Re: S/D 93-29 BRITTAIN INDUSTRIAL PARK ADDITION - (Revised Final Plat)

Dear Mr. Meyer:

At the regular meeting of the Metropolitan Area Planning Commission on Thursday, February 10, 1994, the above captioned plat was considered. The action of the Planning Commission was to recommend that the plat be approved as recommended by the Subdivision Committee subject to the conditions stated in our letter of February 7, 1994.

In addition to complying with those conditions, it is necessary that you meet the following requirements before this plat can be forwarded to the City Council for consideration:

1. Submission of the fully completed and signed tracing of the subdivision to the Metropolitan Area Planning Department.
2. Submission of a check, made out to the Register of Deeds, covering the costs of any documents to be recorded as a requirement of platting.
3. Subdivision regulations now require a detailed Lot Grading Plan be submitted to Engineering prior to the tracing being released. This applies to all multi-lot and residential developers.

Please call if you have any questions.

Sincerely,

Don Losew
Senior Planner

NOTE: This final plat has been revised by eliminating an area originally platted as a Reserve needed for drainage. City Engineering has confirmed that the Reserve is not necessary and may be eliminated.

STAFF COMMENTS:

- A. Since Sheridan is not an arterial and the zoning either side of this street is light industrial, no access controls need to be dedicated. The final plat tracing shall, therefore, eliminate the references to access controls shown on the face of the plat and within the plat's text.
- B. Prior to this plat being released for recording, the applicant shall provide proof that all applicable property taxes have been paid for this site. The platting binder is indicating that certain unpaid taxes may be due on this property.
- C. The applicant's engineer is advised that the Register of Deeds is requiring the name(s) of the notary public, who acknowledges the signatures on this plat, to be printed beneath the notary's signature.
- D. The applicant shall install or guarantee the installation of all utilities and facilities which are applicable and described in Article 8 of the MAPC Subdivision Regulations.
- E. As indicated by the Sedgwick County Soil Conservation District, a portion of this site involves hydric (wetland) type soils and development may require approval in such areas by certain Federal Agencies (Army Corps Engineers).
- F. Perimeter closure computations shall be submitted with the final plat tracing. Section 5-101(C).
- G. Recording of the plat within 30 days after approval by the City Council.
