

100 Good 5-18-62

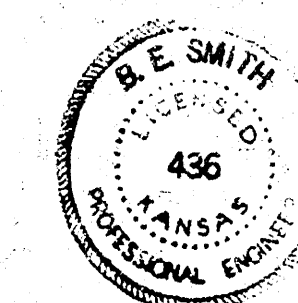

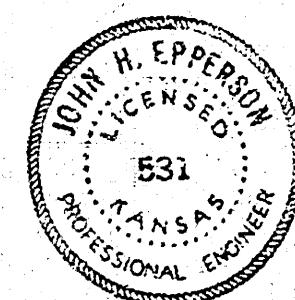

New Comb. Cb. & Gutter to be 40' bk. to bk.

Note:  
Remove existing surface, repair base with 7" concrete as necessary, level up with asphaltic concrete, & resurface with 2" asphaltic concrete.

Notes:  
Remove curb, c&g, gutter, driveways and sidewalks as shown on plan. Replace with standard 2.5' curb, curb and gutter. Field engineer shall match existing drives & walks where ever possible. Additional driveway & sidewalk work (other than shown on plan) may be completed ~~only~~ after obtaining written approval from the City Engineer so that charges may be assessed properly to that lot.

Sheet no

N.L. Second to S.L. Central

## Improve & Reimprove

B.E. Smith City Engineer  
Date July 1961 Proj. No. 60-73
