

BACKGROUND: The applicant is seeking "SF-20" Single-family Residential zoning for 21.54-acres of land located west of 215th Street West and on the south side of 21st Street North. The property is currently zoned "RR" Rural Residential and is being used for agriculture. The applicant is proposing to develop 17 one-acre lots. With the property's current zoning of "RR", two-acre home sites could be created, subject to platting without rezoning. Creation of lots less than two acres in size in the "RR" zoning district requires a zone change.

Analysis: Surrounding properties are all zoned "RR" Rural Residential, with one exception; the "SF-20" zoned 16-lot Tower Lakes Addition (single-family residences generally built in the late 1980s to the mid 1990s) located approximately ½-mile northeast of the site. The other properties north of the site, across 21st Street North, are developed as approximately 1.5-acres to over 5-acre single-family residential tracts (large single-family residences generally built in the late 1990s to the present), or are being used for agriculture. The properties to the south of the site are developed as a farmstead and a large lot residential subdivision, the Lake Vista Addition, containing over 40 lots, ranging in size from 0.42-acres to 1.72-acres. The residences in the Lake Vista Addition were generally built from the late 1960s to the mid 1980s. Agricultural land, farmsteads and large tract single-family residences are located to the east and west of the site. The density of the residential development around the 215th Street West and 21st Street North intersection give the area a suburban look. The subject site's Final Plat, the Lake Vista 2nd Addition, was approved by the Metropolitan Area Planning Commission (MAPC) at their August 19, 2004 meeting, but has not been released for approval by the Sedgwick County Board of County Commissioners (BoCC).

The MAPC heard the case on August 19, 2004. Several people spoke in opposition to the request, citing concerns about drainage from the proposed single-family residential development. The MAPC voted 9-0 to recommend approval subject to platting within one year. Planning Staff has received written protest, which represents 22.99% of the area. Because the protests total 20% or more of the area, it triggers the ¾ majority vote requirement to override the protests.

Alternatives:

1. Adopt the MAPC recommendation (requires a ¾ majority vote of the membership of the governing body to override the recorded protests) ; or
2. Override the MAPC recommendation by a 2/3 majority vote of the membership of the governing body; or
3. Return such recommendation to the MAPC with a statement specifying the basis for the BoCC's failure to approve or disapprove.

Financial Considerations: Not applicable

Policy Considerations: The MAPC recommendations are based upon the findings of fact stated in the MAPC minutes.
