final plat.
- J. The platting binder indicates a party holding a mortgage on the site. This party's name must be included as a signatory on the plat, or else documentation provided indicating that such mortgage has been released.
- K. The plat's text shall include language that a drainage plan has been developed for the plat and that all drainage easements, rights-of-way, or reserves shall remain at established grades or as modified with the approval of the applicable City or County Engineer, and unobstructed to allow for the conveyance of stormwater.
- L. The applicant shall install or guarantee the installation of all utilities and facilities which are applicable and described in Article 8 of the MAPC Subdivision Regulations. (Water service and fire hydrants required by Article 8 for fire protection shall be as per the direction and approval of the Chief of the Fire Department.)
