Re: S/D 88-63 - SHOWALTER-BINTER ADDITION - "R-1" to "C",
1/4-mile south of 55th Street South and west of
Broadway.

Dear Mr. High:

At the regular meeting of the Metropolitan Area Planning Commission on September 1, 1988, the above-captioned plat was considered. The action of the Planning commission was to recommend that the plat be approved as recommended by the Subdivision Committee subject to the conditions stated in our letter of August 26, 1988.

In addition to complying with those conditions, it is necessary that you meet the following requirements before this plat can be forwarded to the Board of City Commissioners for consideration:

1. Submission of the fully completed and signed tracing of the subdivision to the Metropolitan Area Planning Department.
2. Submission of a title report by an abstract or title insurance company or an attorney's opinion that fee title is vested in the platator.
3. Certification that all real estate taxes for the first half of 1988 and all prior years have been paid.

Please call if you have any questions.

Sincerely,

R. Timothy Bickhaus
Junior Planner

- J. The applicant shall install or guarantee the installation of all utilities and facilities which are applicable and described in Article 8 of the MAPC Subdivision Regulations.
- K. Perimeter closure computations shall be submitted with the final plat tracing [Section 5-101(C)].
- L. Recording of the plat within 30 days after approval by the City Council.

AGENDA ITEM NO. 2-4

STAFF REPORT

VICINITY MAP:

SUBDIVISION COMMITTEE RECOMMENDATIONS:

- A. This site presently does not have access to municipal water or sewer. For on-site water and sewer, Health Department and zoning regulations require 40,000 square feet at a minimum. This site in total is just over 72,000 square feet and consequently cannot be platted into two lots. The final plat tracing should therefore depict the platting of only one lot.
- B. Since neither municipal water nor sanitary sewer is available to serve this property, the applicant shall contact the Environmental Health Division of the Health Department to find out what tests may be necessary and what standards are to be met for approval of on-site sewage facilities and water wells. A memorandum shall be obtained specifying approval.
- C. The applicant shall submit a petition for the extension of municipal water across the front of this plat. This petition will be held until it can be combined with other petitions in the area.
- D. The applicant shall guarantee the closure of those driveways in excess of the access control being platted.
- E. If improvements are guaranteed by petition, a notarized certificate listing the petitions shall be submitted to the Planning Department for recording.
- F. The final plat tracing shall indicate complete access control to Broadway, except for two openings across the east line of the plat.
- G. The platting's text shall reference the platting of access control being dedicated to the "appropriate governing body" with the openings determined by the "appropriate Engineer."
- H. On the final plat tracing, the County Commission's signature block shall be amended to reference the following names in the following order:
 - 1. Mark F. Schroeder, Chairman
 - 2. Billy Q. McCray, Pro-tem Chairman
 - 3. David Bayouth, Commissioner
 - 4. Tom Scott, Commissioner
 - 5. Bernard A. Hentzen, Commissioner
- I. The applicant's engineer is advised that the Register of Deeds is requiring the name(s) of the notary public who acknowledges the signatures on this plat to be printed beneath the notary's signature.
