We, Savoy, Ruggles & Bohm, P.A., Surveyors in aforesaid county and state do hereby certify that, under the supervision of the undersigned, we have surveyed and platted "TARA FALLS 2ND ADDITION", Wichita, Sedgwick County, Kansas and that the accompanying plat is a true and correct exhibit of the property surveyed, described as and being a replat of:

A portion of Reserve D, lying between Lots 29 and 30, Block A, Tara Falls Addition, Sedgwick County, Kansas, described as beginning at the S.W. Corner of said Lot 29; thence S89°41'46" E, 121.57 feet to the S.E. Corner of said Lot 29; thence S22°55'44" W, 91.81 feet to the N.E. Corner of said Lot 30; thence N89°41'46" W, 120.65 feet the N.W. Corner of said Lot 30; thence northerly, along the westerly line of said Reserve D, (being a curve, having a radius of 182 feet), 92.45 feet to the place of beginning.

All being situated in the W $\frac{1}{2}$ of the NE $\frac{1}{4}$ of Sec. 34, Twp. 27-S, R-2-E of the 6th P.M., Sedgwick County, Kansas.

All Public easements and dedications being vacated by virtue of K.S.A. 12-512(b).

Date 23 June 2000 Savoy, Ruggles & Bohm, P.A.
Surveyor
Mark A. Savoy RLS #788

Know all men by these presents that we, the undersigned, have caused the land described in the surveyors certificate to be platted into a Lot to be known as "TARA FALLS 2ND ADDITION", Wichita, Sedgwick County, Kansas. The utility easement is hereby granted as indicated for the construction and maintenance of all public utilities. The drainage and utility easement is hereby granted as indicated for drainage purposes and the construction and maintenance of all public utilities. A drainage plan has been developed for this plat and all drainage easements, rights-of-way, or reserves shall remain at established grades, or as modified with the approval of the City Engineer, and unobstructed to allow for the conveyance of stormwater. The Minimum Pad Elevation for lowest opening is as shown on the face of the plat.

RE: SUB 2000-29 -- One-Step Final Plat of TARA FALLS SECOND ADDITION

At the regular meeting of the Metropolitan Area Planning Commission on May 25, 2000, the above captioned plat was considered. The action of the Planning Commission was to recommend that the plat be approved as recommended by the Subdivision Committee subject to the conditions stated in our letter of May 19, 2000.

In addition to complying with those conditions, it is necessary that you meet the following requirements before this plat can be forwarded to the City Council and/or County Commission for consideration:

1. Submission of the fully completed and signed tracing of the subdivision, along with four (4) copies, to the Metropolitan Area Planning Department.
2. Submission of a check, made out to the Register of Deeds, covering the costs of any documents to be recorded as a requirement of platting.
3. Subdivision regulations now require a detailed Lot Grading Plan be submitted to Engineering prior to the tracing being released. This applies to all multi-lot, residential developments.
4. Submission of a disk to the Planning Department detailing the final plat in digital format in Autocad. This will be used by the City and County GIS Departments.

If you have any questions concerning this matter, please call.

Neil Evan Strahl, Senior Planner
Current Plans Division

RE: SUB 2000-29 -- One-Step Final Plat of TARA FALLS SECOND ADDITION

At the regular meeting of the Subdivision Committee of the Metropolitan Area Planning Commission on Thursday, May 18, 2000, the above captioned plat was considered. The action of the Committee was to approve the final plat, subject to:

STAFF COMMENTS:

- A. This site is located in the County's Four Mile Creek sewer system and will be served by the County. Existing petitions for sewer, water, paving and sidewalk improvements have been submitted with the Tara Falls Addition. County Engineering needs to comment on the need for any new guarantees or easements. A sanitary sewer layout is requested. New City and County petitions are required.
- B. On the final plat tracing, appropriate wording shall be added to the Mayor's signature block indicating the City's agreement to allow a County sewer district to be formed within the City.
- C. If improvements are guaranteed by petition, a notarized certificate listing the petitions shall be submitted to the Planning department for recording.
- D. City Engineering needs to comment on the status of the applicant's drainage plan. The drainage plan is approved.
- E. The applicant is reminded that a platting binder is required with the final plat. Approval of this plat will be subject to submittal of this binder and any relevant conditions found by such a review.
- F. The platlor's text shall include language that a drainage plan has been developed for the plat and that all drainage easements, rights-of-way, or reserves shall remain at established grades or as modified with the approval of the applicable City or County Engineer, and unobstructed to allow for the conveyance of stormwater.

City Hall • 10th Floor • 455 North Main • Wichita, Kansas 67202-1688

T 316.268.4421 F 316.268.4390

www.wichitagov.org

- G. The applicant shall install or guarantee the installation of all utilities and facilities which are applicable and described in Article 8 of the MAPC Subdivision Regulations. (Water service and fire hydrants required by Article 8 for fire protection shall be as per the direction and approval of the Chief of the Fire Department.)
- H. The applicant's engineer is advised that the Register of Deeds is requiring the name(s) of the notary public; who acknowledges the signatures on this plat, to be printed beneath the notary's signature.
- I. To receive mail delivery without delay, and to avoid unnecessary expense, the applicant is advised of the necessity to meet with the U.S. Postal Service Growth Management Coordinator (Phone 316-729-0102) prior to development of the plat so that the type of delivery, and the tentative mailbox locations can be determined.
- J. The applicant is advised that various State and Federal requirements (specifically but not limited to the Army Corps of Engineers, Kanopolis Project Office, Rt. 1, Box 317, Valley Center, KS 67147) for the control of soil and wind erosion and the protection of wetlands may impact how this site can be developed. It is the applicant's responsibility to contact all appropriate agencies to determine any such requirements.
- K. The owner of the subdivision should be aware of the fact that the development of any subdivision greater than five (5) acres in size may require an NPDES Storm Water Discharge Permit from the Kansas Department of Health and Environment in Topeka. Further, on all construction sites, the City of Wichita requires that best management practices be used to reduce pollutant loadings in storm water runoffs.
- L. Perimeter closure computations shall be submitted with the final plat tracing.
- M. Recording of the plat within thirty (30) days after approval by the City Council and/or County Commission.
- N. The representatives from the utility companies should be prepared to comment on the need for any additional utility easements to be platted on this property.
- O. The applicant is reminded that a disk shall be submitted with the final plat tracing to the Planning Department detailing this plat in digital format in AutoCAD. This will be used by the City and County GIS Department.

If this plat requires the guaranteeing of improvements a list of the five methods which have been adopted as being acceptable is available through the Planning Department. Also, certificates which are required if petitions are submitted and forms for the bond and irrevocable Letter of Credit are also available from this office.

The enclosed "marked" copy of the final plat is for your information and files.

This matter will be forwarded to the Planning Commission for its consideration on Thursday, May 25, 2000, at 1:00 p.m.
