All vehicle parking, storage and display areas shall be paved with concrete, asphalt or asphaltic concrete and the spaces shall be striped as shown on the site plan. A new site plan shall be submitted for review and approval if any vehicle service or repair work is proposed in the future.

SECRETARY'S REPORT

CASE NUMBER: BZA 22-92

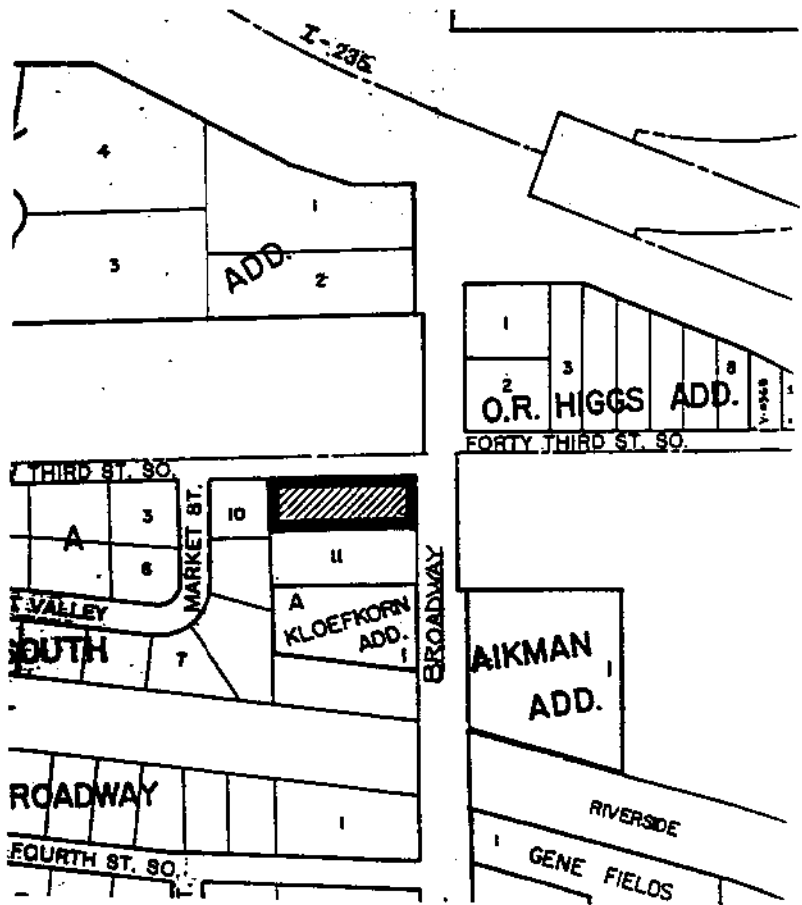

OWNER-APPLICANT/AGENT: Eloise Morris McMurtry Revocable Trust
(owner-applicant)
Mike Williams (agent)

REQUEST: Exception to permit a used car sales lot

CURRENT ZONING: "LC" Light Commercial District

SITE SIZE: 29,400 sq. ft.

LOCATION: Southwest corner of Broadway & 43rd St. S.

JURISDICTION: The Board has jurisdiction to consider this request under the provisions outlined in Section 2.12.590.C, Code of the City of Wichita. The Board may grant the exception, provided the conditions set out in Section 28.04.183(2) can be complied with.

BACKGROUND: The agent, Mike Williams, operates a printing business at 4403 S. Broadway on property owned by the Eloise Morris McMurtry Revocable Trust. He is requesting permission to have a used car sales business on a portion of this "LC"-zoned property. The existing 1,500 square-foot building located on the east portion of the property will remain and will continue to be used for the printing business, as well as for the car sales business. The site is paved from the building east to the front property line. The remainder of the site is unpaved, but is not proposed to be used by the applicant for car sales or customer/employee parking. Broadway is a four-lane paved street with a continuous roll curb providing access to this site at any location along the frontage. Forty-third Street is an unpaved street also providing access to this site at any location along the north property line.

A review of land uses along Broadway from 31st to 47th Streets South reveals the predominant land use to be vehicle-related. There are numerous vehicle repair, vehicle sales, mobile home sales and even one or two non-conforming vehicle salvage businesses within this area. Most of the frontage along Broadway is zoned "C" Commercial with a few properties remaining "LC" Light Commercial, as is this application area.

The applicant's site plan (copy attached) shows 10 paved spaces for used car sales display and 10 paved spaces for employee/customer parking. The employee/customer parking is sufficient for both businesses, based on one per 250 square feet of building, plus two per 10,000 square feet (or fraction thereof) of lot area used for car sales. A small portion of the existing building will be used as office space for the car sales business. It is not often that the Board approves a car sales lot on the same site as another business, especially one totally unrelated to vehicles such as this printing business. However, in this case, the lot is large and even the smaller, paved portion of the lot is large enough to accommodate the parking needs of both businesses. The proposed use is completely in character with other uses in the area.

Any future use of the lot area north or west of the building for any car storage, display or parking will require submission and approval of a revised site plan and the paving of additional lot area. It may also require screening along the west property line if the area to the west remains residential. Screening will not be required at this time, since no use is proposed for the west 175 feet of this property.
