**Re: BZA2014-52: City Administrative Adjustment to reduce the east interior side yard setback of the Compatibility Standards for "GO" – General Office zoning adjacent to "SF-5" – Single-family Residential zoning.**

**Legal Description: LOT 13, BLOCK 2, COTTONWOOD VILLAGE 6<sup>TH</sup> ADDITION, Wichita, Sedgwick County, Kansas. The property is generally located at East 29<sup>th</sup> Street North and Gouverneur Street (7230 E. 29<sup>th</sup> St. N.)**

Dear Applicant,

We reviewed your request for an Administrative Adjustment to reduce the Compatibility Standards for the east interior side setback from 25-feet to 18-feet. We understand that you have requested the interior side yard setback be reduced to build a new tenant building in front of the existing structures on the aforementioned property. There is an existing 6-foot wood fence separating the GO and SF-5 zoning and a new Red Maple tree will be planted between the new building and the fence.

Section V-I.2.d of the Unified Zoning Code allows an Administrative Adjustment to reduce or waive the required Compatibility Setback. We find that reducing the interior side yard setback to 18-feet as proposed, meets the four criteria required by Section V-1.6 as set out below:

- 1) **Impact on safety and convenience of vehicular and pedestrian circulation:** The location of the new tenant building should have no impact on the safety and convenience of vehicular and pedestrian circulation in the vicinity as right-of-way and driveways are not affected.
- 2) **Impact on existing uses in surrounding areas:** There will be no impact on the existing uses in surrounding areas as a result of the new tenant building in front of the existing structures; landscape buffering will be maintained between the properties to the east and street visibility will not be affected.

City Hall • 10th Floor • 455 North Main • Wichita, Kansas 67202-1688

T 316.268.4421 F 316.268.4390

[www.wichita.gov](http://www.wichita.gov)

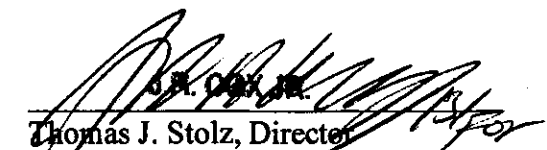

- 3) Compatibility with existing or permitted uses on abutting sites: The compatibility setback reduction for the new tenant building in front of the existing structures with the additional landscape buffering between the properties to the east, will be compatible with existing and permitted uses on abutting SF-5 zoned sites.
- 4) Effect on public health, safety or welfare: There will be no encroachment into public utility easements or right-of-way. There should be no impact on the public health, safety or welfare nor will properties or improvements in the vicinity be materially injured.

Our signatures below indicate that an Administrative Adjustment to reduce the compatibility setback from 25-feet to 18-feet along the east interior side yard is hereby granted, subject to the following conditions:

- 1) The site shall be developed in general conformance with the approved site plan.
- 2) The adjustment shall apply only to the new tenant building in front of the existing structures as illustrated on the approved site plan. All other structures or additions on the subject property shall conform to the locations and setbacks permitted by the Unified Zoning Code unless a separate Zoning Adjustment or Variance are granted.
- 3) The applicant shall obtain a building permit and complete construction within one year of the Administrative Adjustment approval. The site shall conform to all codes including but not limited to building, health and fire.
- 4) If the Zoning Administrator finds that there is a violation of any of the conditions of the Zoning Adjustment, the Zoning Administrator, in addition to enforcing the other remedies set forth in the Unified Zoning Code, may, with the concurrence of the Planning Director, declare that the Zoning Adjustment is null and void.

The "Development Application" sign should now be removed from the property.
