 1" = 5' Vertical  
 \* = Iron

All Storm Water Sewer Inlets and pipes that drain to the proposed RCB in Hydraulic street R/W shall be covered and plugged. This is to ensure that no run-off or soil enters the system. The Contractor shall grade the affected easements to match the 'new' grades as shown on the easement grading plan to allow for temporary positive drainage.

**NOTE:**  
 Contractor shall install Reinforced Concrete Pipe in street right-of-ways as shown on the plan sheets. At all other locations, contractor may install Storm Water Sewer Pipe meeting City of Wichita Standard Specification. (Note typical all sheets unless stated different otherwise.)
