I heard people talking about this. I will make sure they get the info now. Thank you.

Subject: Riser installed for 12704 E. 27th N.
Sensitivity: Private

We recently installed a riser via change order to a City project to serve the address above, also known as Reserve F – Woods North 3rd. The riser is 12' downstream of MH 6250-162. The end of the riser is 12' west of the sewer main and is marked with pvc pipe and tape, just as our riser detail shows.

I received a call yesterday from the consultant that OCI (I can't remember their new initials) did not have this information and it may have been holding up a permit. We had not had the chance to send this information upstairs yet.

Justin and I are out of the office today. Could one of you please check with them to see if they need this information? The riser was installed by McCullough Excavation. We can send more formal documentation next week, but just wanted to get this information upstairs quickly. Please call me if there are any questions that need answered. Thank you.
