A fire may be built in any outdoor stove, oven, fireplace, barbeque pit or portable burner for the purpose of cooking food; provided, that any such fire so started shall be extinguished and made safe before the persons starting or maintaining the same shall leave the place where the fire was started.

Provided, however, that during dry climatic conditions and high-velocity winds in the city, the mayor may declare by proclamation an emergency and prohibit under penalty of law the starting of fires of any description in the open air or the burning of any pile of papers, shavings, weeds, brush, leaves, grass, or other combustible material within the corporate limits of the city.

Provided further, that said declaration of any emergency by the mayor shall be for a given length of time and shall be subject to ratification by the board of commissioners at the next regular meeting of said board of commissioners following the declaration of an emergency by the mayor.

Provided further that businesses and industries which must, in the conduct of their operation, start fire to combustible material or make fire of any description in the open air may make application to the chief of the fire department for special permission to start fire to combustible material or to make fire in the open air. Such burning, when authorized, shall not take place closer than twenty-five feet (25') from any permanent structure unless said permission specifically allows it, nor shall any burning permitted under this section be carried on without one or more persons in direct attendance and as may be specified by the chief of the fire department or his authorized agent.
