# STAFF REPORT

MAPC May 3, 2007

**CASE NUMBER:** CON2007-00012

**APPLICANT/AGENT:** Youth Horizons, c/o Earnest Alexander (property owner/applicant), Baughman Company P.A., c/o Russ Ewy (agent)

**REQUEST:** Conditional Use to permit a 32 square foot sign (county) and to permit specific accessory uses in an existing accessory structure on RR Rural Residential zoned property

**CURRENT ZONING:** "RR" Rural Residential

**SITE SIZE:** 20 acres

**LOCATION:** West of 63<sup>rd</sup> Street East (Woodlawn), approximately 2,300 feet north of 109<sup>th</sup> Street North

**PROPOSED USE:** Group Residence, Limited

**BACKGROUND:** The application area is 20 acres zoned RR Rural Residential located west of 63<sup>rd</sup> Street East (Woodlawn), approximately 2,300 feet north of 109<sup>th</sup> Street North. The applicant is seeking to amend the existing Conditional Use permit (CON2005-00051) for this property to define the uses allowed for the accessory building and to allow the placement of a 32 square foot ground sign at the property entrance.

According to Section 6-346(g) of the Sedgwick County Sign Code *“This Article shall apply to all uses zoned by or within a Community Unit Plan, Planned Unit Development or Conditional Uses; provided that alternative or additional requirements concerning signs may be established on specific sites upon the approval of the Community Unit Plan, Planned Unit Development or Conditional Use by the Governing Body.”* The final approval of the Conditional Use for group residence, limited, in RR zoning in the planning commission case was after the adoption of the 2004 Sign Code. The Sign Code gives only the Metropolitan Area Planning Commission (MAPC) and the County Commission (BoCC) the authority to determine appropriate sign standards within Conditional Uses.

The applicant is proposing a 32 square foot sign made of formed cast concrete with a letter height of 10” with the square footage for the letters being 12 square feet. The proposed sign is to be lit indirectly with the overall height of the sign structure at eight feet and the sign itself being seven feet. The County Sign Code only allows for business signs to be eight square feet, a maximum height of six feet, lighted indirectly with white incandescent lights in a RR zone (Section 6-346.) The code does allow for business signs for churches, schools, mining or quarrying uses to be 32 square feet, but this particular use does not fall under those uses listed. This proposed sign exceeds all the standards set forth in the County Sign Code for a business sign in a RR zone.

The other amendment to the Conditional Use is for the assigning of uses for the accessory structure currently on site. Once the primary structure is completed and operational, the applicant proposes to utilize the accessory structure for ancillary storage, common meeting space and as a cafeteria/dining hall.

The site plan submitted with the application depicts the primary group residence structure, an accessory structure, a lagoon and the proposed location of the new sign. Access is to 63<sup>rd</sup> Street East (Woodlawn), which is a sand and gravel road.

Surrounding properties are zoned RR Rural Residential and are mainly farmsteads and large agricultural or residential tracts.

**CASE HISTORY:** Conditional Use for a group residence, limited, approved on January 25, 2006. Platting was not required since there is only one residence on the site.

**ADJACENT ZONING AND LAND USE:**

NORTH: RR Rural Residential; farmstead  
SOUTH: RR Rural Residential; agricultural  
EAST: RR Rural Residential; agricultural  
WEST: RR Rural Residential; agricultural

**PUBLIC SERVICES:** On-site services will be used, as publicly supplied sewer and water are not available.

**CONFORMANCE TO PLANS/POLICIES:** The Comprehensive Plan's "2030 Urban Growth Areas Map" depicts this site as appropriate for "rural" uses. Rural areas are primarily intended for agricultural uses, resource based uses and other non-agricultural uses having no impact greater than typical agricultural uses, and do not require publicly supplied services. This site is outside of any projected urban growth boundaries.

**RECOMMENDATION:** Based upon information available prior to the public hearings, planning staff recommends that the request be APPROVED, subject to the following conditions:

**Existing Conditions:**

1. In addition to uses permitted by right in the RR Rural Residential district, the application area shall be approved for a "group residence, limited" use for up to eight children plus seven staff members. At least one supervisor employed by the agency operating the residence must be present at the home at all times when children are present at the home.
2. The site shall be developed in substantial conformance with the approved site plan, and in conformance with applicable Wichita-Sedgwick County Unified Zoning Code requirements dealing with "group residence, limited" uses, except the number of resident children shall be limited to eight.
3. The applicant shall obtain all applicable permits required to legally operate the requested use prior to commencing "group residence" activities.
4. If the Zoning Administrator finds that there is a violation of any of the conditions of the Conditional Use, the Zoning Administrator, in addition to enforcing the other remedies set forth in Article VIII of the Unified Zoning Code, may, with the concurrence of the Planning Director, declare the Conditional Use null and void.

**Additional Conditions for the Amended Conditional Use Permit:**

1. The accessory building is to be restricted for the following uses: ancillary storage, common meeting space and cafeteria/dining hall.
2. The accessory building shall meet all applicable building codes prior to occupancy.
3. The accessory building shall conform to the Unified Zoning Code definition of "Accessory Structure and Accessory Use", and shall be used for activities directly associated with the principal use as a Group Residence only.
4. Sign is to be constructed as shown on the approved sign plan.
5. Development and maintenance of the site shall be in conformance with the approved site plan.

This recommendation is based on the following findings:

1. **The zoning, uses and character of the neighborhood:** Surrounding properties are all zoned RR Rural Residential and used for agriculture and farmsteads. This is a rural

area.

2. The suitability of the subject property for the uses to which it has been restricted: The site is zoned RR Rural Residential which permits a rather limited range of uses which are primarily residential, agricultural and institutional uses typically found in low density residential settings. The site could be used as currently zoned.
3. Extent to which removal of the restrictions will detrimentally affect nearby property: Approval of the request subject to the recommended conditions should limit anticipated negative effects to nearby properties.
4. Relative gain to the public health, safety and welfare as compared to the loss in value or the hardship imposed upon the applicant: Approval would provide the applicant additional space to properly serve the children in need of care. Denial would force the applicant to amend his plan in order to fit the accessory uses within the primary structure. The limitation on the number of children and the types of uses allowed in the accessory structure should protect the public's health, safety and welfare.
5. Conformance of the requested change to the adopted or recognized Comprehensive Plan and policies: The plan does not contain policies specific to this request however, the proposed 20-acre site is consistent with the property's "rural" designation, and large lot residential uses found in rural areas.
6. Impact of the proposed development on community facilities: The proposed use should not impact community facilities to any greater degree than individual residences located on 5-acre lots. The 20-acre site could be platted into at least four five-acre home sites, which could generate up to 40 daily vehicle trips.
