Re: S/D 98-24 -- One-Step Final Plat of WILSON RETIREMENT ADDITION

Gentlemen:

At the regular meeting of the Metropolitan Area Planning Commission on March 26, 1998, the above captioned plat was considered. The action of the Planning Commission was to recommend that the plat be approved as recommended by the Subdivision Committee subject to the conditions stated in our letter of March 20, 1998.

In addition to complying with those conditions, it is necessary that you meet the following requirements before this plat can be forwarded to the City Council and/or County Commission for consideration:

1. Submission of the fully completed and signed tracing of the subdivision, along with five (5) copies, to the Metropolitan Area Planning Department.
2. Submission of a check, made out to the Register of Deeds, covering the costs of any documents to be recorded as a requirement of platting.
3. Subdivision regulations now require a detailed Lot Grading Plan be submitted to Engineering prior to the tracing being released. This applies to all multi-lot and residential developments.
4. Submission of a disk to the Planning Department detailing this plat. This will be used by the City and County GIS Departments.

Re: S/D 98-24 -- One-Step Final Plat of WILSON RETIREMENT ADDITION

Gentlemen:

At the regular meeting of the Subdivision Committee of the Metropolitan Area Planning Commission on Thursday, March 19, 1998, the above captioned plat was considered. The action of the Committee was to approve the final plat, subject to the following:

- A. This plat is subject to approval of the associated zone change (Z-3178) and any relevant conditions of such a zone change.
- B. Existing municipal services appear to be available to this site. City Engineering needs to indicate if any guarantees are required. A guarantee for extension for sanitary sewer is required. An off-site drainage agreement is required. A guarantee for the extension of city water is required.
- C. If improvements are guaranteed by petition, a notarized certificate listing the petitions shall be submitted to the Planning department for recording.
- D. City Engineering needs to comment on the status of the applicant's drainage plan. The CUP required that a master drainage plan be submitted and approved with the plat for the entire development area encompassing the commercial and residential CUPs.
- E. The plat indicates access control except for one opening along 21st Street North in accordance with the approved CUP.
- F. The site is within the noise impact area of the McConnell AFB and the applicant shall submit an avigational easement covering all of the subject plat along with a restrictive covenant assuring that adequate construction methods will be used to minimize the effects of noise pollution in the habitable structures constructed on subject property.

- G. The applicant is reminded that in accordance with the CUP, a 40-ft landscape buffer is required along 21st St. North.
- H. The CUP required a guarantee be provided at the time of platting for a left turn lane for west bound 21st St. traffic and a decel lane for east bound 21st St. traffic at the collector street access to the west of this plat. Traffic Engineering should also comment on the need for the dedication of any additional right-of-way for 21st Street North to accommodate these additional traffic lanes. Applicant will meet with Traffic Engineering to resolve this issue prior to the MAPC meeting. *No add'l ROW needed*
- I. A CUP Certificate shall be submitted to MAPD for recording with the Register of Deeds prior to City Council consideration, identifying the approved CUP (referenced as DP-201 Amendment #1) and its special conditions for development on this property.
- J. The applicant shall install or guarantee the installation of all utilities and facilities which are applicable and described in Article 8 of the MAPC Subdivision Regulations. (Water service and fire hydrants required by Article 8 for fire protection shall be as per the direction and approval of the Chief of the Fire Department.)
- K. The applicant's engineer is advised that the Register of Deeds is requiring the name(s) of the notary public, who acknowledges the signatures on this plat, to be printed beneath the notary's signature.
- L. To receive mail delivery without delay, and to avoid unnecessary expense, the applicant is advised of the necessity to meet with the U.S. Postal Service Growth Management Coordinator (phone 316-729-0102) prior to development of the plat so that the type of delivery, and the tentative mailbox locations can be determined.
- M. The applicant is advised that various State and Federal requirements [specifically but not limited to the Army Corps of Engineers, Kanopolis Project Office, Rt. 1, Box 317, Valley Center, KS 67147] for the control of soil and wind erosion and the protection of wetlands may impact how this site can be developed. It is the applicant's responsibility to contact all appropriate agencies to determine any such requirements.
- N. Perimeter closure computations shall be submitted with the final plat tracing.
- O. Recording of the plat within thirty (30) days after approval by the City Council and/or County Commission.
- P. The representatives from the utility companies should be prepared to comment on the need for any additional utility easements to be platted on this property. Southwestern Bell requests additional utilities.

S/D 98-24 -- One-Step Final Plat of WILSON RETIREMENT ADDITION
March 20, 1998 - Page 3

Q. The applicant is reminded that a disk shall be submitted with the final plat tracing to the Planning Department detailing this plat. This will be used by the City and County GIS Department.

If this plat requires the guaranteeing of improvements, a list of the five methods which have been adopted as being acceptable is available through the Planning Department. Also certificates, which are required if petitions are submitted and forms for the bond and irrevocable Letter of Credit, are also available from this office.

The enclosed "marked" copy of the plat is for your information and files.

This matter will be forwarded to the Planning Commission for its consideration on Thursday, March 26, 1998, at 1:30 p.m. If you have any questions concerning this matter, please call.

Sincerely,

Neil Evan Strahl, AICP
Senior Planner, Current Plans Division
