WICHITA, SEDGWICK COUNTY, KANSAS

We, Savoy, Ruggles & Bohm, P.A., Surveyors in aforesaid county and state do hereby certify that, under the supervision of the undersigned, we have surveyed and platted "WINTERSET PLAZA", Wichita, Sedgwick County, Kansas and that the accompanying plat is a true and correct exhibit of the property surveyed, described as follows:

Part of Lot 1, Block 5, Farmington Square 2nd Addition, Wichita, Sedgwick County Kansas, described as commencing at the N.W. corner of said Lot; thence south along the west line of said Lot, 175 feet; thence east parallel with the north line of said Lot, 35 feet; thence north at right angles, 5 feet; thence east parallel with the north line of said Lot, 108.35 feet; thence south at right angles, 170.61 feet for a place of beginning; thence west parallel with the north line of said Lot, 108.84 feet to the west line of said Lot; thence southerly along the west line of said Lot to the southernmost corner of said Lot; thence northerly along the east line of said Lot, 284.89 feet to a point east of the place of beginning; thence west parallel with the north line of said Lot, 92.25 feet to the place of beginning.

All Public easements and dedications being vacated by virtue of K.S.A. 12-512(b).

Savoy, Ruggles & Bohm, P.A.

Date 6 Aug 98  Mark A. Savoy Surveyor #788

Know all men by these presents that we, the undersigned have caused the land described in the surveyor's certificate to be platted into a Lot to be known as "WINTERSET PLAZA", Wichita, Sedgwick County, Kansas. The utility easements are hereby granted as indicated for the construction and maintenance of all public utilities.

Re: S/D 94-22 -- Revised One-Step Final Plat of WINTERSET PLAZA ADDITION

Gentlemen:

At the regular meeting of the Metropolitan Area Planning Commission on July 16, 1998, the above captioned plat was considered. The action of the Planning Commission was to recommend that the plat be approved as recommended by the Subdivision Committee subject to the conditions stated in our letter of July 10, 1998.

In addition to complying with those conditions, it is necessary that you meet the following requirements before this plat can be forwarded to the City Council and/or County Commission for consideration:

1. Submission of the fully completed and signed tracing of the subdivision, along with five (5) copies, to the Metropolitan Area Planning Department.
2. Submission of a check, made out to the Register of Deeds, covering the costs of any documents to be recorded as a requirement of platting.
3. Subdivision regulations now require a detailed Lot Grading Plan be submitted to Engineering prior to the tracing being released. This applies to all multi-lot and residential developments.
4. Submission of a disk to the Planning Department detailing this plat. This will be used by the City and County GIS Departments.

S/D 94-22 - Revised One-Step Final Plat of WINTERSET PLAZA

Gentlemen:

At the regular meeting of the Subdivision Committee of the Metropolitan Area Planning Commission on Thursday, July 9, 1998, the above captioned plat was considered. The action of the Committee was to approve the final plat, subject to the following:

- A. Existing municipal services appear to be available to serve this site. City Engineering needs to verify if any other additional guarantees are required. No guarantees are required.
- B. If improvements are guaranteed by petition, a notarized certificate listing the petitions shall be submitted to the Planning department for recording.
- C. City Engineering needs to comment on the status of the applicant's drainage plan. The drainage plan is approved. Drainage improvements will be required at the time of site development.
- D. As the site is adjacent to the floodway, City Engineering needs to comment if any floodway or drainage easements need to be platted.
- E. In accordance with the Sidewalk ordinance, a sidewalk certificate shall be submitted.
- F. The final plat shall reference a tie point to a section corner and its distance from the plat.
- G. The applicant shall submit an avigational easement covering all of the subject

plat and a restrictive covenant assuring that adequate construction methods will be used to minimize the effects of noise pollution in the habitable structures constructed on subject property.

- H. The applicant needs to revise the legal description to accurately portray the land being platted. The distances on the drawing for the north and east lines of the plat are not identical to those in the legal description.
- I. The applicant shall install or guarantee the installation of all utilities and facilities which are applicable and described in Article 8 of the MAPC Subdivision Regulations. (Water service and fire hydrants required by Article 8 for fire protection shall be as per the direction and approval of the Chief of the Fire Department.)
- J. The applicant's engineer is advised that the Register of Deeds is requiring the name(s) of the notary public, who acknowledges the signatures on this plat, to be printed beneath the notary's signature.
- K. To receive mail delivery without delay, and to avoid unnecessary expense, the applicant is advised of the necessity to meet with the U.S. Postal Service Growth Management Coordinator (phone 316-729-0102) prior to development of the plat so that the type of delivery, and the tentative mailbox locations can be determined.
- L. The applicant is advised that various State and Federal requirements [specifically but not limited to the Army Corps of Engineers, Kanopolis Project Office, Rt. 1, Box 317, Valley Center, KS 67147] for the control of soil and wind erosion and the protection of wetlands may impact how this site can be developed. It is the applicant's responsibility to contact all appropriate agencies to determine any such requirements.
- M. The owner of the subdivision should be aware of the fact that the development of any subdivision greater than five (5) acres in size may require an NPDES Storm Water Discharge Permit from the Kansas Department of Health and Environment in Topeka. Further, on all construction sites, the City of Wichita requires that best management practices be used to reduce pollutant loadings in storm water runoffs.
- N. Perimeter closure computations shall be submitted with the final plat tracing.
- O. Recording of the plat within thirty (30) days after approval by the City Council and/or County Commission.

- P. The representatives from the utility companies should be prepared to comment on the need for any additional utility easements to be platted on this property. **KG&E has requested additional easements.**
- Q. The applicant is reminded that a disk shall be submitted with the final plat tracing to the Planning Department detailing this plat. This will be used by the City and County GIS Department.

If this plat requires the guaranteeing of improvements, a list of the five methods which have been adopted as being acceptable is available through the Planning Department. Also certificates, which are required if petitions are submitted and forms for the bond and irrevocable Letter of Credit, are also available from this office.

The enclosed "marked" copy of the plat is for your information and files.

This matter will be forwarded to the Planning Commission for its consideration on Thursday, July 16, 1998, at 1:30 p.m. If you have any questions concerning this matter, please call.

Sincerely,

Neil Evan Strahl, AICP
Senior Planner, Current Plans Division
