

PLAN  
 CITY OF WICHITA  
 SANITARY SEWER  
 PROJECT NO. 1000  
 DATE 7/31/85

- NOTES:
- Contractor to verify location and elevation of sanitary sewer lines, and other existing utilities prior to construction of new sanitary sewer lines.
  - For plugging and abandoning existing sanitary sewer lines and manholes, refer to "City of Wichita" details and specifications.
  - Contractor to field locate and maintain existing sewer line in service throughout construction. Reconnect sewer as required.
  - Contractor to coordinate with City of Wichita to remove and replace existing pavement within English Street Right-of-Way.
  - All existing pavement (except English Street) must have curbs, gutters, and parking areas, etc. to be removed "by other" prior to sewer construction.
  - All construction and materials to be in accordance with "City of Wichita" standards and specifications.
