RE: S/D 98-106 -- One-Step Final Plat of AYRES ADDITION

At the regular meeting of the Metropolitan Area Planning Commission on December 17, 1998, the above captioned plat was considered. The action of the Planning Commission was to recommend that the plat be approved as recommended by the Subdivision Committee subject to the conditions stated in our letter of December 9, 1998.

In addition to complying with those conditions, it is necessary that you meet the following requirements before this plat can be forwarded to the City Council and/or County Commission for consideration:

1. Submission of the fully completed and signed tracing of the subdivision, along with four (4) copies, to the Metropolitan Area Planning Department.
2. Submission of a check, made out to the Register of Deeds, covering the costs of any documents to be recorded as a requirement of platting.
3. Subdivision regulations now require a detailed Lot Grading Plan be submitted to Engineering prior to the tracing being released. This applies to all multi-lot and residential developments.
4. Submission of a disk to the Planning Department detailing the final plat in digital format in Release 13 Version of Autocad. This will be used by the City and County GIS Departments.

S/D 98-106-- One-Step Fi Plat of AYRES ADDITION
December 18, 1998

RE: S/D 98-106 -- One-Step Final Plat of AYRES ADDITION

At the regular meeting of the Subdivision Committee of the Metropolitan Area Planning Commission on Thursday, December 10, 1998, the above captioned plat was considered. The action of the Committee was to approve the final plat, subject to:

- A. Since neither municipal water nor sanitary sewer is available to serve this property, the applicant shall contact the Environmental Health Division of the Health Department to find out what tests may be necessary and what standards are to be met for approval of on-site sewerage facilities and water wells. A memorandum shall be obtained specifying approval. Standard soil testing is required
- B. If improvements are guaranteed by petition, a notarized certificate listing the petitions shall be submitted to the Planning department for recording.
- C. County Engineering needs to comment on the status of the applicant's drainage plan. The drainage plan is approved.
- D. On the final plat tracing, the Applicant intends to extend lot 4 to 295th Street for access.
- E. The final plat tracing shall indicate the dedication of access controls as the site adjoins a mile line road. County Engineering has limited the site to one access opening per lot.

- F. The Zoning regulations require a setback of 85 feet from the centerline of a section line road. A 35-foot setback will be needed.
- G. The platlor's text should reference that the contingent right-of-way shall become effective "upon the platting of any adjacent subdivision having a street connecting thereto".
- H. County Fire should be contacted regarding the designation of a street name for the contingent right-of-way. 
- I. The applicant shall install or guarantee the installation of all utilities and facilities which are applicable and described in Article 8 of the MAPC Subdivision Regulations. (Water service and fire hydrants required by Article 8 for fire protection shall be as per the direction and approval of the Chief of the Fire Department.)
- J. The applicant's engineer is advised that the Register of Deeds is requiring the name(s) of the notary public, who acknowledges the signatures on this plat, to be printed beneath the notary's signature.
- K. To receive mail delivery without delay, and to avoid unnecessary expense, the applicant is advised of the necessity to meet with the U.S. Postal Service Growth Management Coordinator (phone 316-729-0102) prior to development of the plat so that the type of delivery, and the tentative mailbox locations can be determined.
- L. The applicant is advised that various State and Federal requirements [specifically but not limited to the Army Corps of Engineers, Kanopolis Project Office, Rt. 1, Box 317, Valley Center, KS 67147] for the control of soil and wind erosion and the protection of wetlands may impact how this site can be developed. It is the applicant's responsibility to contact all appropriate agencies to determine any such requirements.
- M. The owner of the subdivision should be aware of the fact that the development of any subdivision greater than five (5) acres in size may require an NPDES Storm Water Discharge Permit from the Kansas Department of Health and Environment in Topeka. Further, on all construction sites, the City of Wichita requires that best management practices be used to reduce pollutant loadings in storm water runoffs.
- N. Perimeter closure computations shall be submitted with the final plat tracing.
- O. Recording of the plat within thirty (30) days after approval by the City Council and/or County Commission.

December 11, 1998

Page 3

- P. The representatives from the utility companies should be prepared to comment on the need for any additional utility easements to be platted on this property. *Southwestern Bell has requested additional easements.*
- Q. The applicant is reminded that a disk shall be submitted with the final plat tracing to the Planning Department detailing this plat in digital format in Release 13 version of Autocad. This will be used by the City and County GIS Department.

If this plat requires the guaranteeing of improvements a list of the five methods which have been adopted as being acceptable is available through the Planning Department. Also, certificates which are required if petitions are submitted and forms for the bond and irrevocable Letter of Credit are also available from this office.

The enclosed "marked" copy of the final plat is for your information and files.

This matter will be forwarded to the Planning Commission for its consideration on Thursday, December 17, 1998, at 1:30 p.m.

If you have any questions concerning this matter, please call.

Sincerely,

Neil Evan Strahl, AICP
Senior Planner, Current Plans Division

STAFF REPORT
(One-Step Final Plat Approved 12/10/98)

CASE NUMBER: S/D 98-106 - AYRES ADDITION

OWNER/APPLICANT: Everett Ayres, 8640 S. 263rd St. West, Viola, KS 67149

SURVEYOR/ENGINEER: Terra Tech Land Surveying, Inc., Attn: Michele Goodrich, 239 N. Ohio, Wichita, KS 67214

LOCATION: North of 47th St. South, on the East side of 295th St. West

SITE SIZE: 21.7 acres

NUMBER OF LOTS

Residential:	4
Office:	
Commercial:	
Industrial:	
Total:	<u>4</u>

MINIMUM LOT AREA: 4.6 acres

CURRENT ZONING: RR, Rural Residential

PROPOSED ZONING: Same

VICINITY MAP

Note: This site is located in the County in an area designated as "agricultural" by the Wichita-Sedgwick County Comprehensive Plan. Lot developments of this type are contrary to the intent of the Comprehensive Plan; however, the MAPC and County Commission have chosen not to create an Agricultural Zoning District to protect against this type of development.

STAFF COMMENTS:

- A. Since neither municipal water nor sanitary sewer is available to serve this property, the applicant shall contact the Environmental Health Division of the Health Department to find out what tests may be necessary and what standards are to be met for approval of on-site sewerage facilities and water wells. A memorandum shall be obtained specifying approval. Standard soil testing is required
- B. If improvements are guaranteed by petition, a notarized certificate listing the petitions shall be submitted to the Planning department for recording.
- C. County Engineering needs to comment on the status of the applicant's drainage plan. The drainage plan is approved.
- D. On the final plat tracing, the Applicant intends to extend lot 4 to 295th Street for access.
- E. The final plat tracing shall indicate the dedication of access controls as the site adjoins a mile line road. County Engineering has limited the site to one access opening per lot.
- F. The Zoning regulations require a setback of 85 feet from the centerline of a section line road. A 35-foot setback will be needed.
- G. The platlor's text should reference that the contingent right-of-way shall become effective "upon the platting of any adjacent subdivision having a street connecting thereto".
- H. County Fire should be contacted regarding the designation of a street name for the contingent right-of-way.
- I. The applicant shall install or guarantee the installation of all utilities and facilities which are applicable and described in Article 8 of the MAPC Subdivision Regulations. (Water service and fire hydrants required by Article

8 for fire protection shall be as per the direction and approval of the Chief of the Fire Department.)

- J. The applicant's engineer is advised that the Register of Deeds is requiring the name(s) of the notary public, who acknowledges the signatures on this plat, to be printed beneath the notary's signature.
