

STAFF COMMENTS:

- A. As required for "LC" light commercial zoning, the final plat tracing shall indicate a 35-foot building setback from Grove.
- B. The final plat shall indicate the platting of the 35 foot building setback from Grove through the existing building which encroaches into the setback area. Central Inspection has advised that the platting of this building setback does not preclude the property owner from maintaining or remodeling that portion of the building within the setback area. The building cannot, however, be enlarged within the setback and, if the building is removed, any new building construction must observe the platted building setback.
- C. As was offered by the applicant during review of the zone change, a covenant shall be provided concerning the uses to be allowed on this site. This covenant, signed by the property owner, needs to be submitted, for recording, with the final plat tracing. If the applicant chooses to use a covenant different than the one provided during the zoning review, the City's Law Department will need to review and approve any such covenant.
- D. As indicated in the platting binder 1991 taxes on this site have not been paid. The applicant shall provide proof that these taxes have been paid prior to the release of the plat tracing for recording.
- E. Also indicated in the platting binder is a mortgage being held by a savings and loan. The final plat tracing shall indicate the signatures for this mortgage holder or a release of the mortgage shall be provided.
- F. The applicant is advised that at the time of site development the applicant will need to prove to the Office of Central Inspection that sufficient parking can be provided for the intended land use.
- G. On the final plat tracing the plat name may be changed to the Briscoe Addition.
- H. The applicant shall install or guarantee the installation of all utilities and facilities which are applicable and described in Article 8 of the MAPC Subdivision Regulations.
- I. The applicant's engineer is advised that the Register of Deeds is requiring the name(s) of the notary public, who acknowledges the signatures on this plat, to be printed beneath the notary's signature.
- J. Perimeter closure computations shall be submitted with the final plat tracing. Section 5-101(c).
- K. Recording of the plat within 30 days after approval by the City Council.

February 13, 1992

STAFF REPORT
(Final Plat Approved 2/6/92)

CASE NUMBER: S/D 92-3 - BRISCOE (COG CREDIT UNION)

Re: S/D 92-3 (Final Plat) Briscoe (COG Credit Union)
Addition

Dear Greg:

At the regular meeting of the Subdivision Committee of the Metropolitan Area Planning Commission on Thursday, February 6 1992, the above captioned plat was considered. The action of the Committee was to recommend that this plat be approved subject to:

shown
A. As required for "LC" light commercial zoning, the final plat tracing shall indicate a 35-foot building setback from Grove.

B. The final plat shall indicate the platting of the 35 foot building setback from Grove through the existing building which encroaches into the setback area. Central Inspection has advised that the platting of this building setback does not preclude the property owner from maintaining or remodeling that portion of the building within the setback area. The building cannot, however, be enlarged within the setback and, if the building is removed, any new building construction must observe the platted building setback.

submitted
As was offered by the applicant during review of the zone change, a covenant shall be provided concerning the uses to be allowed on this site. This covenant, signed by the property owner, needs to be submitted, for recording, with the final plat tracing. If the applicant chooses to use a covenant different than the one provided during the zoning review, the City's Law Department will need to review and approve any such covenant.

~~B.~~ As indicated in the platting binder 1991 taxes on this site have not been paid. The applicant shall provide proof that these taxes have been paid prior to the release of the plat tracing for recording.
