FHWA REGION NO	STATE	PROJECT NO	YEAR	SHEET NO	TOTAL SHEETS
7	KANSAS	54-87 K-4445-01	1996	36	73

New pipe is to be installed so that the top of the water line is below the new SWS and the existing SWS.

NOTE: 1. Contractor shall field verify existing water line locations and elevations prior to construction. New pipe shall be installed to clear the proposed SWS and provide a minimum of 3.5' of cover.

2. For Water Assembly Details, See Sheet 37.

ROBERT A. YOUNG LICENSED 36?? PROFESSIONAL ENGINEER STATE OF KANSAS

All material an installation methods shall be in conformance with Standard Specification #14533 for the installation of watermains for the City of Wichita.
