Re: S/D 95-58 MEADOW OAKS 3RD ADDITION (Final Plat)

Gentlemen:

At the regular meeting of the Metropolitan Area Planning Commission on October 12, 1995, the above captioned plat was considered. The action of the Planning Commission was to recommend that the plat be approved as recommended by the Subdivision Committee subject to the conditions stated in our letter of October 9, 1995.

In addition to complying with those conditions, it is necessary that you meet the following requirements before this plat can be forwarded to the City Council for consideration:

1. Submission of the fully completed and signed tracing of the subdivision to the Metropolitan Area Planning Department.
2. Submission of a check, made out to the Register of Deeds, covering the costs of any documents to be recorded as a requirement of platting.
3. Subdivision regulations now require a detailed Lot Grading Plan be submitted to Engineering prior to the tracing being released. This applies to all multi-lot and residential developments.

Please call if you have any questions.

Sincerely,

Don Losew
Senior Planner

Re: S/D 95-58 MEADOW OAKS 3RD ADDITION (Final Plat)

Gentlemen:

At the regular meeting of the Subdivision Committee of the Metropolitan Area Planning Commission on Thursday, October 5, 1995, the above captioned plat was considered. The action of the Committee was to recommend that this plat be approved subject to:

- ☐ A. The applicant shall guarantee the extension of sanitary sewer to serve the lots being platted.
- ☐ B. The applicant shall guarantee the extension of City water to serve the lots being platted.
- ☒ C. The applicant shall guarantee any drainage improvements required by the platting of this property. Such improvements may be included in the paving petition.
- ☒ D. The applicant shall guarantee the paving of the proposed interior streets.
- ☒ E. *K. Hall noted from given to C.E.* As requested by City Engineering, agreements shall also be submitted regarding the redistribution of existing specials/petitions.
- ☒ F. If improvements are guaranteed by petition, a notarized certificate listing the petitions shall be submitted to the Planning Department for recording.
- ☒ G. The applicant shall submit a covenant which provides for four (4) off-street parking spaces per dwelling unit on each lot which abuts a 58-foot street. The covenant shall inventory the affected lots by lot and block number and shall state that the covenant runs with the land and is binding on future owners and assigns.
- ☒ H. Since this is a replat, proper reference to KSA 12-512(b) as amended, shall be noted in the surveyor's text as to the vacation of street right-of-way, easements, setbacks, etc.
- ☒ I. On the final plat tracing, the utility easement along Lots 4 and 5's common lot line shall be clearly labeled as a 10-foot utility easement.
- ☒ J. *20 ft on the plat in clear* That portion of the 20-foot easement along the north line of this plat, but off-site cannot be granted by this plat. A dedication by separate instrument shall be provided for recording with

this plat. The final plat tracing shall note that the 10-foot, off-site portion of this easement has been "granted by separate instrument".

- K. On the final plat tracing, since no Reserve is being plated for this Addition, the reference to a reserve shall be deleted from the plat's text.
- L. On the final plat tracing, signature blocks shall be corrected to indicate John W. McKay, Jr. as the MAPC Chairman and Susan E. Crockett-Spoon as the County Clerk.
- M. The applicant shall install or guarantee the installation of all utilities and facilities which are applicable and described in Article 8 of the MAPC Subdivision Regulations. (Water service and fire hydrants required by Article 8 for fire protection shall be as per the direction and approval of the Chief of the Fire Department.)
- N. The applicant's engineer is advised that the Register of Deeds is requiring the name(s) of the notary public, who acknowledges the signatures on this plat, to be printed beneath the notary's signature.
- O. To receive mail delivery without delay, and to avoid unnecessary expense, the applicant is advised of the necessity to meet with the U.S. Postal Service Growth Management Coordinator (phone 316-729-0102) prior to development of the plat so that the type of delivery, and the tentative mailbox locations can be determined.
- P. Perimeter closure computations shall be submitted with the final plat tracing. Section 5-101(c).
- Q. Recording of the plat within 30 days after approval by the City Council.

If this plat requires the guaranteeing of improvements a list of the five methods which have been adopted as being acceptable is available through the Planning Department. Also, certificates which are required if petitions are submitted and forms for the bond and irrevocable Letter of Credit are also available from this office.

The enclosed "marked" copy of the final plat is for your information and files.

This matter will be forwarded to the Planning Commission for its consideration on Thursday, October 12, 1995 at 1:30 p.m. If you have any questions concerning this matter, please call.

Sincerely,

Don Losew
Senior Planner
