Note: Size - Shade Trees - 2-2 1/2" caliper min.
Ornamental Trees - 6-8" Ht. min.
All trees are to be supplied balled and burlapped.

- NOTES -
1. Caution! The landscape contractor will be responsible for the final location of all utilities during installation of the landscape work. All changes in tree locations, due to conflicts with utilities, will be done as directed by the project engineer.
 2. Adjust the location of new tree planting, so that any existing trees are incorporated into the plan, all changes per the approval of the project engineer.
 3. All trees to be planted, fertilized, staked, mulched, pruned and wrapped in accordance with standard practices. (See tree planting detail.)
 4. Mulch is to be chipped wood "tree service" mulch not infested with insects or disease.
 5. Coordinate planting plan with Maize Road paving plans - Project No. 87-U-1560-01.
 6. All trees shall be northern grown - plants grown in nurseries one (1) year or more, located in hardiness zones 3-6, per the USDA map.
 7. Trees furnished shall be well-branched and well-proportioned particularly with respect to the height-width relationship.
 8. Location of overhead street lighting poles shown as + on the plan.
