

STAFF COMMENTS:

NOTE: Park City has advised that this property is within their sanitary sewer service area and that studies are underway for extending municipal water to this general area. This property is within an area of ground water contamination.

This plat has been rescheduled for hearing before the Subdivision and Utility Advisory Committees for purposes of discussing the requirements to extend sanitary sewer and municipal water to the industrially zoned property.

The previously established conditions of approval for this industrial subdivision are as follows:

- A. The applicant shall guarantee the extension of sanitary sewer to serve the lot being platted.
- B. The applicant shall guarantee the extension of municipal water to serve the lot being platted. If a valid petition can be obtained, the guarantee may provide for the water to come from the south.
- C. The applicant shall guarantee the paving of the proposed interior street to the industrial street standard. This guarantee shall provide for storm water sewers.
- D. The applicant shall guarantee any drainage improvements required by the platting of this property.
- E. If improvements are guaranteed by petition, a notarized certificate listing the petitions shall be submitted to the Planning Department for recording.
- F. If sanitary sewer cannot be immediately extended to serve this site, then approval will need to be obtained from the County Health Department, as well as the State Health Department, for a temporary nondischarging sewage lagoon. A guarantee, to Park City, for future extension of sanitary sewer to serve this 5-acre lot is still required, even if approval for a temporary nondischarging sewage lagoon can be obtained. The timing for extension of sewer to serve Lot 1, as well as the method of guarantee, shall be worked out with the City of Park City.
- G. The final plat tracing shall correct the M.A.P.C. signature block to reference ELTON PARSONS, as M.A.P.C. Chairman.
- H. Perimeter closure computations shall be submitted with the final plat tracing. Section 5-101(C).
- I. Recording of the plat within 30 days after approval by the City Council.

Re: Final Plat S/D 86-31 - SIMON INDUSTRIAL PARK ADDITION

Dear Gentlemen:

At the regular meeting of the Metropolitan Area Planning Commission on December 10, 1987, the above-captioned plat was considered. The action of the Planning Commission was to recommend that the plat be approved as recommended by the Subdivision Committee subject to the conditions stated in our letter of December 4, 1987.

In addition to complying with those conditions, it is necessary that you meet the following requirements before this plat can be forwarded to the City Council for consideration:

1. Submission of the fully completed and signed tracing of the subdivision to the Metropolitan Area Planning Department.
2. Submission of a title report by an abstract or title insurance company or an attorney's opinion that fee title is vested in the platlor.
3. Certification that all real estate taxes for the first half of 1987 and all prior years have been paid.

Please call if you have any questions.

Sincerely,

Donald Losew
